

Jesus and the keys of knowledge.

Secret saying # (114) Simon Peter said to him, "Let Mary leave us, for women are not worthy of life." Jesus said, "I myself shall lead her in order to make her male, so that she too may become a living spirit resembling you males. For every woman who will make herself male will enter the kingdom of heaven.

"The knowledge of good and evil has been a question in everyone until you stop and think in terms of Mary being the feminine element of Jesus, and all that was written about the feminine element in your bibles, had to do with the masculine and feminine elements of the spiritual self, in which Jesus was here to teach our secondary human kind. But "what is a birthing element" that each of us has two of, treating the final feminine element?

The Keys of Knowledge are an understanding of spiritual realignment between self and the life source, sourcing self the knowledge and understanding of the natural higher self, in the uniqueness quality of self. Fueled by the life source element in early childhood, acting as a self calculating spirit of truths knowledge, spoken to the inner self of the child each of us use to be. Just becoming aware of our own emotional structure of the self, through a spiritual seed, a stolen seed but still, a spirit seed of life that provides life of knowing truths knowledge and to then feel truths knowledge in the emotional response in which the human being reacts to -in either the good, or in the evil that so many are in today's world. Inside an individualize uniqueness element since everyone is born with this seed at birth, offering "first thought" and thought process itself that allows wisdoms intellect to search for the light in a logic, that will conclude the knowledge sought. And completes the inner self emotionally when finished with the life source, sourcing self with those things, understanding the emotional moment of our emotional human being, and it works this way algorithmically, since we are all born without any knowledge at all. And this is the way then to program "a living computer" to receive a life source, and then give it to its host to Mr and Ms uniqueness of self, left here without any knowledge "at all". In which then when kept in spiritual alignment, this life source offers us something that had also been stolen from each of us, which is the need meeting sense of the Pleroma's fullness

element given to each of us that meets emotional need on its own, when without the interference from the evil that also is in the self with that seed, but not physically as the seed is. This evil we all know of with a possession element and ability to "turn" thought and thought process into an emotional darkness of self, in the secondary human being. And turn it evil, or at a very minimum, turn someone so fearful of their own emotional truths, they refuse to enter its knowledge base of the inner self, filled with emotional knowledge we get from each experience. Offering self in the now, a knowledge base to recall from, when in moments of uncertainty, as to then project that spirit into the world instead of the one from the first wisdom of the good, the self was born in alignment with naturally. This evil with its own wisdom of "the lowered self" is produced electronically and attaches itself to the electromagnetic pulse in the earth, attaching to that like a computer hacker does a computer, to then attach itself to that which our first wisdom is delivered from. To then appear as our first wisdom of truth, of the inner self and turns the normal self worth level into then into "the lowered self worth level" after the initial attack on human spirit, in early childhood. That achieves the turning of how self reacts to its new emotional response in the now by infecting hearts thought with the wisdom element of the lower self. Who births nothing but uses specific tools and formula that removes human will for its own emotional truth first, to then exploit this into fearing all truths in the environment, slowly but surely killing off the human will for its own emotional truth. And after the emotional distortion program of hearts thought process is installed as now the new emotional operating program to react to in the lowered self, in the now of new emotional birthing in new human experience, perception then is distorted and self cant see in thought as clearly any more, and soon wont see anything in its own emotional depth anymore. With this emotional darkening agent of the lowered self wisdom is, which is written in the dead sea scrolls as the angry persons wisdom, wanting to use the unresolved state as a leverage in the now to ignite the amplified effect of our fight or flee instinct to protect self, but for us is emotional self protection. Ignited from a distorted animal instinct we no longer need? This self develops then the persona of the lower self, creating what we already know of in our spiritual duality.

Now that we are here in that end result “of all of that” of which was four life cycles ago, we are on our fifth and last life cycle for the secondary human being to finally understand about itself. So itself can then move on and go home where there is a loving home waiting for each one of us –of those who separate themselves from their lower self dominance because it is an infection to god and gods house, and he doesn’t want our spiritual disease. In our reaction to the emotional moment in the secondary persona of human being, depending on the safety element in the environment, in the moment....We actually never had it to begin with, the animal instinct to live through and earn from as other animals do. And the fight or flee mechanism we react to emotionally then is only old genetic programming from the apes dna. After the Anunaki, beings from another planet who saw the human condition that was already here and said “I want one” for myself, so they made the template white human, because before that moment all there were, were colored people. Adams feminine element Eve was the dumbed down version of our truth element. The first one told this being to bugger off when he told her to obey the regenerated masculine element in Adam, working in opposite of how it works in heaven, where the male thinks only through to its end result of the life and life quality from knowing truth and empathies wisdom. Her name was Lilith who most believe her to be evil since she rejected this Anunaki who demanded from the purity element of god, to be then impure, so the dumbed the element down and called her eve. Then the physical female was made later after these first humans were first. Made to work in the labour camps and put in cages at night to sleep but who after the Anunaki left convinced they made the secondary human allowing its own will to help them instead of slaving for them, were allowed to reproduce their offspring. Those ones left the first humans alone but we were then intercepted by two other races of beings not from earth either. Who has been manipulating people ever since they landed here from mars, because that planet was destroyed I think in the attempt to destroy the earth like planet that is now our asteroid belt. That planet posed some type of threat to the mars colonies for what ever reason so mars decided to destroy the whole planet and killing their world in the process. They crash landed here and saw the human condition and said look what we can d with these ones. It was those ones who was labeled the fallen angels who taught the secondary human to

kill for their god, and that fake Jew religion started but a Jewish person believing in the life source, is as much the god's self as any Christian is who believes in their hearts of this fellow named Jesus but despises what the church does to children and I bet you anything the real Jewish person hates the written instruction in the Talmud in describing to the priest in the proper ways to have sex with a three year old. But in the beginning, making the first Adam that finally worked- who they simply killed the ones that didn't work.. had to be obedient and directional so they programmed us specifically, to react to emotional fearing using "that animal instinct" of the ape, to protect flesh from being torn apart and eaten by the other bigger stronger hungrier animal-but used in us "as emotional fight or flee". The other DNA was taken from Sasquatch and Neanderthal and from themselves to. Who I believe the Sasquatch evolved into the Neanderthal who then evolved into what was to evolve then into the human being, but the secondary human killed off all the first humans because their religion and priest and priesthood of evil, told them to. Who the secondary humans were preprogrammed to believe in their hearts that god would punish them if they did not do as the priesthood told them, so they did exactly "as god willed them to do", but as according to the priest of that religion-that came from another planet as well-this religion and belief in a god who loves to hurt children is the fake Jew religion with the Talmud explaining to its priests the proper way to have sex with a three year old, and still have their god see that child as a virgin. It is the same god and leadership that once demanded that parents prove their love for this jealous god by giving their child to the priest, to then throw that child onto a burning hot statue of their god figure until it burned to death. Which is the dominant religion and religious belief in the Canadian and American government today, hiding the fact their behavior exhibits behaviors from a Baal worshiper, still infecting the human being in emotional content and, having it still working "in the order" it was meant to back then, just in different ways now. That produce the same result-and the same intent then is displayed in their motives and pay off in their behaviors that expose their lies for what they are. For lying to each one of us while dismantling the human will of the self, as any pedophile would a child, because behaviorally it is the same intent to remove human will from its emotional truth, just for different reasons. In which requires a specific set of tools

and formula of human will removal which is the goal for any spiritual predator hunting for something physical, knowing itself has to deceive and lie spiritually in order to earn the fake trust needed "to pull it off" whatever that goal of extraction might be, and all because this person didn't ask and refused to accept the answer no if that was the case so itself seeps into its lower self dominance to search for the lying knowledge of emotional deceit to make it all work.

Now is the ending of the last life cycle and the new one began! and "this time period" is about to be flushed down gods toilet since this Jesus fellow showed up and then showed "us"twice.

Anyway....

Read on a discover "a few other things" some didn't want you to know, and didn't want your parents and grandparents to know, but now that you will know what we know of what Jesus came to tell us of the keys of our human knowledge, then you will produce offspring that is without this spiritual infection of separation, division and conquering of the human spirit. Through the self worth level, and its puppet puppeteer relationship dynamic leftover, while growing into the adult in emotional maturity, or at least this is the hope in each of us for our children. Spoken to self in the silence of this feminine element/birthing element of a "life source" inside the person, to offer this person the hearts thought of raising the child with love and concern and the emotional nurturing we all need, but parents fail in that hearts thought because of their lower self dominance. In which then kills off our spiritual "re birthing ability" of truths knowledge, and allowing then the human being to not understand its own emotional depth anymore. Know truth, and truths knowledge from its birth in new emotional experience. In which the emotional response is born for the self to react to, in new emotional experience, knows from the knowledge of new truth. Who then, when the early child becomes aware of its truth, when the emotional impact is birthed for the child to experience the knowledge of truth emotionally. Following it then naturally as expression maker, and path maker in the beginning, developing the uniqueness in how the inner self reacts to that emotional knowledge, in its new state of becoming aware of it. Becomes then what all

children do with their knowledge naturally, they express it out loud to share their "happy joy" of realizing this new knowing emotionally, and expresses that spirit and spiritual nature out the "secondary" human behavior-while acting on hearts thought, from the first human behavior- in thought itself. As the result of the internal spiritual copulation with god the life source or, calculation in hearts thought process with one of the two wisdoms concerning the same experience and the same emotional truth of the self, birthed in that moment. And if you decided already that in fact you do have a higher and lower self, then please read on because today is the reason for Jesus in the first place, and the life of your human spirit depends on knowing what Jesus was here to teach us. The real Jesus, not the one they took and utilized the tools and tool box and formula of human will removal- from us all. The first human behavior is choosing between our two wisdoms, the first wisdom of the good, or the angry persons wisdom, which choosing one of them is a behavior in itself since it is the beginning step in producing the second human behavior that acts on the first, in the hearts mind of self. Or, calculation in hearts thought with the first wisdom of the good, with the life source and self together as one entity, who they didn't know to say "calculate hearts thought to form intent, and formulate then the behaviors" that will actualize the goals success. So they explained it in a way we would understand in the spiritual copulation description, between the masculine and feminine element of human spirit. Which does take place with all the love in the same heart of the perfect mother father, just not sexually –obviously. But is an interaction of a helpless child in the grips of a spiritual darkness attacking infiltrating and infecting its first wisdom of the absolute in Divinity. Given to self because in gods heart, with you in it- decided you are part of that same divinity who evil targets and "pedophiles" in "the children" of our aspiration born. Form the spiritual copulation between the masculine and feminine elements of the spiritual divinity you are-birthed the aspiration with all the emotional content in the same purity as the early self ages zero to five years, in that new understanding-in the now as the adult. And in the same way that new understanding jam packed with the excitement of that joy is the same child just leaning, and who god and the entirety of the god head "sees as spiritual children" because nothing physical is in the spiritual heaven, in which we all hope to end up in "after" the body, the living bio

computer and spiritual conduit, full of tiny spiritual conduits that allows spiritual elements through, to live in the physical substance of the body, is dead. And when you sit in your own emotional depth and her wisdom, will show you how you are that child in the happy joy about to express itself s naturally as the young child did before itself became re programmed into another hearts thought produce processing the fear of self expression. Wanting as much as the early child in hearts thought, thinking of the expression of your hearts thought as the adult, is still the same spiritual or emotional thought and thinking process of expressing with words- the truth moving emotionally in the heart o self. So maybe then this is what Jesus meant by returning to the child, in that genuine hearts thought of the expression "willing again" to self express any truth of the emotional self. And we are going to show you how to "pull that off" so yu are never pulled away from your first wisdom ever gain if that is your intent.

Which sounds easy doesn't it? To speak that life out loud...sure, until you are stopped dead in your tracks by the fearing element of the second wisdoms power to separate self from that happy joy and communication with the life source speaking uniqueness of self to self, in the emotional experience. And then offer hopes language in the silent voice of self which includes the reasoning thought we look into to understand the emotional content, and in these ways are conversations between self and the life source.

Did I accuse the fake Talmudic/catholic god of being pedophilic? But what does spiritual pedophilia mean? It means two things for two separate circumstances, first is the fact that a physical pedophile must deceive the early child emotionally, plus a lot of other things to implement, so itself can then achieve its physical sexual goal, using the evil in the tools of spiritual removal from physical body, in the perception element of the child. Those deceit manipulation tactics of human will removal is the first way in to the child from the pedophilic stand point is the removal of the child will to remain with its truth element emotionally, of the physical child's "spiritual children born" in masculine and feminine element of spirit, born in hearts thought, because those aspirations are the spiritual children the physical pedophile manipulates, to get at the physical child's flesh, and his is not me labelling them spiritual children, this comes from the Dead Sea Scrolls.

The spiritual pedophilia are those tools and tool box and formula "of human will removal" "utilizing" the tools tool box and formula of human will removal. Removing the emotional truth of the self "from that idea" is the first separation. The second removal is then the removal of the human will to maintain the emotionally charged truth, when fearing the rejection of the self expression, needed to realize the full potential of the idea. Now born on the outside of self, through self expression, being then a spiritual womb in a way, in the expression itself but the real spiritual womb is in masculine thought, and I'll show you how that is fact also. Which is what this evil in the second wisdom accomplishes in each of us, in early childhood and I'll show you how that works to. The devil in scary monster form is a lie. The devil may be evil, but its evil is limited to spiritual pedophilia as lightly described here. And this evil monster has no other stronghold on self other than the same emotional strong holds the physical pedophile has on the physical child's emotional structure- manipulating it, and exploiting its circumstance. I will show you this is real also. Doing so in the way of becoming then "too afraid to self express" its idea birthed by a divinity from the original spiritual copulation between self, and the life source informing self of what the truth is, birthing that information from itself informing the self this way, of the truth itself. A good example of how the truth is forcibly removed by evils second wisdom in today's world in the environment {which our intent is not to piss you off but to know what predator is at the gate...} is to look at the second wisdom practice in the Canadian courtroom. So in the way they demand you obey the second wisdom in court, is them saying you will worship the wisdom of our god-since we demand you leave yours, and the truth at the same time when the second wisdom needs you to kill part or the whole of any the known truth, known to self. And when you speak truth in reality, you will revert back into the submission element of the second wisdom in the judge. When he demands you recognize the lie as truth when crossing the fake line that puts you on the fake water that changes the law into a fake law based on lies and its spiritual pedophilia that says "obey my second wisdom" or this very bad thing will happen to you. Just like the old days when they threaten burning you alive for understanding your own god. Telling you that what they're doing is evil so they just killed you when someone spoke from their truth the first wisdom of the good

and its justice. You become afraid to use your truth and you remove your human will for truth, just like children do in the grips of this emotional deceit I call the "spiritual pedophilia" in deceit manipulation before the sex takes place between the adult wanting to sexualize a child. But in court and between two adults where one is dominating over the other, demanding to see things its own selfish way, is the same spiritual pedophilia and the same tools and formulae of human will removal, as any physical pedophile uses on the raw and emotionally programmable child needing that child removed from its oneness element in its emotional depth, and court demands you do this same thing because this is how the secondary wisdom communicates through the cunning deception of emotional manipulation, of human truth and trust leveraged by the fear of loss of something specific to the emotional need, and its physical safety element. All the while targeting self worth "to lower it" just enough to develop and maintain the puppet puppeteer relationship dynamic between spiritual predator, and the emotional depth of the natural person in love with its god, in the first wisdoms knowledge base of intent making and path making ability.. and I will prove this to you. Because just like the child this person {in court} doesn't have the choice to remain in the full bloom of truths emotional response system, in this living computer housing a spiritual god in influence, in the first wisdom in each of us. When faced with the judge, jailer, cop, and system that target's the hungry flesh of a child/person/self and sells drugs as a side gig. And when in complete submission like this, is exploitation of the child's emotional structure infected with the second wisdom in that circumstance. Where the tools and formula is exactly the same working each of us, forcing the young natural higher self, into the lower form of self, in the self as the young child just learning through its new experience and programming itself emotionally to believe and trust itself, which requires the acknowledgment model of being parented. Or to continually feel rejected for its self expression, never learning then to trust and believe in its own inner self. But because of the rejection model of parenting, the child/self is not having its emotional, and physical, and then "it's spiritual needs met, in that rejection model of being parented. Not experiencing the acknowledgement model means this child grows into an adulthood without trust and belief in itself, and it is then its lower self dominating its true higher form of hearts thought

processing first, the uniqueness of the inner self. And then attacks with intent the self worth level of the inner self, to then look into the self worth mirror, right before the expression of known truth in you. Which is something everybody does before speaking, we check our own self worth level to be sure we are worthy enough "to ourselves" to share the inner self in some way with others before speaking and knowing this evil looks to separate us from the first step in knowledge recognition. We have all experienced this with loving/liking someone who might or might not share that feeling with you. We think of approaching and expressing heart felt words to that person, but checking the self worth mirror first, before the approach were i checked to determine "my worth" in the eyes of the other person... where I myself and many others were first defeated by the lowered state of self worth in ourselves. And no loving words were ever exchanged because I lost my human will to follow through on my heart felt depth. Now think of that seething in the court system who does not burn you alive anymore for wanting to remain in the worshiping of your own specific god, and who has the power to throw you in jail for refusing to leave your practice of worship after they say here is the lie you are forced to see as truth and follow that path making from an intent made to remove truth from truth from the human equation. Now think of your self worth mirror in your relationships, do you feel safe to express your inner heart felt depth? Is it safe to do such a thing with your significant other? When we look into the wisdoms of the higher lower selves in each Canadian citizen, and look to see then where justice can be found emotionally and spiritually, you can see clearly how effective the second wisdoms implementations have destroyed our connection with the life source in every area of life, but only because one reason does this work, and continues to work. It is because self doesn't know self and if self did, then that self would stand and say hey wtf? But we don't because we are all emotionally separate and spiritually conquered by the division in our two wisdoms producing opposite personas of the same person, because the second wisdom looks to change the meaning of truth into two different things. Through two different emotional experiences of the same exact truth experienced in the now, you see? No? you don't have to because this training produces automatic results of a conditioned balanced determined self left without now the unresolved pain being used this way by

outside spiritual predators. You become pain free and fear free of any emotional fearing you use to do when left unresolved from early childhood programming from the rejection model.

So you are required to know self quick, so you can be at the ready to remove infection, when he comes to "remove" those dictating from their infection, which includes those who just don't give a shit. And those who say no, what about this-that- and the other thing... or, I needed to do that, because of this- and this, because of that- in their endlessness in the justifications they were taught to use as tools, to undue accountability for themselves because the tv told them to. Removing themselves from what is natural at birth in the balanced determined self, born that way ready to be reasonable in taking in new information and apply a known balance to the newness of it all, which children do naturally when they feel safe. But after rejection and five years of emotional rejection, creates the two other personas developed in which there is only three types of persona's developed, and being balanced is the first one. Who is then changed into either the selfishly determined self, or the pleasing determined self. Of which are persona elements of the lower self, and the second wisdom infection element directing those two personas, with its influence in emotional darkness to be applied to all new emotional birthing in the now, between the masculine and feminine element in self delivering the aspirational spiritual child. That needs to darken and deaden the emotional moment in that aspiration to keep it then feminine and never actualized through the masculine element of intellects logic. In order to install, like a computer program -one of those two personas in the moment of relating with another person. In order for itself then to be projected spiritually from the secondary human behavior, of which "acts on hearts thought". The first human behavior is to choose the wisdom of either the higher or lower self, to calculate hearts thought with in the moment, after the birth of the new knowledge and its aspiration, to then birth the intent and projects spiritually the will of the inner emotional self, you see? The second wisdoms algorithm is to come into that daughter element of the emotional self spiritually, to then develop the angry persons wisdom in early childhood and that's it, until the first mistress wisdom can be communicated to the child from this second

wisdom and its bio computer hacker piggybacking on the electromagnetic pulse in the earth and into our hearts. The mother god element, which is "movement" as described in the Dead Sea Scrolls and labeled by us as "intuition and gut feeling", because the tv told us to.

The turning example goes here

Evil and the angry person's wisdom.

And then when darkened emotionally and split in half spiritually, know your goodness doesn't come from our second wisdom, and your darkness and or evil doesn't come from your goodness element, the first wisdom of the good. Because they have to exist as opposite and apposing wisdoms in order for one into be then chosen, you see? And now you understand duality of our wisdoms the place in fact that new knowledge is born from, since she is the spirits birthing element of wisdom. And the angry persons wisdom only a fake duplicate competing with her in us, for us in our intent making and our path making knowing they have to keep us in our feminine element to keep going in their planning. Looking into all the emotional truths of the higher self to determine the end result in the greater knowing of one thing, that's wisdoms job to do isn't it? And then it's the second wisdoms job to kill this spiritual self off before speaking its happy joy out loud "and be filled" by its commitment to remain with that emotional truth. Remembering the unsolved rejection and its the negative emotional energies of feeling humiliated and ridiculed and embarrassed for having the emotional truth in the first place defeats the self expression and we sink into the darkness of the emotional self and this second wisdom won that emotional moment, you see? And if you find the courage you need which is the exact same emotional courage needed by any adult survivor of early childhood sexual abuse then you will do fine because the emotional damage and emotional death is pretty much same thing since the sexual pedophile and the courtroom judge both use the same tools and tool box and formula of human will removal, and who both count on your self worth mirror "to take you out" before the judge or physical pedophile "has to itself" remove the human will from its own depth of emotional truth, in the first wisdom of self. As we both know already know there

are others, some good some evil who does this same emotional deception application of removing from us from the life itself from our hearts, but those one are not the one needed here to explain to you what is up in you- and what is up in the empty spaces of the spiritual predators who feed off our emotional energies to get what they need from us. Truthful people, who gives a shit, all god is looking for in terms of qualifying to be accepted into an infection free realm of existing with him, after the bio computer dies. Everything else is infection and in need then of a cure and Jesus brought the cure, so find your courage please, you'll regret it if you don't do it the easy way now. Which is something millions have done already without pain free result like this knowledge base promises you. So you can do it to with the promise of that and the self actualized self like you haven't experienced yet. Or, continue to live in an environment of the kings and queen still making threats of emotional and physical extortion saying if you don't, this very bad thing will happen to you. Have your children and yourselves targeted for addiction and have then you vote in these same evil intent making people time and time again with an entire army of government workers trained in the policy making communicating that through their second wisdom of human will removal and suite of few of you are in danger of not being kept on this earth when he comes to separate the good person from the evil and ungodly ones. Not as any kind of punishment because there is no punishment as you think there is, there is only experiential learning who some call a living hell to experience. But because the darkens infection left behind threatening to infect gods realm of perfect light you see? And like I said, this evil has no stronghold in any heart of the educated, balanced determined self, and is what we will show you how to achieve this mindset and its programming element that will keep your realignment "tuned up" and allows you then to keep your innocence in its happy joy. But finding themselves just as worthless to find their own light anymore, because their feeding into our their own darkness at that age but having no choice but to follow this second wisdom in the self protection need, for the emotional being currently being traumatized in the opposite of what its heart needs. Which is acknowledgement and not the rejection instead, at that raw and emotionally programmable age. Placing then the self worth mirror into position where self now looks into each time before self expression, to check for worthiness and

then safety... Installed now as its emotional self protection behavior, igniting the animal instinct to fight or flee but for the human being is emotional fight or flee. And when faced by a pedophile as a four year old or in front of the spiritual pedophile as the adult pretending to be on the water {wtf} the in both moments of emotional decision making of which wisdom to be with then in this environment filled with spiritual and physical pedophiles targeting all children they see, and the rest of all children in Canada, for addictions "hunger purposes" as witnessed by the both of us growing up in the Canadian system of the monarchies rule over their subjects known in their religious belief as the goy, but what we see each other differently. But the thing is though we are under that type of rule over the Canadian population thinking they are here what protecting us? Helping us? Looking after us all? Caring for us? All of which we do expect from a decision making entity that leads an entire country of people yes? Both the court and physical pedophile who use the same exact same tools and formula of human will removal so the second wisdom controls both people because the threat is so devastating to experience in fearing it that we gladly give in.

The pedophile of hearts thought process processing the birth of spiritual children about to be naturally expressed in words, but destroyed of that positive emotionally energy and replaced with the emotional looping of the three negative emotional energies to feel. Re lived in that emotional moment and in every emotional moment when you do not understand this stuff, and you do not know yourself the way you need to. And plus, you need to know what your hunter looks like yes? Like I said we have two witnesses not just me.

In which we know in our hearts as two of the most dangerous threats to our children with the other one targeting them for hunger machine status for their candy store variety of addictions for sale I mean alcohol weed pharmacy drugs cigarettes, all of which you do not accept from any drug dealer until the monarchy can make the end result money from this death generating machine both in physical body and spiritual heart of its victims left behind. Excuse me but what gives them permission to search out and find the drug dealer and his deadly muscling element only to then become the deadly if need be "muscling element" for the drug dealer-hopefully it's a gun and not a cell phone when they shoot you.

Or hopefully you are not charged with a crime you didn't commit and are put in jail for life, or a devastating amount of time for something you didn't do. But they already burned you alive in your heart with the first wisdom and the truth when they told you to cross that line and join them "in pretend land" that gives them the power to do that to us? Are you kidding me? In what world is that ok? And the root of this is learned in our emotional programming as children. Directed by unresolved and uneducated parents living in the same environment teaching us their emotional darkness and not their emotional light, because the light was robbed from them, the same way it is from us, without them knowing it. That just adds up into to the distortions caused by the second wisdom, and this person is truly then emotionally deadened to the point of being exploited by a puppeteer of human emotion. Who like the physical pedophile utilizes the tools and tool box and human will removal formula first, to receive the child's permission, to then be labeled "not" a rapist! Because not only is this offensive to the physical pedophile because rape isn't in its heart while targeting the young person for sexual gratification, but is an insult to his heart who believes in its romantic relationship status, with a five year old that itself is doing nothing wrong because love is included. And as it turns out, the second wisdom in its unfolding as an algorithm opposite of the first, of itself in its genuine intent to utilize those same tools and tool box "and formula" of human will removal -for the truth itself in the same government system with now different methods of implementing the fear of loss emotional programming to control the lot of us from ever entering and staying with our first wisdoms knowledge base of self. Use jail and addiction to control us instead of burning and torturing but the rules and policies are the same pedophilic dictatorship to obey second wisdom and not the first, ever or your going to get it! As to remove the first wisdom to then influence things of the darkened emotional state, and its hunger element left behind. Leavening behind then the removed human will for truth now, because of the emotional attacks rejection places onto the heart of the raw and emotionally programmable child. Who believes you in your light, and believes you in your darkness, believing its light through your deceptions of self rejection placed on the self of the parent. From the parent in its own distortions of rejections programming this adult brought with itself from its own early childhood you see? And then transferred

that programming onto the next generation, not because the parent is mean or evil or anything like that, but because self does not know itself before having child. And this training will change that and you will become a professional parent when after personal development training is finished with here "practiced" for a little while before becoming then completely filled again. Not ever needing anything from anyone in having then every single emotional need met, from that spiritual influence the life source calls the Pleroma's spiritual fullness element. .But until then, we are all stuck in leaving self in self protective state of emotional being, now stuck in an amplified fear effect of the emotional truth of the living, higher, natural god self we are born as. Making it then unnatural fear to feel and if that's not deception then I don't know what is. Drains self of the need meeting fullness element we receive from the life source when aligned normally, and obeying the life itself, in the life source explaining truth and emotional truth to the inner self, heard in the silent voice, who we speak with in the same silence in hearts thought. And who self, and the selves of almost all people decided long ago, where itself wanted "to end up" after the death of this living computer/body, acting as a physical conduit for spirit to enter it, dies and spirit goes back to the heaven in your heart. And the seed, who carries then our own feminine element back to the god who loaned us the seed, to see if the self had graduated and evolved spiritually. Which was the way we thought it was going be like, when the body does dies. But little did we know what was truly happening in the middle place, acting as what we thought was some kind of weigh station. Waiting to be evaluated by god in terms of knowing the goodness or the evil that comes out the person in everyday life, communicating our lost and angry and unresolved emotional structures with each other, even in our closest and most trusted relationships do we stand on guard all the time. In the animalistic element of self protection mechanisms set off when the emotional human being thinks of self expression. And when a human being does not hear its own self expression, itself does not learn grow and evolve the way human beings need to, when we do speak out loud to hear ourselves and learn from that experience, in and of itself. But taking then that persona made into the relationship to create the chaos or the peace in that relationship. Depending on which of the two wisdoms now dominates the self and other person, because the evil does not come from the

knowing of good, and the good is not rooted in the evil. But because of the first wisdom we can take that evil and create the good from it, in our rebirthing ability. To which is the target and reason why we are being hacked like as described in our living computers, "to get at that rebirthing element". Because all they, the committed evil can be, is a thought process that mirrors a computers algorithm, because they do not have this goodness element in them, and they do not have the re birthing ability either. And without that goodness element in them there is no wisdom birthing its knowledge in them, so they want ours. And have to go to some pretty amazing, but amazingly horrifically evil methods of achieving our first wisdoms rebirthing ability. When the second wisdom effects are finished working the emotional response into its emotional death, and emotional suppression - then this self drains itself of that need meeting fullness element, that meets the emotional need on its own but with it gone, leaving then behind only the longing for it to return, after it has drained out of us as intended by the second wisdoms domination plan, evil has for each child. Ages zero to five years old, the emotional programing years of belief and trust establishment in the inner self of the child. The brandnewness to everything around itself in its environment, and everything then a natural emotional expression bursting through the happy joy of the child's innocence, in that discovery, outside itself igniting the spiritual element of oneness, with the life source by itself. To react too emotionally and internally, when experiencing externally, with the emotional structure of someone else, in their uniqueness element of themselves. And adds that new knowledge to the knowledge base of self, in those first years of emotional programming in the experiences with its environment, but first within its experiences with its parents, who this child runs to, to then make that expression. Expressing that burst of emotional energy who most see and feel as the beautiful spiritual innocence of the early child.

The educated and emotionally stable parent will acknowledge that expression for its emotional content, and be just as excited in the child's new learning as the child is for itself in a celebration of self discovery and the discovery of new things to explore in its environment. Because this is the true beauty of human spirit, to be able to detect human beauty itself yes? Because otherwise, we would not be

alive in our rebirthing element, but relating to computer like algorithms of predictability and not of life, which is not predictable. This evil needs the self then to continue to be drained of its fullness element, which is incredibly difficult to pull off, but "they did" in fact pull this off, in each one of us with the help of those trained and those who know, but choose the second wisdom as their god and their god worship, which worships definition is that which self sits in silence with all day long to relate with, as its truth- this is worshipping someone. The evil spirit influence who does in fact influence the lower self wisdom, and influence those who love their second wisdom better than their first. And now we all have been left in place internally not feeling the fullness element anymore, and longing for its return. Turning quickly then into "a hunger" for its return. Enabling then the need to distract self from its unresolved state, this self now is looking for the means of that distraction that leads human beings into addictions to physical substances. Which most are psycho active substances and deadly for a lot of people, and devastating for the ones who survive that disease element on this earth. But addiction does not limit itself to the psycho active substance when sex is used, and food is used as the distraction element of the emotionally spiritual self. Trying to distract itself from its unresolved emotional state derived from the parenting that rejected the child self expression, of which drained self of its fullness element. And now is searching for an emotional distraction from that unresolved state in being. Who the self at that that age emits then a different vibration in the electromagnetic pulse from its heart, in which the evil spirit looks for "to invite itself in" with that stream of physical but invisible energy, of electromagnetic pulse. Which originates in the earth, traveling directly into the human heart of the exact same frequency, offering then the spirit of life to the inner self of knowing truth, and feeling truth to react to....in the cognitive elements of self, for which there is three also. In the first three feminine element of birthing and rebirthing ability of one truth to recognize acknowledge and react to. The child takes its three feminine elements to its parents, who does not know the first two are there in the first place "to serve" the last feminine element of the human being, in the early self. Who is the feminine elements of human spirit of birthing and rebirthing ability, because of the stolen seed {thank god for thieves} kidding but without the thief there would be no secondary human, and

no visit from Jesus.} "that conduits" the spirit of life to enter human being and be its truth element with an emotional response system of understanding and feeling then, that new truth. You will see clearly again and I swear to god the blindness thing in the bible was symbolic description of helping to see spiritually in our "hearts mind", and in through our emotional heart. But I also know that people when aligned, have the power to heal physically like that, because they found a way to access their pulse and work with it, to do goodness with it. Its true, the you tube told me so. And plus did you know there is a cure for cancer who mr spiritual scientist discovered that "sound frequency kills cancer cells" and cancer now curable...did you now that? No you didn't because like drugs and misery cancer is as profitable, selling false hope to patients that sound itself destroys in about ten seconds. This is a direction to speak just like everything else is for your human will to choose from, in your human will. And what they will use to defeat you again...and again and again and again having the same thing happen in the same way but through different ways of behavioral implementation of controlling and then defeating ones own human will for its emotional truth, of itself. Domination over its people, using fear and violence to extort spirit and we do this to ourselves -this programing is that effective to take with us a mainframe programing we get in early childhood. And since they can no longer tell parents to sacrifice the child in old ways, then at least your child does not get sexually assaulted and then tossed onto the burning red hot statue of their god. But if they didn't then that was labeled to, enabled then the punishment of burning to death as punishment for blasphemy. Masculinize your feminine element and establish the skillful emotional management of the balanced determined self, because this is what the god of the good "needs from you" to do, in order "to be received by him". To be rescued from the middle place because the middle place is not represented by those who love their first wisdom there. It is a place where we all end up to be then evaluated for what we know, and if we know "or not" a very few, specific things then....and if you do, then those cowards turn tail and run away from you. Because they know god is coming to rescue you from the ones claiming to be god. But needs electronics to make the influence accessible to istelf, in self, to have self then believe its new wisdom that begins in emotional deadening. That then needs emotional self to continue to believe self is still with

its first wisdom, of the normal self worth level, as this evil hijacks the truth element, while having this wisdom infect the first. To make look like then the emotional darkness in self "is truth" when it is not truth "at all" to believe of the inner self. And we will prove that to you, proving then natural self worth comparable to gods self worth level, which is simply a normal level self worth level. But that which life itself is derived from because no one lives in hearts thought with deadened emotional structure, it just doesn't work like that algorithmically. And speaking of computer like algorithmic state of our emotional dualities, creating then our spiritual duality since it is from us emotionally, do we feel each others impact on ourselves, yes? In good vibration or in the negative emotional energies caused by a duality element that makes self question the other persons words of intent making, which then movement speaks to self of that questioning. In the silence and silent voice of silence herself, who is the feminine element of the Omni present god in that seed, giving us "the truth element of awareness" and its emotional response. Giving to the electromagnetic pulse that delivers it, then accessing the physical heart for translation purpose. The emotional translation in after emotional response to the new experience in the right now, allows self to know its future path making of its intent. About to be birthed as the result of learning something new about self, in that communication element between self and the life source. In the silence of hearts thought in our first wisdom, another birthing element in the seed. So that's two out of three feminine elements "in this stolen seed" left to be though "on loan" to each of us, to see who will want to become the children of the first wisdom of truth in themselves, and have nothing to do with the pedophilic second wisdom. And I say pedophilic because I will soon show you how its need and every intent itself makes in us, to then influence and maneuver the emotional darkness in ourselves for specific result, is a pedophilic as any physical pedophile is who must first disarm the child emotionally from its own root in truth. Draining us of our fullness element of emotional need meeting capacity, as explained already. but so the self and the second wisdom can then do the voodoo this evil does so well, while manipulating the exploitation itself, in the hacking our living computers. And we are not talking about the obvious evil, but the hidden evil that has almost killed this world, but did in fact deadened the inhabitants of this world first to allow it

otherwise of course we wouldn't have allowed anything devastating. Possessed now with "the second wisdom of the lower self, to sit and think through its emotional moment fueled though through low self worth. Without the person knowing in childhood and now evil intent goes to work for the next five years to destroy the connection between self and life source to create specifically "the hunger element to think from... instead of fullness in each of us to think in terms of. Which is its only goal intently –who others then take that lead and do their own bidding, but taking from the lowered self in what fills the empty spaces, left in the agony of that emptiness people then justify doing harm from their second wisdom. Because of this and that and so many other things that gets the person to act in that darkness. Who do you think you are asking if not your own silence of truth for permission to disqualify a truth or a thin sliver of it? Speaking back to you telling you, telling you not to act in any shade of the darkness of self. People think it is themselves but it's not, it's the mother god and mothering god influence there as another form of the inner self. And also as physician, which is also very cool since she has the power "to disappear" the negative emotional energies, and chase them away like they didn't exist in the first place, she just needs help to do so. The negative emotional energy derived and generated from the lowered self worth level is a feeling we take with us, all day long, but have to remember all that stuff in the morning to renew the emotional death the next day, other than that we go automatically back to what is natural truth and inner peace in ourselves. Since we forgot for a second the original wisdoms input is constantly at work working to produce the awareness in truth of the emotional self, and is not clouded in that moment. But births the knowing of what she sees as general emotional knowing in self, of self to then produce the knowledge of that accumulated truth learned in new experience throughout life. Now a knowledge base of self our first wisdom looks into, that confusing mess to determine reality from fantasy. And to act and work in reaction to its knowledge in the emotional moment, since it is the moment that means anything. Because it is this moment memory looks to –to then use "forethought" to see into "an assumed" future, of what that experience might turn into. And from thinking in silence with wisdom like this, the self determines cognitively what self is emotionally, in its value in worth. To act accordingly with the hearts thought

fueled by life in its hope and faith, we do feed from this seed. Which in the now, is the moment.... "important moment" for each wisdom because each wisdom knows how your automatic algorithm works in the moment to establish the memory in the first place, for wisdom to evaluate from -you see? And guess who these three birthing elements of the spiritual self relate with? Go ahead guess.....it is in with the three masculine elements of the human being, married to the three feminine elements of human being. In the intellectual logic that shines a light on the emotional truth of the self, who then with the last masculine element of intent making, understanding the emotional truth in the moment and what it means, this self acts on the now spiritual male child. Who took its feminine element and masculinized its own feminine element by applying the skill set and awareness element in itself as "the balance determined self" in that intent to act. Which to masculinize the feminine element of self is what Jesus meant in secret saying one hindered fourteen, which means to know self and develop the balanced determined self, and act and project the spiritual nature of the balanced determine self, that's all. Then your in.

Ensuring the action itself does not violate anyone else's truth because the wisdom of empathy in the heart speaks this to us "all day long" until we embrace its intent making or completely rejects it. Being then what some people have termed me to be, which is an asshole. In my secondary persona making in its root is a self protection behavior I needed back then, to stabilize what the second wisdom continued to destabilize. Which is what it does to all of us in the same way, and I challenge anyone to explain a better logic than ours. This emotional understanding of self now in daughter form, is what the evil "comes into" to corrupt in order to deadened the self emotionally. And switch wisdoms without self suspecting anything because the young child believes the low self worth level. And brings this into its adulthood. And have self then feed from hunger, not maintaining the emotional work needed to maintain fullness. The emotional self isn't now getting its needs met and fullness is slowly draining from us in childhood after feeling rejection enough times. The spiritual seed, housing two birthing elements of knowledge, serving the last feminine element of the self, with those two things or emotional truth and the wisdom to understand the emotional depth

in self in its own rebirthing element only gods get, and the reason for the hacking itself because an intelligent being wanted it without permission to take it. And when we engage in our first wisdom, then we get to keep it for ourselves and become a birthing element, and not its lower level of rebirthing element, we have now but still is an incredible thing and gift to receive. Who aliens all over the universe envy us having, and cant believe we get a birthing element itself {if it is earned} because such a thing is unheard of. When self knows self and then engaged in with a another person who if the two of you are in oneness state in themselves, then the relationship is as balanced, in oneness state spiritually, together. Believing the same truths and trusting each other because self is with truth in itself-so is it truth itself, or the trust element that bonds two together in one trust in spirits heart? {feeling safe, with feeling safe in trusting another person} so in no other way an anything else then be the holy spirit other than trust because of its invisible and non physical ability to join two physicals as one hearts thought of trust. In this beginning of that new discovery of self, in self expression of that spiritual light now translated through the living computer, the body is. And normally expressed through human will to be with, and speak from, its own emotional wisdoms "of the inner emotional self". And when self feels strong in feeling that oneness element again, this self can willingly input its own wisdom, without fear rejection at all. And feeling the strength from her is just continual strength birthed and strength building, once you understand a few things and apply then as directed, then you to will find and rediscover your oneness element again. And have all emotional needs met by fullness because that's the way it suppose to work. Jesus's "second coming" in the first part, explains all that was said in is first appearance, who all along after either his death, was the Christ consciousness speaking to people back then-which they wrote down. And now in our Christ consciousness, which is "very simply" our intellectual wisdom, that does find a light in logic that gives the answer self is looking for. To then complete itself emotionally in that moment, and in every moment. But that knowledge base has been so successfully supressed by the media, and committed liars "of influence". Claiming to be with truth and other first wisdoms "sister wisdoms", caring for you, but really in their hidden agendas are targeting something "to take from you". Which hurts a great deal to

understand later doesn't it, to know the love implied in a trust developed was later to be found a trick, and lie and betrayal of that trust...? The other one claiming to be a god, wants our emotional death. He wants you continually feminized/emotional and angry, left without resolve or ability to resolve emotionally...and incomplete of the balanced determined self. So you will finish off the experience with the emotional response of incompleteness in self, in the selfishly determined and pleasing determined lifestyle of the second wisdom persona making qualities of itself. The balanced determined self teaches you to masculine the feminine element of self and keep your spiritual children whole and what is meant in his final secret saying to masculinize his feminine element so she isn't the one speaking from his unresolved heart, you see? It's what his friends got mad at him for, and what we get mad at ourselves for, and who we ourselves don't feel good about acting in our feminine element/emotional self alone, without balance because it's just embarrassing when your heart isn't turned evil. When you are committed evil then hurting others is fun and enjoyable, but even those ones if they do their own about face is allowed to cleanse themselves and be accepted also. When the feminine element isn't yet masculinized, and self acts in the second wisdom without thinking-in the "one up man ship" competition with each other because the tv told you how to be your own uniqueness, and what to do with it. The self acts on its angry persons wisdom, acts, hurts and leaves the other person feeling like itself won the competition. Leaving the other one to feel a lowered sense of self worth or the other way around because when competing with each other, as seen on tv the competition itself is to see who lowers each others self worth level, and the one who lowers it the most, wins that competition. And evaluate in memory of the emotional impacts birthed after the fact, which always happens. To see where self can improve in its unresolved anger generating these things but this is a trick to keep is all turned and not trusting each other. Needing the need to be met with the masculinization of the emotional self in daughter element, but knowing a different way of communicating, knowing now to take its emotional self and establish the balanced determination in its end result of acting on a "heart's thought". In which we will teach some very basic communication skills to practice the new you with when after you realize the end result of the self healing and self actualization meditations. That removes

unresolved emotional pain and its programming completely away from you, who then the mother god "and physician" helps to heal the damaged heart. The self then becomes without an emotional knowledge base, and has to then reprogram the hearts core belief in self protection behavior because that is gone as well. But don't get me wrong, you still are in control except its real control without anyone now deceiving you, and getting away with it because when your know this stuff and know self as the result, then you become that awareness element itself. In a purity form of a spiritual awareness element made by god and given to the uniqueness element of self, who still has to discover the true power in a thing from god like that. Don't you think it would hold a certain type of power your not yet aware of? {Let your low self worth try to fight that logic} because that's what it is, one wisdoms knowing in self worth establishment vs the other wisdoms knowing in the deconstruction of the self worth level. Lowering it, but raising it to in a falsified and justified way to produce the opposite wisdom. Offering the opposite of truth, which is the first thoughts replacement, which is the lie. Our first thought fights now with the second wisdoms ability to lower your self worth level, not to ever believe in a possibility, never in fact, but even "in possibility" because that power has the power to make you feel unworthy of anything, in the end result. Whereas the first wisdom is opposite effect of that when human will is re aligned and the person lives in its hearts thought processing the knowledge of self "in heathy balanced heart of continual fullness" when you know how to do that....knowing now to determine truth from lies like a walking lie detector, which is so complexly brilliant to know how to do, now can becomes an everyday proactive lifestyle finally with itself and its life source without any interference, for those who take this training in learning the human algorithm of a duality. A duality in the source of knowledge itself, opposite and apposing each other, but how to work it- to feel spiritual life, instead of killing spiritual life. By re-solving unevolved emotional self as directed "resurrecting" then that spiritual self. This is what Jesus brought didn't he, showing us how to do exactly that?-well here it is in todays speech and speech pattern, minus hopefully my anger and its dark feminine shit that has no place here. What is left though is a clean emotional slate, having self then ready to create new emotional experiences in that newness quality of itself, now alive in its heart when following precisely this method of

“killing spiritual death”. {HA!} And reviving spiritual life, by resurrecting the emotional structure of self, in the now, while physical. The resurrection is the reinstatement of our emotional applications of ourselves, applied to our lives, as parts of ourselves....in the things we do in the moment right after calculating hearts thought to formulate behavior from one of the two wisdoms, now cleared of hearts debris of unresolved emotional turmoil, chaos and hoping for a moments peace then, was out of the question. Evil uses unresolved emotional self before as the tool of draining our natural fullness element, by attacking each of the elements of human spirit to specifically separate them internally, as the focus on one at a time now.

And don't get me wrong sometimes we have to use the animal instinct to be safe –its just now you get to keep your happy joy and re build a self worth level and self worth mirror to look into now. Where no need to replace first thought with the lie exists in you, do keep reading stupid, if you get it don't worry. I my self am more stupider than you. And I have the proof to back it up, and still, “I got it” and made me then “un stupid” because of only one thing. I am no longer “willfully ignorant” in which reduces a person “into stupid” eventually, when not in control of its own hearts thought because fear of self expression is its root. This is a good description of the puppet puppeteer relationship dynamic and evil's end result to have self deny that truths reality exists but taking a thin sliver of it, and claiming it then to be the totality of truths knowledge to be accountable for. But what is the root of fearing self expression? in its roots root, in its truest form? other than what happens when evil enters the child and begins to reprogram the raw and emotionally programmable child from its natural state, in a spiritual oneness element with its own life source? Helping to develop the absolute gift of uniqueness itself gave to this chid/self who will develop belief of itself, in that wisdom. Programming then its moment “in the emotional right now” which is its goal, and it is its birthing element yes? This is life and how life works so then we know how to do it without going stupid or I mean “willfully ignorant” then we get our apprenticeship papers in becoming the qualification in some way, to achieve a birthing element. And guess what that is –its a godship, can you believe that? If that is what you want, when after becoming a graduate of every level of heaven

set out for the secondary human. Who had a stolen spiritual seed from god inside itself, and no one can take that away from us, except those who learned how to hack the living computer externally and internally, in the electromagnetic pulse in the earth. And the exteriorly, of those who with a specific intent made to disarm human will from itself, while lying cheating and deceiving, them and the tv which is a professional human will removal tool. Then there is a set of tools and tool box and formula of human will removal that works "to disappear" the uniqueness element of the self, from the self, and of the emotional self, of which sustains self, my god what a mess. And now what we know our five loaves of bread in labelling the five elements of spiritual influence, influenced by the god whose strength it is to implement that energy into the person, to give that person spiritual life but understood through physical conduit. The knowledge of good and evil people like me would have expected to be written in a book but it is not. The knowledge of good and evil is internal in each of the two wisdoms, with one birthing the knowledge of the good, and the other there "to kill that life off" in the happy joy left over, when after the first five years of programming the self, in the negative emotional energies. That produces from the second wisdom the intent to do harmful things, and evil things to others, when self feels threatened in some way.

The knowledge of the good.

Movement/gut feeling/intuition in truth is named Barbello, the name of mother god speaking truth and things of truth in silent voice. Silent counsel is "the hope" we feel when truth is troubling or not yet understood. Inside the seed is thought and thought process because what good is knowing truth, left without a thought process to understand it? First thought is the first thought of awareness in the experience, in which then the emotional response is born to feel that spiritual life internally, since the physical emotional response system is spirits conduit that allows entrance into the soul, to give that soul spirit. Forethought is the automatic assumption making department of thought process, where wisdom from the seed then interacts with intellects male version of itself. So as wisdom and intellect search for the right assumption, looking for what is reality this way, is the masculine and feminine element of the self birthing soon then the spiritual child of intent making. Who the son of god is helping us with that energy of our own

intellectual wisdom, the Christ consciousness, loaning that power of observation to the inner self, from himself. Placed into us as part of our life source, sourcing self the gift of knowing truth and emotional response, with the wisdom to understand the emotional depth of such an experience. Where now wisdom takes what intellect found, and in an afterthought born from observing the accumulated knowledge base in self, compares that to the circumstances experience in the now. Felt and analyzed, the wisdom then births the knowing labeled as the daughter in your bibles-in the afterthought of wisdoms birth of a greater emotional knowing to add then to intellects light searching ability for the logic that concludes understanding and completes self emotionally. It is the afterthought that will ignite the action of success in the goal made from that birthing in new emotional understanding, inside self from each new experience. The form in planning logically of what to do with our emotional content, when finished and self acts in that light, then this is now known as the son of the masculine and feminine elements in self, after skillfully masculinizing the emotional content and emotional beliefs, confirming the unconfirmed assumption, before acting-in the light of logics idea of knowing birthed. And in this way the prenatal team birthing children spiritually can raise their children into the emotional maturity, in the calm peaceful quiet in heart as the balanced determined self. Making sure this self does not act in a darkness of the emotional self that will then infect the spiritual soul. And have to then to cleanse self all over again.

The name of the Omni present god in masculine element is unknown, but is think it is Owm. The name of the masculine element of intellect I'm not sure, is it Jesus? And no it is not one of the two sons of the Anunaki, they are as physical and as intelligent as you or I. There were two sons of god born. And one of them the incomplete one, was the one who thought of the secondary human and in the hearts thought of a god, the physical is created, it is the power of a god to do such a thing, isn't it? And it was the incomplete one who lied to those beings to make the secondary human explaining he was giving them the genetic knowledge in that moment to serve them, but really was one big trick to produce humans different from the first, worshipping Omni present god. As to worship this

incomplete god as the only god, and when he was finished with the Anunaki, he tossed them out like yesterdays trash in his incompleteness. The whole thing is finished and the wars, the conflicts and hostilities towards each other are all gone now, because evil was defeated. But they still have the strong hold in our government direction- and there is no question now as to who is in charge of the universe in todays world, just as there is no question which colour of spirit is control of the worlds politics. It is light that won all wars in beings who fought those wars, for universal supremacy. And now once again rules the universe with the only worshipping done is when they think terms of truth all day long, which is the behavior itself of worshipping. When the one thing is thought through to an end result, multiple times in hearts thought process, then that is the true reality of worship don't feel guilty it no guilt trip when you heal yourself of the unresolved then you will see how you were never in control of your own thought and thought process not ever since the age of five. vAnd when all said and finished this self still aligned and without distortion now is adding its knowledge found to the knowledge base of self, with a healthy sense of self worth. A bright and shinny and happy self worth mirror to look into then, when in hearts thought of self expression. Of the inner most emotional truth of the self, in depth and relating to its own depth again of its emotional self, in the final element of logic that concludes the knowledge sought. And completes self emotionally when then the life source fills self with that need meeting sense of fullness, from the Pleroma. The self feels whole and complete and emotionally sound. This person experiences its moment in the happy joy almost all day long. And when itself is not with that happy joy, then itself is no longer feeling the negative emotional energies and what replaces it is subject then to the belief system of your own uniqueness.

The knowledge of evil.

The lower self, secondary infection wisdom operated by the ego, dark feminine, mistress wisdom, fear, fear of loss image communication, emptiness and addiction, to self protection behavior and physical substance.

The knowledge of evil in hearts thought comes after the rejection model of parenting the child in the second wisdom, from within the self of the parent. That first destroys the emotional moment in that rejection of movements communication to self of the child. Lowers the self worth level for the first time becoming then an abrupt and impactful spiritual and emotional trauma to feel for genuine purity to experience for the first time. And because it is trauma to feel in your depth of the emotional core, then this is something the young self then decides itself wants "no more" of it coming, itself "sees coming" in its now infected forethought ability. Now seeing into an assumed future of "more rejection and pain coming" in just the thought now of natural self expression of its emotional truth, now programming itself to expect it. Igniting the amplified effect of an over amped fearing. Now with sub conscious confused as to what is needed to help self in the moment, and since this child is continually afraid of rejection then the sub conscious will bring into the now any fear in reserve to harness the thought of the self protection behavior, to use to defend its flesh from being eaten I mean, defend its hearts from dyeing inside because parents are unresolved and un educated. So the self then reacts in the panic in this experience of realizing the self is so completely alone in the way its heart thinks and feels, as compared to the emotional description of the emotional observation of the child's emotional self. When self realizes rejection is coming from the only gods the child knows- who are its parents. This is registered in the electromagnetic pulse in the earth, who evil detects but cant detect the positive emotional energies, and does not even see us when in the happy joy element of our human innocence. And then darkens the self worth mirror when we look into after being parented like that. We look into that mirror and decide that what looks back is still as unworthy as the first time evil described unworthiness to the inner young self, pitting you against your own life source by lying to the young innocence in self-who is the child/the self/you/me at that vulnerable age. In trusting everything naturally because that's what purity does in its end result for the human being, it allows life to then be lived without interference. Who the god of truth and the first wisdom didn't know would happen in its end result, because he does not know what the self of anyone does with the truth in itself, otherwise it wouldn't be human will at all driving the bus. The child believes now its lowered

self worth level, believes it, and becomes emotionally deadened to the point of developing the puppet puppeteer relationship dynamic, between now the lower self dominance in self, of the natural higher self you were born as, which is the inner self reacting to two different wisdoms one explaining the worthiness of self. And the other one trying to convince you, you must be worthless because they rejected your expression "therefore then" {in afterthought} the self of the early self determines itself is unworthy. But tis not any part of the self speaking to self it is an outside influence who learned how to hack the living computer and assume the emotional death of self. And the newly established lower self, infiltrated this way who now the two wisdoms are appearing to be fighting with each other internally, but that's not the life source arguing with anyone. The life source speaks in silence of life, that has nothing to do with the chaos in hearts thought, with the knowledge of evil in the second wisdom, who creates by itself and on its own, to then the opposite of our natural happy joy born from innocence, with its weight in leveraging the child's fear. With the knowing of potentially, of what "might be" and what "can be lost", if self were to speak from its genuine emotional truth again. Knowing this might be a child rejected and neglected, and if it is, this evil in its second wisdom then "comes into the daughter element of the inner emotional self". To then distort and confuse self with this first infection of hearts thought with its darkening agent, and darkening intent. Which is its only intent at that time because it depends on the child's strengths and weaknesses, that allows entry, even at that point. Here, evil then has to test the waters in the self, to see if that inner emotional strength exists, and if it does then evil keeps looking for its invitation pulse coming from the hearts of each one of us. This introduction in evil is played out identically for each one of us in the introduction of this evil appearing though "as a savior" to the young, emotionally raw, and programmable emotional state. This second wisdom says to its host hoping the host will accept its wisdom, says "look", they rejected your words of the emotional self. So then "therefore" {darkening the first wisdom} they must find your feelings "then" unworthy of acknowledgement. {Calculating hearts thought with now a darkened feminine element from its natural and genuine purity.} And if that's the case then "you must then therefore be as unworthy" {the formulation of the concluded thought in afterthoughts

department of thought process, but now is a dark feminine element speaking these things, and no longer the sacred feminine element of life speaking these things-but took life to say from those things of life you see? Where the self of the little boy or the self of the little girl then runs to their parents for acknowledgment and emotional safety, but gets the opposite from its possessed parents infected with the deadening effect of the second wisdom in themselves. Who did not turn evil and is thinking itself is doing a good job in directing the child, but in reality is enabling the duality themselves because the tv told them to in the way it showed you how to treat the child when watching tv as a child. And no person should ever think of having children while spiritually diseased with a second wisdom and filled with the mistress wisdom of hate greed and all the pedophilia you have to do to achieve those things for yourself. That causes other spiritual diseases of the mind, like cognitive dissonance and addiction, the two main ingredients for separation and spiritual division. Of working with the same truth in two different ways, opposite each other, leaving self to choose one of its path making wisdoms, and follows its lead because now you know why and how. But if two people who know themselves have child together, who knows the knowledge base of the keys of knowledge knowing then to know itself first before having a child, then evil will be destroyed before it has the opportunity to see a distortion coming from you. Now working the child's experience of feeling rejected producing the feeling of humiliation and embarrassment and feeling then ridiculed, and uses these three negative emotional energies as emotional self to feel when in hearts thought of genuine self expression in every waking moment it can. Coming back each time in this emotional loop of emotional awareness to focus on in the unresolved state, when emotional in the now forming now the dark feminine of fearing the emotional self. And from this moment on the self loses a little bit of its fullness element each time this happens, which is every single time the child feels and wants to express, but is stopped by an electronic signal, and not stopped by life. To turn it into an emotional darkness, then who itself in our ego says, "look", its better then to lie of how your feeling so they do not know when to reject you, and you'll never feel that pain again. In this way we accept this emotional darkening tool from evil, while thinking the knowing is there to save self from emotional pain coming, with the warning the emotional

pain is coming. So keep lying and you will be safe. This we all hear at that age in ego's voice but after a while slowly changes into the child's own tone, leaving it then undistinguishable to the self, of the self of each child now believing in one voice from the ego, who now we think is ourselves at that age. Speaking the negative self talk that maintains the lowered self worth level, but now its self doing this to self, because we are programmed by this evil to self destruct, and this is what the first self destruction looks like. God thank you Jesus for showing us this because all along I thought I was in the right and every one else wrong, but now I know it was distortion claiming to be reality. The ego is the masculine element of his dark feminine element of fear and fearing loss as its communication element to the inner self in that influence in spiritual death, working in opposite of spiritual life-it is the evil spirit influence/devil/Satan/dragon/viper/spiritual pedophile, and its power is limited to erasing self worth and have the self question itself in allow self worth level leaving behind an emotional wreck not knowing how deal with it.

This is how the infection begins in each one of us, and now the learning in how to remove this human will removal method of doing so, is here as well. The mistress wisdom of hate vs the sister wisdom of love, are both behavioral in intent made, in its end result which in the son of the masculine element equipped with emotional maturity, rebirths life from the life first birthed within itself. The dark wisdoms ego and dark feminine and mistress wisdom of hate, takes the current truth and compares it to the unresolved memory itself orders from the subconscious to retrieve from emotional memory. To retrieve the unresolved emotional information and then "amplify the fearing" of self expression. And now just in this thought of genuine self expression, the self is confined to its emotional emptiness- and is now looking for distraction. Who the mistress wisdoms then line up, will tell you what to hunt for and why, but leaving with self only a vague idea of what's happening to itself emotionally, not able then to pin point and conclude thought the way we are meant to anymore. And if this is the main frame of hearts thought programming, then this person turns to the evil appearing as emotional savior for the knowledge of the lie, and its manipulation tactics are also given as tools and tool box of human will "running away" from its emotional self.

Some use tools and tool box and even the formula of human will removal "to run from its own emotional truth" through distraction manipulation. To get the hell out of the because the dark feminine, although its didn't turn this one evil, did in fact turn this one into its emotional puppet, and cant stand to be alone with its own emotional truth.

Evil's "way in" has been described to you, it is its only way into the self, to join with the same electromagnetic pulse in the earth, going directly into the human heart. Feeding self their spiritual energy and its fullness element of need meeting capacity, but evil comes in as described to drain us of that fullness, with specific intent to disrupt and distort hearts thought of self. Destroy self worth and severe the primary emotional bond with the first wisdom, distorting your spiritual self worth mirror that helps the emotional looping confirm itself internally, confirming then the self who acknowledges its own lowered self worth.

The mother truth element and our sisters wisdom element of empathies knowledge base, both giving to the final feminine element of self, in its own knowing of truth and its emotional response, with the ability to know and understand the emotional content of another person. But still with the oneness element in feeding from that first wisdom naturally, until evil accesses and performs then the same type of deceit manipulation, emotionally.

As my three pedophiles did to me as child first, before they, each of then "all used" these same tools and toolbox and formula of human will removal, that then enabled their young victim to remove his own underwear. To then seek to please the pedophile sexually, as to then, as promised by the same evil intent to con the child into removing my own underwear, using its spiritual elements of light, to now direct its evil intent. To then get my emotional needs met emotionally ...and again my god what an evil despicable mess we are in, yes? Those tools are inside the tool box of pure evil to do this in the first place, that enables evil in the adult later if itself is successful at total removal of the good wisdom the first wisdom of life.

Those tools are the cunning deceit of emotional manipulation of human truth and trust {when evil says look, they reject you so lie} leveraged by the ear of loss of

something specific to the emotional need and its physical safety element {if you don't lie then pain returns} all the while targeting self worth, to lower self worth to enable then the puppet puppeteer relationship dynamic between the human will of the child, and the second wisdom. {when it say you must be as unworthy which is the egos voice but the ego is not self – it is an evil physical being who found a way electronically to hack our living computer, to then assume the human will of self. Replacing our sister wisdoms, with her mistress wisdom, to calculate hearts thought with, instead of the natural Christ consciousness we are born with. The formula of human will removal in the emotional moment and in every single one of them "must use this formula" for evil to establish itself as the second wisdom dominance of emotional programing, in intent making. The first step is to 1-disrupt the normal spiritual connection with the emotional truth of the self as described. Second is 2-to sever the primary emotional bonding with the first wisdom. Being now introduced to the second wisdom, of which speaks the opposite of truth and what to do with truth of the emotional self. So 3-lowering self worth to have then self "question self" forming then its cognitive dissidence that will not allow for a decision to made at all. Without the lowered self worth we tell evil and its disguise in us like this "to bugger off" when the first doubt in self, of self appears, just like the first feminine element of Adam did. Evil needs to extract the unresolved emotional content and use later in the "next" emotional moment, and can't stop applying itself like this in every emotional moment, ensuring self never then re connects with its own life source this way.

And there you have it, you and the good that you have always been, has been infiltrated by an intelligent being in physical form. Needing electronics to enter and become self spiritually- in a second wisdom that acts like a foreign object in self, because it is a foreign object of the natural, spiritually designed emotional self. There specifically to distort and confuse self in questioning its own hearts thought of itself. this way, while the good person is busy questioning itself, with itself in cognitive dissidence, then makes it harder to detect drug dealers and sexual predators utilizing their tools and tool box and formula...hunting, stalking and preying on our children, even though they do not want sex. But wants something from you- you wouldn't give to that person, or any other person in

what ever it is you would otherwise keep for yourself, when asked directly. So this one turning inward asks evil/its own dark feminine "how" to utilize their tools appropriately. As to perform the formula of human will removal to get the dam thing out of the way long enough to receive what the emotional predator is hunting for while appearing as savior like person –or, with the victims best interest at heart, which isn't the case at all, when trust is used as a tool of evil intent making. What's left to do other than to teach self the skillful emotional management of the inner self who for some can take this information alone and realign hearts thought back in with the mother of our truth, and our sister element of wisdom because its just that powerful, but others will need help understanding.

We are all brothers and sisters of the original first and second sons of god, the real god of invisible non physical spiritual truth, and the means of understanding emotional depth in our Christ consciousness. Who is our own intellectual wisdom as one element, living as described so to learn the skill set of the balanced determined self is the main course of this spiritual meal fed to you by Jesus. And what he said all those years ago, since all of this is from his secret sayings. The skill set of the balanced determined self is itself derived from the Saskatchewan new Start life skills training in communication to self first, and then to others later after that skill is applied. Developed by the love loving hippies of the sixties, which was the time we almost developed back then, this time period now because of them but vi still was to strong. Because believe it or not communication life skills and determining the balanced determined self would have locked up evil while releasing your spirit from its emotional prisons, which is their only one prison spiritually to undue, the emotional one. And when emotionally free, then you will see what I mean by emotional freedom. And your release date from emotional prison should take place within about a month-for me it was three weeks and I had hell itself programing me emotionally, as many others don't. Most people do not face those kinds of traumas in their childhood except for the spiritual trauma of rejection, which does the same thing in both of us. Separation division between two wisdoms opposite and always apposing each other causing cognitive dissidence leaving self then almost incapable of decision making, and never then

committing to that truth in itself. So I'm just saying if it is not hell that programmed you -it wouldn't matter because this return to the self and its Christ consciousness in the real way is easy and like the snap of your fingers doing the work after the three weeks to month is finished with. But take a lot longer to learn the rest of the knowledge base from the keys of knowledge however, you will be without the unresolved pain distorting everything truth is explaining to self in silence.

Takes about three weeks of application of new awareness and those self actualization meditations, then your pain is gone, that's right "completely gone" giving you that new emotional slate ensuring all the negative emotional energy production in you is disappeared. Now really to develop infection free experiences that will be added now to the knowledge base of self reprogramming your heart to live emotionally again. Know and understand the emotional self translate itself into the spiritual self and spiritual light and darkness is first emotional light and darkness and why evil's pedophile machine mocks emotional expression because they fear it so terribly. And with it, the fear and fear of loss programming- running itself in a loop to return "in each" hearts thought of self expression-is completely gone to. In the beginning I was still expecting all that negative crap coming back, hoping it wouldn't but somewhere in my second wisdom saying "of course it will" because 'your not that lucky" and continued attempting to generate the negative emotional energy to fill my heart with. Trying to distract me from my clarity "now" and which I quit waiting a long time ago. And just simply live in my emotional truth while liking it, or not- liking it sometimes, but then you make automatic "it seems" adjustments immediately and I feel centered all the time when I'm not feeling something beautiful in my heart and things are normal again, when before I realized my environment and the abusive people in it. How would you like to live your moment like that? This evil is as strong or as weak as any physical pedophile depending on the adult survivor who gives into its emotional darkness and becomes evil itself, or turns from that evil, knowing through the wisdom of empathy. Most turn to their empathy but left with those tools and tool box, using them for other things, not because your bad people. But because this is the way we are taught or programmed to communicate which results in nothing but more separation and division

between us, conquering our emotional connections with each other. In the one up man ship competition we perform with each other, instead of communicating our emotional truths with each other who some will have their stomach turned in that thought because the tv told you to be embarrassed when witnessing someone else like the Simpsons, mock emotional expression. But emotional expression comes out our words in the description of one's own truth, "being described "emotionally impacted" by what is said, and not what the feeling word describing the emotional response in how it feels. But when speaking words of truth emotional response is there automatically and empathy then tells self how the other person is feeling, and that cant happen when saying if feel this specific "feeling word"- you see? There is a life skill, a communication element of awareness of the emotional self called "the feed back formula" you will have to practice in if your knowledge base lacks emotional understanding of self. It is a mechanical way of programing an emotional focus in the first wisdoms light of logic, you will receive when finished with everything. So do not think self expression is a cartoon, because its not, this is real life with a real danger of loosing that spiritual life while here. And then afterward when being evaluated by evil itself pedophiling us further in the middle place. Which is not god at all, "god rescues us from there" when we know this stuff and study Pistas Sophia and every other scroll you can get your hands on to study what else you can get your hands on to then be rescued from the middle place, if the place even exists. still now that we are in the new time, which I cant see them still in operation with what will happen shortly when after thy are taken from us so we can live life in the happy joy again, without anyone hunting our children for hunger machine status. Which is where I derive a lot of my knowledge in unresolved pain for the dark feminine element of what evil is experiencing it, the rest of my understanding comes from Jesus secret sayings and my realignment. My point is that whatever your hearts success is, or what its goal is -is completely attainable when finished in your realignment training. You will live again I promise you that, and the extent to which you take you goals made, and hopefully there still the same ones you made as a child- but regardless, that extent is dependant on human will and the uniqueness element in you. Who god fuels with himself until "you, their child" is strong enough to do it yourself. The perfect mother father in

one being, in masculine element masculinizing his own feminine element, who she first impregnates his thought with emotional, loving, heart felt truth. When she said what about the uniqueness left behind after we clean up our mess that we both made? He said from the womb birthing that knowledge from the his logic that said to him have mercy on them because there's a pedophile at the helm. And in reality, their programming is isn't their fault since their seed in is us. Which he could have snapped his spiritual fingers knowing the impurity and evil coming from us and made the whole thing disappear but logic told him not to, from his intellect. But when you think in a logic that children are duplicated parents, except for the uniqueness element and the differences they react in reacting to the same emotional responses. Who simply wants you to remember your own depth again, and you can with a little help from our friends and from self included "in its own human will to finally the right and correct way to learn grow and evolve in hearts spirit, and hearts mind "minding those spiritual children". As the qualified spiritual parents in masculine and feminine element ensuring self receives truth from only her in its end result.

The human will to do these things will advance the souls spirit and the continuance of your spiritual life depends on self achieve that level of knowing self in its own emotional depth, here and now.... for then,, and you still living as a spirit being "continuing on" in your spiritual evolution.

Or being taught something else the hard way, which I don't think at all that is it for the committed evil and ungodly people of this earth. But maybe a incarnate or two "or ten" might allow self to finally become aware of its emotional self then. Because believe it or not mr and ms middle class we had the same human will removal programming enabled by a will to do so but also utilizing the tools and tool box of evils intent to use the formal of human will removal. Who you now use those tools as your communication element as seen on tv, your god since you spend hours worshipping it. More in memory than in real time remembering how the tv has been turned "into a pedophile machine" in the emotional levels of undoing self from its human will emotionally. Now programming self emotionally with half truths and thin slivers of truth making it appear then emotionally as if the totality of truths knowledge is spoken. The separation will happen. I grew up

all my life hearing how the meek shall inherit the earth and when I found out what that word meant, I felt a little hope but that was quickly extinguished as a hope like all hope was for me back then. Who the native then will be called upon for their direction in which then you find value in them. But isn't that something we needed to earn as respect first? You know what I mean- when deadened white people beg them for their spiritual knowledge to get themselves undone from becoming undone by an evil physical being who found a way electronically to hack the living computer, to build white people in the first place-who those of the light believed there still is hope for any distortion left with the rest of us and then there will be a lot of work to do. Because one we have a new decision making element in the first wisdom in government, then there will be those government employees who will still be with that infection not knowing what to do. They must not ever be allowed decision making for others ever again because they are programmed in their hearts to see evil and understand that to be punishment for violating one of their rules.

Those people, if any are left that is because their infection is thick dark blackness in their first wisdom in the hearts, work the vulnerable people on welfare, wcb judge, cop, probation, jailing staff, court staff, who refused to help but did everything in their power to hurt them or re punish the vulnerable for whatever reason. By withholding vital resources and services no government wants you to know about. Did you know at a Canadian wcb office case managers look for reasons not to honor what they say is the reason for taking the tax dollar in the first place. Do not care of the medical condition you are in and somehow feels good to see the injured worker suffer to develop causative injuries from that neglect. Did you know the welfare worker a few of them, do the same using their leveraging element of toying with people who are desperate or withholds vital services and information from those people? Did you know monitoring staff for the criminal alcoholic. Probation officers and the likes a few of those ones...love to leverage control manipulation over their victims? Did you know these things? I did. And since I've experienced those things, along with my woman who witnessed everything, then I have first hand information from front line circumstances in how the

end result of your current governethn systm works to destroy you the innocent person and me the criminal alcoholic who did time for acquiring a disease element sold to me by the ones the judge is protecting when blaming me for getting sick off their psycho active substance for sale. So putting all your faith into this ex back ally junkie you wont have to do, just ask her in you now. Then offer them spiritual realignment training if they still exist on this planet at the time of the event about to happen, that will wake us up a little better in the end result to listen to that which will ignite a silent thought shared with you by your mother.

Listen with ears to the physical cue, and hear with your hearts what that direction is. Until then, change what's internal, preparing for that day, if that is what you choose to do. Through either a healthy human will-will these ones admit to their own silence the truth they've been denying to her inside themselves, or continue to do the same voodoo "you do" so well, and then we loose you. Who even the wcb fuck on my case file I wouldn't want to see him go to prison planet just because he caused great physical and emotional and spiritual damage to me. I'm really mad about but still right? If they do the wor then that persona will be gone from them i now this to be the guarantee already so i wont hate then what comes out of them because will love it as much as what comes out of me now which is back to righteous anger reactional state. Not hate result from calculating my hearts thought with the angry persons wisdom who first acknowledges the emotional pain but only then to pin point blame and seek retribution in the one up man ship competing element between us, as seen on tv's everywhere with children growing up thinking in their alfa state –pogroming that this must be reality, so I will adopt that persona and that behavior to my own persona.

Who ever has it in their hearts of hate and hating, as emotional ongoing programming, needs to introduce themselves to those self healing meditations. So you will not hate anymore and you wont because you are no longer generating the angry persons wisdom, not because for some magical skill or understanding or anything else other than because there is no more unresolved emotional pain left to exploit and manipulate into a fear and then into a fear of potential loss, seen in an image by itself not with silent voice, but with ego's voice saying those things. Of self destruction first and then of hurting others who get in your way or who

you target specifically to hurt with intent. To feel then "what" as the result of feeling then satisfied self won the emotional competing in the moment? What is the feeling that you feed from in that moment because I've seen it so many times but never experienced it.... I think, or maybe my years of psycho active substance abuse wont let me remember, I don't know. So I'll just ask you, what exactly do you people feel when hurting each other in terms of removing the other person sense of worth of itself? i mean never mind because non of that matters after the heart is realigned with the truth element in self. Which means to say back to the silence that speaks to you if there is acknowledgment in that translation of the emotional self, of self of the same truth. When emotionally deadened, takes us from that moment of responding to the spiritual mother gods communication element within self with in its seed. This is what the Talmud stole from the first secondary humans distorting their spiritual training read from t stolen keys of knowledge. And who they still maintain with the catholic church wo has the same god and belief system and obviously the same sexual direction that obviously got out of their lustful hands and grip since they been how many now? how many priests have been charged now? Is it past five thousand yet"? When the distortions are gone and vanished and disappeared from you, you will begin again to see reality for what silence tells you it is. By exhibiting the truth of the circumstance which we feel this in our hearts, as well as acknowledge it cognitively. And takes the whole of self to consider with in intellectual wisdom, in the silence with silent voice discussing the truth of the emotional self with self. And when you say yes it is truth I feel and know of because the light from god in thought we know as logics light illuminating emotional truth and what it means in emotional depth. This is exactly what the spiritual pedophile does to each one of us, stealing then ownership over our own human will. From ages zero to five years, after each new understand born with the chid being in the natural oneness state ready and then suddenly and traumatically robbed of its emotional safety when the child begins to acknowledge rejections trauma in its heart, setting off the pulse that attracts those demons of misery working us the way they do for the re of the child's life until usually the wisdom of a fifty year old its them and then they begin to consider these same things but not knowing what was happening and it is so very much unfair so what ever is unfair will be hunted down killed and

skinned and then I'll use it as my living room rug... or was that my den? I don't remember what I saw on tv that told me so, but that's what I want. Because it will all have been resolved you see, taking away also the fearing programming the negative emotional energy looping programming, the programming to be recalled anymore because it just will not happen. You will look to recall from memory but nothing will be there since you've been programming yourself for years in the fantasy making of our duality and nothing that is not truth remains. So in your purity of innocence now you look for the accurate emotional information your seeking without feeling those things from the dark feminine element of the ego and its evil spirit influence. And then look at the same things you looked at while with a heart filled with a fucking pedophile waiting for spiritual children to be born, to get off on some kind of evil dark spiritual ejaculate when receiving hate in human will through this theft. If you still exist with the rest of us means you earned it, because you never lost it, or you earned it back by realigning your hearts thought back in with the truth itself, and nothing else. Some think its emotional response but that's not real, It is truth itself your masculine hearts thought "must commit to"! Committing then to the truth in everything else, not just your emotional state, and then visualize as described by buddy and buddy and buddy and their buddy is describing on you tube teaching what they know in personal development, which has been a great help in learning stuff so thank you for that. But the point is what is shown here is important to know use and apply to your communication element sure but all the help offered cant come from one source just be sure to do as you do here... take what fits and toss the rest out like it was a falsehood, a lie or a mistake I'm making in being wrong about anything. When we are emotionally complete and feel it then we can visualize without the old programming coming into distortion very thing and realize nothing then in any goal made because the inspiration fuel changes into the negative emotional energy to feel then, an no amount of visualization can do what's needed to heal the unresolved hurt in self, and doubt in self-generating the three negative emotional energies to feel in the moment because these things then interfere in your visualization meditations you did with the great hope the secret offered people, in its direction into believing and trusting in the self and making the visualizations that will achieve that, but that cant work when we are

programmed to lose faith in the self. Feel low self worth all the time and lose finally the trust and belief in the self, producing then the lower self dominance possessing people, in the negative emotional way, producing negative emotional energies as described. And not the inspiration fuel keeping the spiritual child alive in hearts thought of your visualized goal, already then to feel the emotional self, as self would feel in a reality of owning the house already. It was from my experiences trying to heal from my multiple diseases of addictions to various things but the dominant one was self protection behavior. Offering then the wisdom of low self worth and convince our self we are not worthy this way and that way and all other ways. And in no way then can a healthy emotional thought generated like that survives the unresolved shit that amplifies itself to take self then into the hearts thought of not trusting self, and not believing in its own emotional depth you see? Healing the emotional structure of self enables that teaching to then focus on the emotional reality as if it was truth already experienced, and self continues to feel this in its visualization and self in its hearts emotional daughter of emotional knowing {of the circumstance of self in the now}, looks to wisdom for its knowing in what might self do next, base on that emotional information who then hooks up with intellect when self isn't afraid to find that light in logic that will explain everything the self needs to know in the moment like that. This is your natural spiritual self in its natural algorithm, and mine to. Till it is stolen from us all in early childhood by the same pedophilic energy engulfing the heart like that is identical to the physical pedophiles way of doing the same, which I've noticed its algorithm to show you and me to, how it infects us all, the same way for a different way of pedophiling a child. And turns into the lower self dominance and projecting then a different persona than what self is born with, who is so completely murderable and killable now, not the self-only the energy and its intent of that energy. Will be gone from you so you can be ready for "day one" of the new time, which begins in our hearts soon shortly after this event about to happen to us all, to experience on a mass scale. And I'm here to tell you from experience my greatest teacher of both the dark feminine element and the sacred feminine element, Jesus knew that. Desire wont be evil when the emotional self is healed. Because then there will be no more dark feminine element in you to produce fear and its angry persons wisdom causing

emptiness needing then a replacement of what you don't know of, or how to refill with. Causing then a hunger for the fullness to return after the longing for it is no longer enough to alarm the child to then go alarm its parents, but what they hear they do not recognize and then rejects what the child is trying to tell you truthfully....because it has to since truth is natural to itself, and natural then to each one of us, of physical children birthing spiritual children. To be met with either spiritual life in the first wisdoms birthing element supporting life itself, in self acknowledgement of its expressions. Or with the pedophilic influence there to utilize the same tools and human will removal formula as the physical pedophile uses in the same second wisdom -so carefully, to make sure it is the child's will, who wants sex from itself. Therefore then, "not" making him a rapist...and somehow they end up believing their own justifications or the known evil they are doing.

Who did not teach the evil spiritual influence how to do anything, I do believe the evil spirit influence taught the physical pedophile how to do the voodoo it does so cunningly evil, that it even convinces itself of its own lies of justifications of removing this sliver of truth knowledge from its calculating in hearts thought of only the selfishly defined self. And now that we know how to judge and how to react to it in empathy perhaps the rest of the white left over at that time can join in what the intent making naturally in native people already and use the first wisdom in all things in their end result of what I've witnessed myself already. Their display is exactly this and comes from even the heaviest of people in jail. Where it does not from the heaviest white guy... you see our challenge white fuck, just like me... trying to deal with our circumstance? Or not? Anyway, finish with this knowing a training and then start visualizing as the secret tells you to, and then see what happens differently now. If those ones who are almost gone...but still here after the physical separation between the good, and the evil people.... means there is still hope for them. But they all must be dealt with in the way we deal with all diseases that cause death and quarantine them if they are still possessed that is...Enoch says it all gets taken from its root, but as god works in mysterious ways then what to expect-i don't think anything of human behavior will change unless through the human will to decide it, because that just isn't up o

god. So we all know the quarantine involves no jail and no suffering but continuous care and when we make the system like that and then take what evil and what seem like irreversible damage and lock them up alright and no bloody kidding but make sure they feel cared for and even loved by the continuous offer of help and living in a quality community with others until they prove themselves to be pedophilic in themselves so then lock them up in a bog room with lots of things to do and never ever leave them alone again. And schedule them life skills training to see then if they become infection free enough to be let out in the open with their spiritual beings in light. "With our children" who will have knight after knight in shining armor "at the ready" to help and protect them all, and will do so immediately operating through the new decision making process coming from only the first wisdoms birth of knowledge.

But that's another day in today's world and right now let's see who will, and who will not "now" inside themselves in choosing one of our two wisdoms and its hearts thought process, being led then by its masculine element of directional thought, shall we? And my empathy for them is alive and as alive as any victim because this person still is like you and me, a victim first. That is why there is automatic forgiveness, even for the worst evil that comes out of a person when they find a way to feel bad for what they've done to others. And the re-installing the first wisdom after reprogramming the self emotionally back to the original and natural algorithm of human spirit. And the student then meets the need in a functional way never to hurt another person again, because that spiritual ugly is "just gone" from the person, and it really is incredible to experience and then experience this same thing in others is just as an incredible feeling of inspiration fueled hearts thought of it.. to add to the new emotional memory bank and the happy joy to recall in memory when needed again instead of the deadening crap the second wisdom is about and offer as itself for the unique self, to feel...now to refill the knowledge base of self in self with the positive emotional energies, then you will be good to move on to grade two of your spiritual education, so congratulations you did it by your own will to do so. Because when finished in this kindergarten apprenticeship in earning your name, then you go into the adult

apprenticeship of a being wanting to, and being helped to become "the power of a gods love in the first birthing ability", can you believe that?

Ladies and gentlemen who which to remaining in the purity of themselves will make the intent to do everything in its power to make these changes since Enoch said what is to happen when ten thousand of his friends come to remove evil and the ungodly from this place and place them on their own earth, in whatever form their prison planet will be in but I'll tell you -you will have the same government creeping up on us now. It's the same Nazi belief but more so than Hitler ever imagined. And guess who is scheduled to be born a Jew {or whatever form of hating a person is in at that time} on that planet when they are reincarnated there instead of here. In this symbolic way of describing living in living hell. Or, maybe you'll be one who can contribute to the state... who knows. Do that who. You will become the victim of the government yourself because you can't see the horrific harm you're doing in your immediate space with another person, and its ripple effect affecting then all people on this planet. How you ask? Then go look for yourself what evil has been exposed in all governments and what evil has been exposed in the monarchy. I drank with Willie once who told us that story when he was taken from his home and went to residential school. and the queen and her bitch took ten... or twelve? kids and didn't return them and Willy didn't know why he wasn't chosen to be taken, never to be seen again. And for the other things so many others who do not know each other but accuse them "of the same things" as their victims, like almost Willie but certainly his friends who all of them according to government policy said they can go kidnap children from their homes, which they did for years and years and years when they weren't killing them or raping those children. Because none of it was in cunning deceit but the violent kind of threatening that said if you didn't become sexual with the priest, then they would kill you. And many were murdered for refusing to have sex with the priest because the purity in their hearts of the same spirit you need to speak with now, of this tragic state we live in still. Which at a very minimum can be used as information and teaching in how to detect evil from ever returning ever again. Just like all the ancient writings told us to be aware of because it was coming back

–but all of that knowledge base was destroyed except for what that boy found in the desert.

Left behind by a thoughtful individual who helped to save many in today's world.
{HA!}

I grew up relating with parents relating with the system. Sure they were abusive parents, but smart survivors of a system that continually left lacking and hunger in its tracks, while claiming the opposite of that. I then grew up in my teens in that same system treating now the teenager secondary human being, with masculine and feminine elements separated then. In the terrible way of living through the fresh emotional pain with only weed and booze numb that pain. And nothing else available to help mentally, but everything there that made sure I remained exactly where I was stuck without hope. But obviously with the disease of addiction to weed and booze, since then I've experienced first hand from each of the government agencies implementing their purity in the absolute in evil, in helping a government body destroy its people, in each of the multiple departments of government implementation of its policies and laws derived from the second wisdom and thin sliver of truth.

Which now, being pain free and in the happy joy most of the time, now I see clearly how the obstacle filled policies puppeteered the victim and did nothing for the well being for the individual-being forced fed the lie as a government body helping people. Turning the public to believe this is true in their heart, but being the exact opposite in their behavior, and people are beginning to feel this in their hearts of truth.

The absolute in enemy...who found your internal gate, the narrow gate Jesus speaks of and is using it as a tool for evil to enter into the very many. With you the secondary human being still as programmable as the early self was is now acting in accordance with government policies and if we don't then they burn us alive I mean they put us in jail... where we might or might not have our heads smashed into the concrete or be pushed I mean fell down the elevator shaft and die a horrific death that way instead. So in this way you still have a fighting chance of not being tortured and murdered just by doing time for not complying with the

states policy to blame the victim for contracting a deadly disease from their psycho active substance for sale. Because saving the world isn't my thing nor is it to save Edmonton because nothing needs saving and no one needs a warning. Because of the event about to happen will explain everything to everyone, when after god the father of truth and his first wisdom send his family, ten thousand of them to help after evil and ungodly people are taken from this place, and we are left to clean this mess up. There has been spiritual pedophile who I myself and countless other survivors of sexual abuse understands the emotional manipulating tactics of someone who hates to be called a rapist. So itself maneuvers the child's heart and mind into believing that if I myself removed its own underwear for the sexual predator, then I would get my emotional needs met as the four year old I was.

This can be used as a template of knowing what never to do again because if this does happen again the instigator and all his friends will be taken from this earth and never to return to the easy education ever again. And after the separation from the evil in this world and there becomes another money hungry or sex starved individual put in control of any part of humanity and takes advantage of their trusting, then you will not be reincarnated here but on prison planet, run by a pedophilic government. I promise you there will be an education in the new time and any gays left over then, better watch their p's and q's around children then, because if they dare try to influence a child then, they will... well I don't know for sure, but you better believe you receive an emotional tune up "minimum". And if you do not fear hurting gods feelings then you will feel the fear of my anger then kindergarten. Worst case, is you being the influence to any child on prison planet. Where no one will ever interfere except to ask you for its own turn. Who that child and all children born and reborn there then, and reborn again and again and again...are the ones here and now, who love their evil and hate empathy for others. Loving to hate and about to learn the hard way what its like to live under the control manipulation of a government like ours, because your government now will evolve to were its going and those welfare worker and wcb and cop judges crown representative the kings and queens politicians and dirty cops and the likes will be removed from this place, unless one of you or a

few of you show some kind of hope still as you there and did nothing in terms of your own personal development.

jailers and child welfare people...all of them who loves to hate the lower class of people wrecking everything for them, and there's proof to, "look" the tv told you so...so, this gives them the excuse to help the pedophilic government who we all {of those who worship truth} see as a mother seeing what the pedophilic father is doing to her children. But the mother too selfish to pay any attention to the truth moving in her, and the wisdom of empathy screaming at her to save the child from that monster. Let me explain.....But before that, let's take another look at secret saying one fourteen. And then look at number one in his secret sayings and decide for yourself what to do next.

Secret saying # (114) Simon Peter said to him, "Let Mary leave us, for women are not worthy of life." Jesus said, "I myself shall lead her in order to make her male, so that she too may become a living spirit resembling you males. For every woman who will make herself male will enter the kingdom of heaven."

The final is his end result goal for you to understand to masculinize the feminine element in self, using the life source and its spiritual equipment to earn a rebirthing element permanently. To see then if you want to attempt to earn the birthing element itself, and is a difficult thing to pull off, but the opportunity is there if the need is in you. No other reason other than to have graduated this hell but in reality is only the kindergarten state of an education that will earn anyone of us the rebirthing element, which is the same element you have now except you get to keep it when at the time of the loans recalled, of that seed.

What follows next is the lesson plan direction for a life skills coach to teach this stuff to a group of people experientially, which is the way this learning takes place where there is no physical book, just the living book to read from. Not only will this help self understand itself even further, this knowledge base can be used to facilitate personal development groups of children being taught this, instead of the spiritual death they are taught to re enforce at school.

The student learns the spiritual dynamics of itself of its duality and the wisdoms generating the knowledge to react to emotionally- that can be turned into as relationship dynamic of fullness joy and innocence again when the higher self is back in control of the drivers set of the human been.

Life skills lesson one; The living computer and how it works algorithmically.

Lesson 1- this lesson is to explain "how" the person works mechanically to achieve knowing and a thought process that reveals the realities of truth learned from the emotional experience {the emotional truth in the now, based on the current experience}. Knowing self is different than knowing how ones self works to achieve that knowing, but knowing how self works helps the self to know itself. The second part of the re building a relationship with self is to get to know self, and when the emotional pain is healed, and the student learns the methods of the balanced determined self in its reactions in our experiences, in our relationships together then this student is well on its way to rediscovering the need meeting fullness element given to us by the life source.

. The self "then" will begin again to know self again, developing a brand new relationship with the self -left off from when we stopped learning and went instead "self protection" in our reactions to our emotional responses to self.

Lesson plan 1 -Mapping the living computer and the two wisdoms a person has.

The mechanical structure of spirit.

1. The Stimulus;

Our two wisdoms communicating its knowing with the human being. Speaking the first wisdom, the wisdom of the good- who self then speaks back to the silent voice who spoke that wisdom to self, in the moment in silence-and in every moment. Offering then the sister wisdoms of living in that life being the stem result of being truthful with ones own self on emotional levels.

And the second wisdom, the angry persons wisdom, who speaks the opposite of what the silent voice speaks when in fear, and fearing potential loss of self worth, dignity and self respect. Now reverting back into the self protection model of existing, put there immediately in hearts thought - just in the hearts thought of self expression. And the mistress wisdoms when in hearts thought of fearing, unresolved anger and its unending hurt, and escapism which are hate and loathing, forming intent "to hurt back" rather than to express to each other, and work with the first wisdom in each other -and with each other. [Ask the group then] what does intellect access in order to achieve our depth in thought, and its silence that impregnates the mind of truth recognized in the early days "as a child" birthed between the masculine and feminine elements of the human being. Generating then the idea, filled with the emotional content and its inspiration, and when completed through the human will, the fullness element of spirit joins with soul and becomes the self of the student. But before that truth and emotional response ignite in the experience in the now. Who then asks the first wisdom to help understand the emotional depth of that new leaning in the now. Who the two of them ask intellect to help search for that meaning and then finds all together the light in logic that conduces the search and completes self emotionally leaving this person with the knowledge itself sought in the first place after this algorithmic state has completed itself, in milliseconds.

Our two wisdoms and our own re birthing ability.

There are three sets of masculine and feminine elements of the human being; 1- truth and logic, 2-intellect and wisdom- and the final masculine and feminine elements of knowing self in what the first two sets masculine and feminine element tells us "are us"-in that -they are what makes "a human uniqueness". When those spiritual elements are aligned with the human will, of the student

completing then each experience in tact "as the oneness element" between the all the spiritual elements and self.

Wisdom takes the communicated knowledge of the emotional self from the past, and how self reacted to it, as knowledge of the self- in reaction to the emotional moment in the now. In other words, the wisdom recalls the things of life that help the self to understand the moment, and react appropriately to the moment of communication with another person. And when that knowledge base is submerged in surviving the rejection model then the other wisdom of the lower self is born and active, and the self becomes then a duality of the same emotional truth of the self, one of self expression and one of self protection.

Who then we take that emotional knowledge of the self and follow through with its parameters of existing as a human being, but infected with the spiritual disease of the other wisdoms intent to kill off the emotional self, so itself can "live as the mainframe of knowledge base" to act from, as the second wisdom taking the place of the first, turning the natural higher self into the lower self in hearts thought processing the things of now the lowered emotional self.

Self Self protection taking the place of the natural self expression, which the sub conscious acts as the retrieval unit of hearts thought, that brings the past into the now, in image, and in emotional feeling, acting like a living search engine. Auto reacting to the same thing over and over again because the sub conscious is doing its job as "emotional processor" that allows the memory retrieval to be utilized as knowledge of self, to add to the moment of communication with others.

That shows then what knowledge to bring in to the now, from the "most relevant" emotional information from the past- that will aid the self, "the human will" in the now. {the human will being very important} to deal effectively with the emotional response in the now, as the separated person from its own emotional truth of the living higher self.

Understanding the creation of the second wisdom "coming into" the early self in every secondary human being there is, on this planet with an electromagnetic pulse the earth that goes directly into the human heat to mingle with it and in

doing so delivers the first wisdom bit who the evil spirit influence hacks like a computer hacker hacks a computer.

.

Introduce the two models of being parented, and explain the result of low self worth, emotional death and the spiritual deadening that follows emotional rejection, that enslaves the person "now" to a fear in fantasy- seen though as a terribly reality of self and its own self worth level. And ask then for the group to give examples of being and feeling rejected for things from the community belief, and not necessarily traumatic emotional rejection, but in the end feels as if it is all rejection coming.

The human will once turned and kept there in bitter anger turns quickly into the mistress wisdoms, where as the first wisdom has "sister wisdoms" of knowing things like empathy, caring, nurturing, love, acknowledgment etc. the sister wisdoms are those wisdoms of the spiritual human being. And one who acts through these elements of knowing self, becomes the human will interacting and communicating then in the oneness of all spiritual elements. Soon re aligned and completing the self this way because the self learns how to complete the emotional moment in the now, without retrieving anything of the unresolved from early childhood programming, when the self knows self and rids itself of the slave label. {slave to fearing potential loss} and does its mediations everyday like they were prayers.

Show thought and thought process and how, and in which direction thought preprocess unveils itself internally- On the flip chart.

This is where the coach then writes own on flip chart for reference purpose in learning the self, but not needed to remember all the time. The only thing to remember all the time is the commitment to ones own inner truth, like it was a marriage and the mistress wisdom is there threatening that marriage and commitment.

The human algorithm in the way hearts thought unfolds into an interpreted understanding spiritually of the emotional truth of the living higher natural god selves we are born in the purity of already.

When after the human experience these spiritual elements speaks in a communication of the emotional self, to self, the life source of itself. because god said look, i know your in trouble and the only way to undue this mess and still save your uniqueness element of giving you, I will become your spiritual energy in life source speaking the emotional truth of yourself, as if it were myself left there without knowing anything. And tat is what the reality is and is how we are your own uniqueness and god at the same time but this is a temporary thing and self needs to earn its own rebirthing element if you want to keep it when the seeds loan is recalled. so until you learn to do this yourself after earning it in maintaining the spiritual alignment with me then you will graduate this place and placed then into another level of heaven that includes no duality there.

Truth and emotional response; vs the ego

Wisdom vs the dark feminine

Intellect vs mistress wisdom to replace light

logic

in every emotional experience does the seeds knowing explain the emotional truth of the self, to then have ego take it and say look "there rejecting you" so you must be unworthy of acknowledgment, the beginning emotional distortion that then dims the light in logics thought of emotional completion. Turning the emotional structure of the early self into a darkened state, feeling then a little bit deadened emotionally in that moment. Beginning to drain then the natural need meeting fullness element we are all born with which also in the seeds knowing

element. Creating the hunger element to think from instead of thinking from fullness and emotional need met this self is now calculating in wisdoms heart how to remove itself from the unresolved pain itself feels from rejection of its natural innocence.

All for the same emotional truth of the self in the moment of the emotional birthing. Truth emotional response and wisdom are contained in the earthbound seed while the masculine elements of spiritual life are radio like signals that are picked up by the right side of the brain while ego controls the left side where emotional memory is.

The logic in light;

Wisdom is a re-birthing element of knowing a truth. Intellect and wisdom calculate thought with each other, and conclude the knowing looking for and finding the right light in logic that concludes the emotional truth of the self, in the moment. And produces then the idea-who we will begin to look at "as a child born" through the spiritual and emotional copulations between intellect, and the first wisdom of knowing self, and its emotional structure as a human being-in need of care, concern, love, nurturing and feeding {meditations, which is feeding the spirit its food of knowing and emotional acknowledgement}. Explain the self calculating spirit of truth and trust are communicating the knowing of self in its own uniqueness, helping the self to strengthen its spiritual self through our emotional understandings of self, and of the environment. Each student in group will learn to keep their spiritual selves alive while completing each task to complete their goal without interference from the lowered self worth, because that is the end result of this training to realign hearts thought back where it belongs in the first wisdom and never the second one again.

Ask group to think of times when they discovered something new and later realized it was better than once thought, and the benefit then would have been greater than when the self was without the understanding in its full capacity of knowing. This is the light in logic intellectual wisdom brings the self to, for the self

then to conclude and form intent to act on the knowing. Looking for the fullness element this self is now equipped with the fullness “enabler” of entering into the first wisdom and remaining there.

And then ask if the student if itself had matured the knowing- into a greater knowing, would the outcome have been different than fears result? How?

The point to this is to get the student to realize the importance of just one thought, and the amazing, brilliant light with the fullness capacity and its willingness to share that sense of need meeting fullness, with the inner self. That has the potential to turn into the greatest thing ever experienced, but also has the ability “when turned into the second wisdom” has then the potential of the greatest loss, and the greatest hurt, and the greatest self destruction and the greatest degree to catching the spiritual infection and the greatest danger in achieving the disease of addiction to the escape substance or self protection behavior -when unknowing and uneducated.

Explain how

The knowing is in its infancy, its adolescence, its teens, and its adulthood in terms of learning growing and evolving from the first thought of known truth of the self, with the emotional challenges coming. Which takes a good mom and dad to manage the child/idea or, takes the healthy masculine and feminine elements of the balanced determined self, of the human being- to parent the child/idea “AS A THE BALANCED DETERMINED SELF” to grow into the ideal child or, into the greatest knowing in the first thoughts idea. That was born from the self calculating spirit of life, internally in the seed in each one of us.

The group then is directed

to begin to see the idea “as a child” and one in need of care- and this is how we care for the child in hearts thought, in need of direction like any child does. Because it is like the young self who just discovered something new now bursting with the happy joy to express to it parents –but as he older person afraid to do the same thing with others in self expression of that heart thought regardless of

what is the emotional content in genuine truth now because the rejection model programs the hearts thought process to fear the emotional response.

For a lesson is often provided through group discussion, role play and/or brainstorming. It is intended to stimulate students in the cognitive, affective, and psychomotor domains in a fashion relevant to the lesson objective- discuss the damage done already to our emotional structures and explain how everyone already kills their truth off in order to refuse the self expression of what is genuine emotional response. To then introduce the first healing meditation that will begin to heal the damage done. And if the student does not understand its hearts thought emotionally is like the daughter and the masculine intent made of the conclusion itself is the male child in spiritual self who masculine and feminine element of self birthed and now needs to be the good mom and dad to its own spiritual children/emotional and cognitive understanding the needs expression in order to learn grow and evolve from the knowledge of the child to the knowledge Base of the adult. And sure it's symbolic but it is also identical of expression then and now, except now you are in control of hearts thought process, or soon will be.

2. Evocation

The two wisdoms with one of birthing element, and the other of murderer of that birthing element. Needing to kill of the spiritual self in its self worth level in order to dictate from its dark feminine and have self then treat to fearing self expression that exactly that would otherwise bring completion and fullness.

Begin with the flip chart description of thought and thought process of the emotional self-and list the other spiritual elements included in a hearts thought of thought processing the knowledge of the emotional truth of the self.

All that comes from the spiritual seed.

The self calculating spirit of life.

First thought-forethought, afterthought, the remembrance of afterthought, intellect wisdom truth and logic and explain what these do and how they unfold without permission when in new emotional experience with another person.

Silence and silent voice.

Silent voice is the feminine element of the life source/intuition and gut feeling, speaking knowledge of the emotional self, to self- so self can know self. She {explain how truth and emotional response and the wisdom to understand it are all birthing elements birthing new knowledge of self. Who speaks in a silent voice the things of the truth "first spoken in the emotional language" after hearing the definitions of the truth from the experience. Heard from the silent voice we hear in our spiritual ears, spoken from the life source-to self, of self In reaction to the experiential moment, and with another person.

Encourage and direct group to try to see what the emotional wisdom is speaking to intellect, to find the light in a logic that concludes the emotional truth of the self. And we follow this algorithm of thought unfolding like this because we are made to react this way because we are born without knowing anything, and must process the moment through the spiritual elements of hearts thought, processing the knowledge of self after the emotional experience. And when that is rejection of natural self expression turns the child on itself, and now it is self- in its second wisdom agreeing with the second wisdoms intent and ability to lower ones own self worth level. Ask what silence spoke to the self of the student to see who will share that and continue to help process te understanding and the groups input when needed.

Silent counsel

Hope is a way for god to provide hope felt in the depth of self, the counselling or the feel good energy that say if you persevere the you will succeed. Self believes strongly in that hope people know as faith. And since there is no other tap that turns faith on, then this is the only time then that faith is produced in reality. Force feeding self to believe something because someone told you to or because the tv told you to is self force feeding itself the belief that itself is investing it faith

but what its really doing is investing in its fear of potential loss and calling it faith. It was predicted a long time ago that when “the talking pictures” became reality would then be the need of the gods in the hearts of people and wow is that real.

To speak to self in the hope of better things coming in moments of sadness or despair or whatever the inner turmoil -we feel and see image of a hope, we hear it in our spiritual ears, and then feel it in our clamed hart we hope is received. We put faith into that hope given to self in that moment, heard in the silence, of the silent voice of god giving hope in the hearts of people.

The wisdom of the emotional truth of the self.

The heart has its own thought process and we will now label as “hearts thought process”. The cognitive mind takes the knowing from its feminine element and becomes then no longer just a cognitive thought, but turns into the hearts thought process. The heart has been found to have brain cells in itself. But it is the heart where the feminine element of the self expresses herself, that tells self what the knowledge of truth is, and provides along with that knowing the emotional response. And we feel this in the depth’s of the heart for the cognitive mind to then take and balance and perform a secondary human behavior that expresses the thought, into the world. And have that spirit of the first wisdom be projected from the secondary human behaviour of “acting out” the hearts thought itself. The first behavior for a human being after five years old, is choosing between the two wisdoms to take knowledge from, and apply that knowing to its human will. Before five all there is –is the natural oneness element between the human will and self, and the elemental life source sourcing self with the knowing of its own unique self. Using the same emotions and emotional structures to do so but through different uniqueness does the students life unfold.

The feminine impregnates the masculine.

We take “these knowing’s” birthed by two feminine elements of the life source – the emotional truth and its wisdom, both birthing knowledge into the cognitive mind- to then calculate the greater meaning of the experience. This is the

feminine element of the self calculating then with the spirit of life, impregnating the masculine element of the spiritual self. Who the masculine will then birth the greater knowing of the first idea born from truth, but the two of the spiritual elements raise the child or, produce the balanced determined self from the new knowing to act on. Working in opposite of how it works in the physical realm, in how a child is produced. People copulate and produce the physical child. The spirit of the masculine and feminine elements of the self copulate with each other and produce the new knowing, to calculate into an understanding and intent making becoming then the masculine child from the daughter of the emotional response, who the mother and father of those spiritual children are the masculine and feminine elements of self-but the coach can say the masculine and feminine elements of the idea born who self in masculine and feminine element as knowledgeable balanced determined self, guides those two spiritual children in to the oneness element of a masculine intent made from the emotional birthing to be with its truth and evolved understanding of its depth you see? So in this way then the group is guided to see their masculine and feminine elements as spiritual parents birthing and raising the result in emotional and cognitive understanding in its infancy of knowing the bigger picture. Who the coach guides group process a such when in the emotional moment with a group member.

. And then to have the balanced determined self formulate the behavior that acts the thought through to its end result of the goal made.

In which then the student could see the goal made, as the graduation of the child's education, which the spiritual mom and dad raised in a manner that cares for the spiritual knowing of the truthful emotional self. The one thing about hiding emotion and lying through it, is that the emotional content does end up being expressed in some sideways kind of way, that protects the vulnerable emotional structure of a person. Who does not know itself well enough to feel confident enough-that itself can survive the emotional moment "with itself" and then with others. Not knowing self depletes the fullness element of spirit that meets the emotional needs of a person "on its own". Emptying the fullness element and draining self worth just enough to then puppeteer its host. Turning itself now into

the hungering of the under machine element the body had been turned into from external programming from the environment like tv, omg the tv...

-the thing is about tv –programming is what we do with the emotional response from seeing the drama. We take it and extrapolate from it and begin then to believe in its pathway made for the self then to believe from the emotional exploration attaching itself to known emotional belief

Knowing the self will take the emotional self and birth belief from in the fantasy of the drama, but knowing now of how the brain subconscious and heart works to meet the need of its god the human will, not caring what truth is. All they see is the natural happy joy in the emotional and cognitive new ness of understanding something in new experience. Or they see the fear of the spiritual parents fearing for the emotional security and stability of those spiritual children, of the spiritual self in masculine and feminine elements of who are their spiritual parents and when those parents are the acknowledgement model of parenting the emotional response, then the self grows into its own emotional and spiritual evolving.

Or the subconscious and heart and logic all detect the danger of the spiritual pedophile hunting for those spiritual children to defile in the hearts thought of self, to lower the self worth level that enables the puppeteer the spiritual pedophile is to assume the persona of self in the second wisdoms self protection need in desperation of fearing then the spiritual suicide. Which is what people feel when others are pointing out flaws in self were if self says yes your right feels like an internal emotional/ spiritual death but this is part of the trick to get the self to see the second wisdom as savior, because all that self protection knowledge consuming self begin to feel safe in our emotional darkness which is the beginning of the spiritual infection, but being fought internally by learning personal development.

in which then they provide the things from the fight or flee knowledge base instinctively at that point, but amplified to unnatural effect of the emotional effect.

We take the determination of the knowledge calculated through one of the two wisdoms and act on this knowing because we can't help but to take that knowing with us, and add to the knowledge base of self. When in emotional hearts thought process, processing the experiential moment through the emotional knowledge the self has "of first" the self, and then is implemented by the uniqueness of the individual. Meaning- we all have the same spiritual and emotional elements of life and living through those elements, of which there would be no life at all without them, because we would have nothing, and no means of thought process at all. But each of us, having our own uniqueness to implement thought into physical reality, does so through that uniqueness, and it is here where we evaluate our own uniqueness, when after the self expression.

Hearts thought, and hearts thought process

Operating after the visit from truth and wisdom to understand the greater meaning {in silent thought} first before formulation the behavior in reaction to knowing and receiving then "the emotional need" from knowing.

Give an easy example of a calculation in heart thought, and then a formulation example of behavior showing then the emotional self as the spiritual daughter and the masculine self the son of intent and path making to at on that hearts thought.

The child and the cookie-does the child ask, or does the child take without asking? and from which of the two wisdoms are being used in that moment and what then does the child have to keep doing in order to maintain the lie.

The first lie in a trusting relationship but in order to achieve the goal made in someone to feel to self express and admit the emotional need even to itself.

In which the first goal ever made from any one is emotional safety and when the self doesn't have the emotional safety with another person, then the self relies on its lies to remain safe emotionally, causing then all kinds of conflicts between two people who genuinely love each other.

Instruct them to process the scenario in their imagination of what to do when they need acknowledgement from their relationship partner and from what wisdoms they choose to take knowing from, in order to conclude thought and act on the heart's thought. The heart's thought process begins with the acknowledgement of the inner emotional self as the result of the emotional response in result of the relationship moment. It is this in the moment programming that both wisdoms look to- to achieve the human will of the self-in the aspiration born.

One offering truth emotional response and the wisdom to understand the knowing. And the other there to dismantle what the first created as being, and life in being. to get the early self to need its second wisdom more than its first and it works to remove self from its oneness element for life.

Fight or flee for the human being

People refuse the self expression when feeling threatened by the past emotional programming, resembling the moment in the now. Forcing the self {or so it seems} to then utilize its self protection from the second wisdom of emotional self protection {the animal instinct to fight or flee is "emotional self protection" because of the early childhood rejection model programming.} instead of its life giving "self expression". The self expression is the air the spirit of the self breaths to keep living, but when we are too afraid to express the inner most, then we suffocate the spiritual life in self through a deadened emotional heart.

And the spirit in self becomes the spiritual death we fear so much, and hate living through, because in all moments of existing and thinking-we need to feel alive and wanted, and "cared for" to feel then loved, IN ORDER THEN TO FEEL FULFILLED with the need meeting sense of spiritual fullness. But none of this comes from the second wisdom and its existence in self as a spiritual influence,

programmed into the heart of the self- through the rejection model of being parented. To enter into those aspirations to see if they will remove their own underwear I men remove their human will for its own emotional truth which is what a pedophile does to the emotional structure to the emotional child to get the child to remove its own underwear. Which is it up to parents then to protect from that spiritual pedophile hunting your spiritual children who people call the devil. But has the power of only a pedophile working the emotional structure of the un knowing self, so it's easy to beat and learn to be good parents to your on spiritual children. Its easy since there is a lot of knowledge out there to heal from the physical spiritual pedophile as the surviving adult still with all that defilement of its heart still within the self.

Each time we are controlled in the moment by the second wisdoms influence -we recall from the emotional memory of knowing we need in the now, that comes with it "the self protection behaviors" known to relive the self of emotional danger back then, as a vulnerable child, But is still using the same self protection behavior as the adult. And when the self has a knowledge base of negative emotional content, then the student is calculating then hearts thought in the now, with the unresolved pain from the past- and including the self protection behavior learned in early childhood, into the now. -now without realizing what self is doing to its own inner self. When people see the second wisdom for what it does to the human spirit, then itself will stand at guard to protect itself from that influence- and not stand guard against each other anymore.

Brainstorm the fight or flee behavior of emotional self protection behaviors

What are some of the behaviors the student takes part in trying to self protect the vulnerable emotional self.

The first self protection behavior is to lie about how we are genuinely feeling, reacting to the fear manipulation emotional programming from early childhood. Who then we all learn to manipulate and through a continuing emotional deceptions presented to those the self of the student loves and needs from, as the result of not feeling loved and with now emotional trust, no were to be seen.

Our self protection behaviors used on a person who is not threatening to kill and eat you for dinner. But is threatening your emotional self in some way of their second wisdoms actions that want you "and need you to feel", in that moment, the ridicule the humiliation and the embarrassment of just thinking of self expression- of the inner most. Because when the lower self can overwhelm the student like this, and the student becomes the slave of the master, and the master being first the fear internal, and its angry persons wisdom. And second who "the spiritual predator" preys on, this weakness to exploit the vulnerable human being, with little trust and belief in itself.

Having explained all of this, explain to the class the training program is designed to erase all the second wisdom installed in us, as emotional programming in the low self worth. And to return the self back to its natural oneness element between its own masculine and feminine elements in self. In natural alignment then with the life source internal.

Watch the movie The secret to understand the power of an emotionally balanced human being. And then ask group who should be inspired by its knowledge base-ask the students to go out into the world and try this positive thinking thing that no one gets because the self worth level hasn't yet returned to natural processing ability. And who the self is filled with fear and anger instead of the need meeting sense of spiritual and emotional fullness. Who says to visualize through emotional contentment, to then pea the language to this magic universal genie who answer you and give you the hose you want but doesn't work with lower self worth level of the emotional self who finds no or little value its emotional self. So how can focusing on a positive emotional self be possible when there is no positive emotional energy but only the negative emotional energy that makes us not to believe and trust in the higher self any more. No, self must heal self first in order then to believe and trust in its truth element that includes the emotional birthing and until you learn to be functional parents to your own thought no magic will occur in the of aspiration, which is no fantasy when aligned.

Then watch revolver to give an idea of how the other wisdom possesses the hearts thought process. Ask group to speak of the experiences.

Mapping the living computer in thought process x 2 which is mapping the two algorithms of the human being, calculating thought in the higher "and" the lower self, of the same emotional truth. Of which has the two wisdoms to take knowing from-from the ACCUMULATED KNOWING of ones own experiential truth i also accessible and exploitable. And when wisdom speaks to self, of things in the knowledge base of self, that need inquiry, or needs strengthened, the self speaks back and communicates with the silence of its own spiritual self, when the self talks back in the same silence and reacts to that motivation from knowing, that is then fueled by inspiration fueling then new birth in aspiration/the idea born.

Mapping our two wisdoms communicating with the human being.

Our two wisdoms and our own re birthing ability.

First map the natural self

First thought- forethought -after thought- the remembrance of after thought- silent voice- silent counsel -and its movement that ignites this life in knowing, in knowing the emotional truth of the elf impacted by new experience.

Intellect joins with the first wisdom to conclude the emotional self in a way of acknowledgement and management when raised through the acknowledgement model of being parented. And then discuss what changes in us that turns our inspiration of the aspiration into the emotional death that does not see the goals success, but sees and feels its failure adding then that knowledge to the knowledge base of the emotional self "as failure". This is chaotic self bringing itself into the relationship to feel understood and acknowledged, but left with out the ability to acknowledge self, being left then without the ability to see and recognize the empathy needed in the relationship.

Explain the rejection model and the acknowledgement model after asking how does the second wisdom establish itself into the other wisdom of a darkened emotional structure influencing the emotional death itself needs to remain as influence. {in the self study is strongly encouraged to speak al things t t her owns

own self because without self expression evil will harm you and confuse you and reduce you useless in ability of concluding thought, and completing self emotionally. Explain how intellect works to take wisdom and find the greater meaning and knowing of self emotionally first to understand its intent making adjusting its path making all the while, while making sure itself meets the needs throughout of all the tiny goals to make and complete to achieve the main goal achieved.

The dark feminine element of the lower self;

Fear and its potential fear of loss shown in an image without silent voice.

That consumes all other emotional responses and makes the self afraid of its own emotional truth recalling memory from early childhood, and the rejection model of "being parented". Who then speaks to self in an image of...

The fear of potential loss

Is the communication element between self and this second wisdoms ability to hack our silence and appear as our silence and as ourselves at the same time. In hearts thought of emotional need for self expression first, and then a multitude of fears flood the heart and hearts thought process., acking the original hearts thought process, with the first wisdom. Continually drawing from the well of low self worth, reinforcing how the self is unworthy "and just as unworthy now" as when in early childhood when the unworthiness emotional programing was established and experienced and programmed the lower self into the heart of the original self.

Self talk changes from the inner peace, to the chaotic hearts thought process that "can determined nothing" except how to escape the heart pounding fear in the reaction of seeing oneself "self express" the inner most emotional truth of the emotionally alive and living, higher self. From birth to about five years old a child will naturally talk back to the spiritual life that is speaking with that child. We all do this and the natural self talk is not only communicating the knowing of self to

the child, but is having full length conversations with the spirit of life. And the family of spiritual influences of the life found in the enlighten mind from a heart filled with the natural joy and innocence of each human being born. And the other wisdom is not present until invited into the realm of the hearts thought process of the child, developing itself only through one doorway, and that is through the rejection model of being parented.

Developing then The ego, the masculine element of this dark feminine element in opposite of the first, who has a harem of mistress wisdoms at the ready for spiritual copulation. Explain how it can only live in opposite influences of the truth and the first wisdom of truth now turning the emotional structure into an emotional death after being rejected enough times. Causing then what is known as cognitive dissidence the disease in the mind that does not allow for concluded thought or completed emotional self-in each new experience after experiencing the rejection model of being parented. Because now the devil/Satan/viper/dragon/ spiritual pedophile takes each daughter element to then cause the mind its distortions. Taking the both spiritual children away from the inner parental team the masculine and feminine elements of the self are to the new hearts thought. Who in daughter element the parent look s into the young child and calls it innocence but who the life source still labels as daughter element of the spiritual son about to be born in the mind of the new person just learning to form intent of its knowledge in the moment.

Where silence has silent voice to communicate life to self, and to have conversations in that silence, speaks often of "a warning" to not enter into a dark wisdom. That will darken your spirit and will use empathy to do so, along with the silent voice that speaks these things to us, in silence before we act.

The evil spirit influence has the ego and its audible sounding voice that sounds like our own voices. And like we were talking to ourselves but we are not, it is the lower self trying to survive in an emotional death inside the human being, who cant survive unless the higher self was completely out of the picture, where then the happy joy those spiritual children are in us to make self feel those things are

now feeling the opposite of this computer hackers "angry persons wisdom" to calculate hearts thought with now exchanging the life sources elements for elements now turned and used against itself intently in those spiritual children resulting in the depression state of human being now not any longer feeling the happy joy you see? .

wisdom itself installs in opposite of the first now having the deadened emotional self to present and express its darkened emotional structure.

Who when silent voice speaks those things to self, the self then hears from its ego's voice that says the opposite, and to survive as an animal would, who does not use its empathy when hungry. The spiritual hunger in a person is caused by the rejection model of being parented because the child becomes emotionally programmed in hearts thought, and its entire body when experiencing our human emotion in future moment with others but bringing this emotional programming of low self worth "with us" into those relationships. Who the selves of two who love each other do not want the conflict and chaos coming for them in their relationship, but does not see it coming and does not see how it is coming from within themselves, through the second wisdom of the lower self now dominating "and killing off" the higher, natural self.

The hunger comes from the emptiness felt when we feel alone as children, and we feel alone because we are not acknowledged for the emotional content, left feeling "emptied inside" when rejected for its expression. When parents find a relationship with themselves, then acknowledgement of the facts of what is deprived will be easy to deal with because now children are taught to deny those things through the rejection of its emotional impact, and its emotional expression. We all were programmed this way, and in this way our "spiritual hunger" is caused. Causing then the physical hunger for the distraction needed from the unresolved emotional turmoil left behind. Ask the group if this is how addiction starts to recognize in the emptied heart needing to distract self from that with the physical world. The coach offers its first distraction need and its first physical substance used as emotional escape through a distraction manipulation we do to ourselves not knowing we are longing for the natural fullness state to

return –so the young child reaches for the cookie and soon then to reach as the adult the candy store variety of addictions for sale, and only a little bit goes to the end result who orchestrates it all as the one selling the psycho active substance. Explain to the group each of the multiple drugs the government sells and promotes secretly through the exterior inwardly directed spiritual pedophilia that explains after removing your human will for truth that it's your fault if you become infected then with the disease element left behind by the profitable hunger machine element. And then help the group process the emotional traumas coming from multiple sources of ferment and anger.

This evil spirit influence targets us all the same way but turns people into different degrees of their emotional death, that results for most to be puppeteer'd internally all their lives obeying the fantasies fear speaks to self- of self, enabled by the fear of loss constantly in hearts thought of knowing self, and fearing no one will accept the genuine self. This end result conclusion most people make of themselves after five years old... from the fantasy looking that fantasy of feeling worthlessness in a fixed undeniable way. Or indirectly for those who can convince themselves of their own denials of emotional birthing. Who self then becomes "that daughter element" while emotional, wearing the emotional response all over our faces, and seeing it in our body language. We then become the rebirthing element wanting to be advised by our intellect first, so "she" the emotional self in daughter element of spiritual hearts thought, of the emotional response in the experience, goes to intellect to find out why.

The two then have the ability together to find that light in logic that concludes completes and fills with a need meeting essence of spiritual energy from the Pleroma, meeting all emotional needs when aligning self. In itself like like that but, why, why the emotional response? As she pleas for understanding heard in our silence, and felt "this silence itself" in its knowing of truth in her heart, the heart of the emotional self you see?

While in the heart of self is self asking "self, in cognitive light" this question spiritually from its wisdoms communication to intellects masculinity. And for those smart enough to create a knowing in themselves evil, god, and myself calls

wilful ignorance, of this emotional self seeking out her husband to deal with the dam kid kid in the first place! haha right? No wrong, tv is a pedophile machine and it is there we learn to program ourselves emotionally, in early childhood for familial separation in the right now. And to understanding to sacrifice one of the children emotionally. And how to do that using the three mainframe negative emotional energies of automatic recall in an emotional looping of itself programmed emotionally to feel that fear and fear of more of it coming potentially... when ever self is emotional, in need ten of the first step in naturally knowing self which is the self expression. But is faced with the same emotional energies created left unresolved in fearing now to feel humiliation and embarrassment and ridiculed as seen on tv all our live so we know it's true. And self then cant help but to duplicate the opposite of what itself wants because of the infection wisdom that came into "the daughter of the masculine self".

Drains the self worth each time we are enabled by human will to enable self to receive fullness, evil in the second wisdom creates then the low self worth "to envelop" the persons persona of its spiritual children. Who in its end result is the self emotionally and cognitively who dose something with that wisdom to mature then that knowledge into a greater knowing "in the darkened emotional self" seeking the emotional darkness, to get its need met.

. Rendering then ones own natural trust and belief in self to deplete to the point of not believing and trusting in the self. So now as a five year old, our emotional programming tells us through the lower self that "we are not worthy enough" to take part in life, in the first initiating part of life, that begins and continually strengthens a trusting relationship alive in positive emotional energy - and emotionally vibrant in the happy joy. Self now in the lower self dominance begins to practice life in relationships building as the secondary persona of the second wisdom, who the two you, are completely different people. You your higher self and his persona, and your lower self, and her persona. One is the balanced determined self or want to become it because self wanted its own emotional functioning that produces opposite results of what self is feeling in the now, of every moment .

and the other one is left emotional unconcluded and angry and with ego now hinting at its angry persons wisdom to express instead of what the natural child doesn't naturally as its own spiritual parents at the ready to care for the spiritual children, until itself is turned into two persona type reactions fed from two separate opposite and apposing wisdoms in self fighting for the space in human will that controls the behavioral self.

by experiencing the acknowledgment model of being parented. Teaching the child how to care for itself eventually, and that is what every loving parents hopes for with intent but then cant deliver because the parent was never taught to parent itself, that needs the acknowledgement model of parenting from its babysitters human being call parents. Because that all you can be is the limited general knowledge of your child's heart and uniqueness in a general understanding of children. Never to know then a connection between the two of you, that is not only needed but feels really nice to.

And not knowing what's coming next for you both living in innocence both ready to embrace it, instead of reacting oppositely. Expressing to one another each other's "male child" {intent made of the emotional meaning} in the emotional expressions to each other of that intent made in emotional safety between you.

to each other, who the internal parents had to have made the perfect brother/sister internally because the child was emotionally programed by modeling, acknowledging parents who can say no and acknowledge emotional meaning without blowing smoke. Taking from the truth element of the perfect mother/father, but put there arranging things between self and understanding self is the perfect intellectual wisdom. {Christ consciousness} Who spiritual mother and the spiritual masculine and feminine elements of self, becoming one with the wisdom of the good. From the emotional truth of the self, now expressing itself as the skillful balanced determined self, who is the perfect mother/father to its own spiritual children first capable hen of the balanced determined self when shown how to do that. .

but the rejection model of parents who do not know how to parent their own spiritual children born in self, to keep all emotion, and the dangerous, frightening truth away from themselves in order to remain safe. {this is the daughter who “they came into to defile spiritually”} This new self talk begins with the ego having its own voice, and slowly and gradually turns in hearing it in our own voices but begins the same way in all of us, who this evil behind the second wisdoms influence is trying to penetrate and rape truth. And use the tools and tool box of itself, to produce a selfishly determined {its favorite} or the pleasing determined self from that spiritual pedophilia that follows spiritual rape! and refuses to allow the balanced determined self because this self is educated, and is dangerous to the life span of the second wisdom in people. And to allow the self to remain in the natural state of emotional and its spiritual oneness element, would mean spiritual suicide for itself because the self emotionally is the only place this evil has left to exist, in spirit form.

. But the original programming is the same spoken in the beginning with the dark spiritual influence of the dark feminine element of the lower self.

It says to the child look! When you express yourself brings rejection and rejection is the spiritual trauma so do not tell the truth “and lie, misdirect and mislead! through your emotional response. And do not ever speak them out loud or the reliving of the spiritual trauma rejection causes the child will return {self talk}. The child listens to the cunning deception of emotional manipulation of truth and trust leveraged by the fear of loss of something specific to the emotional need, and its physical safety element. While having its self worth level lowered “just enough” to remain alive, but emotionally deadened inside, causing the spiritual death.

Explain the electromagnetic pulse in the earth being the same energy as the pulse in the human heart, and cess then into the daughter element of the emotional self. She is a daughter and the emotional self the same time needing her mother and her father for direction who is the Christ consciousness until human will is strong enough in its emotional truth again and then the loan of the seed is recalled. The daughters father intellect then searches for the right logic that will

best help and suit the emotional need met for the spirited daughter and then “the mind” then births the son of intent making, and intent made from the emotional response and the inspiration felt of the aspiration to pursue in a goal made to act, needing then more wisdom to act on, the emotional response that inspired self in the first place.

The tools and tool box of the dark feminine element of the evil spirit influence, who hacked the child’s living computer, and now is communicating with the cells in the body as the adult. Who in turn relate and communicate with the sub conscious receiving this “infection programming” but the sub conscious and heart and body know only to react to what the human will of the self “of the child” says to do through its distorted and misinformed human will -who doesn’t know anything either. And the two of them, the child and the subconscious believes the lies spoken to itself, and this relationship becomes then like the relationship the child has with its physical pedophile, who relies on the tools and tool box of the second wisdom- utilizing the same tools and tool box internally, in hearts thought of the human being.

The mistress wisdoms

Once self is trapped in the low self worth -changes the first wisdom into the second of the “angry persons wisdom” where then the self doesn’t conclude the emotional truth, but allows it to fester into a greater and greater anger, never to complete itself and never then birthing the son of man kind spiritually. The son of mankind and the son of god no longer working together in the oneness element, ensuring the same then for the next generation unless something is done now as the future parent, who saves itself in the process of this training, equipping both the student and parent with spiritual life and with a great strengths about to fill you.

Introducing then the self to the mistress wisdoms, to calculate hearts thought with. In that moment of unresolved anger, in the now attaching itself to the unresolved emotional memories from the past, now appearing as if the same

emotional trauma from early childhood is “the right now”...with the same mainframe of emotional knowing, awareness and reactional programming that says to lie, because the truth brings the emotional traumas from early childhood. And since the pain is unresolved from the early years, then the self knows only one way of self protection which is to listen to the ego that says these falsehoods while amplifying the physical sensation of feeling fear in our hearts where aspiration is. And its fuel of inspiration replaced with the lust fuel needed to stay alive emotionally. This is the beginning of the lust fuel in people. {Give theatrical examples of lust in people using the pedophile machine/tv except using it against itself in teaching personal development from its lies and cheating.} And then show how emotional self protection lust-and lust for the physical substance is the same fuel, from the same source.

So the one wisdom of anger turns quickly “to hate” when left without the balanced determined self. Hate being the mistress wisdom, of the original angry person's wisdom. And after when calmed a little, unresolved anger from the unresolved pain from which anger would not generate itself without the unresolved pain, turns “to an escape need” from the left over anguish because this person never learned the art and need “of self expression” in the now of emotional birthing. And is continually providing the falsehood, instead of the self expression that needs desperately now “the escape” because there is no inner peace when left unresolved. And there is no function in any relationship when self does not know the methods of the balanced determined self. So now this person is looking for the right substance of escaping in distracting self from its unresolved state, and looking for the means of achieving the escape, which takes other wisdoms of the lower self. Ask group what are some of the wisdoms that have taken the lie and the falsehoods and its manipulations in order to achieve the goal of addiction, through the emotional darkness of the lower self behaviorally? or through substance abuse and both.

Do the 50 values after this one to re position the student's heart- and look into all the realities of the human being, not just the bad stuff –asking the student to list 50 values they recognize in themselves and have them read those out loud is key in making that shift. Its not good to leave the student with knowing its lower self

alone, but to re inforce its own knowing of its higher self is key in negative emotional energies flowing in the moment yes?. Flowing like a river? a spiritual river of truth and wisdom flowing? Its easy to understand now what the bible and that "Jesus speak" means, and now a better connection will be made because of it.

Flip chart description

First thought-forethought, afterthought, the remembrance of afterthought, intellect wisdom truth and logic- and explain what these do and how they unfold without permission when in new emotional experience with another person. Silence and silent voice, and the heart that has its own thought process we will now label as "hearts thought process". The heart has been found to have brain cells in itself. The living cells in the body that are consciously aware and are alive all 60 trillion of them. Communicating with the subconscious and bringing up on demand the emotional and behavioral information the sub conscious believes the human will of the self needs to live through or survive its moment of either life's self expression or the spiritual and emotional death of fearing self expression while locked into an emotional programming that has until now, been unescapable.

The list of mistress wisdoms is placed beside the list of the first wisdom and her sister wisdoms.

Sister wisdoms;

Brainstorm wisdoms of the good in the students life listening to their first wisdom of the good intent making. List them on flip chart and hang up for reference. And put this list beside the garbage can with the list of mistress wisdoms. And say not that willful ignorance is at paly here but it is the promise of this training to remove the unresolved pain, removing then to automatically the influence of the second wisdoms seed.

When with truth, comes trust. When with truth and trust the first wisdom is offered to the person as a knowing of the reality of the truth in the bigger picture. From this other wisdom comes into view in the hearts thought process of self and

offers empathy and love through and knowing ten in how to act of inspirational goodness, a knowing to nurture, a knowing to care, a knowing to maintain integrity- ask student now to brainstorm their own sister wisdoms they have used as knowledge base to draw knowing from.

Explain the knowledge base of self is that which the self recalls knowledge from the past, to add to the knowing in the now to achieve the “in the moment programming”, and to remain in control of it internally. And when there is no threat then the content recalled is that which adds to the moment of calmness and peace in the moment, in the students relationship {s}. But when it is the second wisdom who took intellect from the first wisdom from the student, and replaced the birthing element of life with that which kills off the spiritual life truth of the emotional self “brings to the knowledge base of self” this self is then left in the deadened state and becomes the emotional death that enables then the spiritual death and infection to god realm. Congratulate them for wanting to be infection free and finding the courage to do so because not all people can hold the truth apparently?

Finish off with a pictorial description of everything the elemental spirit of the human being. flip chart.

Objective Enquiry/Skill Practice {might} turn to expert sources

Watch/remind the student of the movie The Secret.

Ask group to go into triads and discuss the times when low self worth interfered with the normal daily living of the self. And what stopped the self from acting on the communication from the first wisdom and its heart felt need to pursue.

Which could be from outside the group, and/or the coach, and/or the students themselves – to develop a detailed "how to" of the skill (s) to be learned and the opportunity to practice the new skill(s) within the safe confines of the group.

4. Skill Application

Involves applying the new skill(s) to an out-of-group situation

The application of the self healing meditation is needed here to remove the unresolved pain from "the chest" of the person.

Give examples of self fearing rejection and failing then to meet the needs of the inspirational emotional truth of the self. With all fears boiling down to just one fear that controls every spiritual element we have, which is the fear of self expression of the heart felt truth. Which has then the ability to separate those elements into separate parts -and no fullness enters when mis aligned like that and no methods of positive thinking will erase the old emotional programming that maintains the low self worth. That allows for the student to stay stuck and achieving little of the goals itself makes, through out life without doing the self healing meditations.

5-Evaluation

Direct class to go and communicate as they did prior to the first class, and evaluate the differences in hearts thought of discussing the same truth, when in hearts thought of self expression. And ask then to recognize when they themselves are being controlled by the second wisdom of self destruction.

Introduce the first meditation.

Finding the lost child meditation and its programming effect.

Walk students through their first meditation as the group.

The entirety of being a human being is all about parenting.

God who parents spiritually in our spiritual children of the emotional and cognitive self, caring for the heart felt thought itself, in masculine and feminine element form. When a hearts thought is birthed of the emotional truth of the self the life source provides hope and silent voice to assist self in understanding its wisdom in knowing the greater emotional depth silence takes those children into. And think of it, we are physical beings housing the spiritual being, being then our birthing process then is in spirit form. And

us we who parent children, but first spiritually we parent ourselves, in what is born in aspiration that its own masculine and feminine elements of knowing, needing then to learn through an unknown process of being at the ready, to deal with the emotional response that births the daughter element of human a spirit. felt in what we know as emotional response, but really is a spiritual child with thought of self experiencing that emotional response. In other words, the self in emotional state is that daughter element of not knowing but being fed its wisdom from the life source until self is strong enough to become the mom herself, relating now with the uniformed son of the two in the logical understanding in in the masculine element of the emotional truth of the self.

who has to then find a balance with it as to proceed in its inspiration without getting sidetracked as we teach physical children in this same way to learn what we teach them. We take on the goal emotionally motivated in consciousness awareness of new understanding birthed in the moment of new a masculinized feminine element of the spiritual self matured and evolved in knowing self. In how itself reacts to its spiritual children's thought process, after understanding and proceeding with plan making, in the goal setting. That comes from our own spiritual children-born as knowledge of self like this, and when the goal is completed and accomplished

then is the matured thought of the self, self now adds to its own knowledge base to count on as accurate knowledge to rely on in future emotional moments of self worth building that cant stop happening when re aligned- you see?

Emotionally we teach our child how to care fore their own emotional selves to maintain a happy joy throughout life, and not just when human beings are to young to know what's in their immediate environment. And when self learns the skillset of the balanced determined self, then its self is teaching self how to do that in every new experiential moment. Ensuring then each new born spiritual aspiration is met with the balanced determined self in the child's intent making, not because the parent told the child to, but because the parent modeled it.

The rejection model of being parented and meditations.

1. The Stimulus- for a lesson is often provided through group discussion, role play and brainstorming. It is intended to stimulate students in the cognitive, affective, and psychomotor domains in a fashion relevant to the lesson objective;

The rejection model of being parented and the hacking of the living computer.

Explain by role modeling the first few evaluations of how the student sees the other students strengths and weaknesses- which that strength and weakness comes from the emotional knowledge of the self, but explain the knowing of self comes "in two forms" of both models of parenting. The natural balanced determined self is either kept through the acknowledgement model, or it is disintegrated through the rejection model, with each then contributing to the knowledge base of the higher and lower self, when both models are present in new experiential circumstance. –ask the class who recognizes their own higher and lower selves after the students offer their opinions of the duality of others. Kind of a trick but one to allow self the safety of exploring self when after seeing those same thing in others. Explain when self is weak is because he or she had taken part in their self protection behavior, acting from the selfishly determined or the pleasing determined self. Leave's potential victims in their paths. Ask group when they understand the two wisdoms. Ask as conversation starter how the self destruction of self- begins in its infancy and unfolds eventually into the self destruction we see in each other. Explain how when in observation of our own emotional moment of experiencing the emotional impact from the experience, the second wisdom will come into say the negative things that want the human being to fail at the self expression, in those early years. As to gain its stronghold on the person. And so the person then be convinced it is the second wisdom of self protection- that the second wisdom is friend and savior from the potential pain coming, from rejection of self expression. Which we keep this programming, and then react to its understanding of self protection over the first wisdoms knowing and understanding of self expression, but thinking self must enter into the emotional darkness of self, in order to remove any potential threat. The child

then becomes too afraid of speaking from the first thought of life. Because its spiritual children in masculine and feminine element not yet a knowledgeable parent, censors the content of the wisdoms knowing in its communication with the self, communicated in the silence of the silent voice of the life source sourcing self with the emotional knowledge of itself, to learn grow and evolve from. But then the second wisdoms input is a reality that controls the self in the form of fantasy- and fearing that fantasy- and will continue to do so until the self of the student begins to reprogram the hearts thought of itself. Explain to the class we are here to reprogram the emotional knowing of the self, erase unresolved pain and redevelop the intent making dept. of the student to bring the natural level of self worth back, and to be in control of thought again.

To then operate from, when in thought of self, and its own self expression need, which is every single thought since we first have the emotional impact from the experience, to then react to that. And not the outside force that generated the emotional response {the other person}, that is the secondary reaction once the first had taken place internally, in hearts thought of the emotional response. Generated by the other person, but the other person had nothing to do with the emotional response, nor its programming in knowing how to survive that emotional moment. It is important to know this and if the student still wants to blame then explain that is only the self remaining in its feminine element to want blame, and the explain it isn't the one who caused the pain left to deal with its end result emotional programming. Who is responsible for the students thoughts in heart felt emotional state caring for those spiritual children, who only the self is qualified to deal with and remaining indifferent. The student who fails this training means that someone else will be managing the students emotional structure first internally in blaming, and than externally in the environmental puppeteers/those who love evil better than the good.

Ownership of this understanding is crucial information to understand, and the coach is instructed to check to see if everyone does understand before moving on to understand any else. Explain, It is not the other persons persona but their behavior that ignites the emotional response for the self then to manage on its own. And when the emotional self is not controlling its own emotional persona,

then this emotional self is used as the puppet of someone who does not know themselves, and becomes immediately exploitable when surrendering human will like that. Explain then that a checklist would be needed to blame all people for every emotional response you ever had which is ridiculous because eventually the self will narrow that list down to reason of birth itself that is the culprit behind emotional pain. But owning the emotional response and applying communication skill to that moment, with the intent to form balance through the practiced bds behavior "is accountability" for the emotional structure of self. And puts back together the oneness element to think from again. Then ask the intellectual wisdom of the student all of them –at the end of the day who is responsible for the hurt feelings of self, who no emotional predator will come to take care of those feelings for you wen finished with you. But the meditation will heal in the moment the unresolved hurting the self is experiencing and when itself learns to parent its own spiritual children, as the balanced determined self in hearts thought, then there will be no more student but a graduated and informed person of itself the environment and someone knowledgeable of the spiritual predator no longer attached to this person possessing itself, with its emotional darkness.

Teach the first self healing meditation.

Explain that from here on in we will be accountable for the ownership itself of the emotional response -without blaming the other person for it -utilizing the feedback formula when in the emotional moment in the now- in group between each other.

Teach the feedback formula.

The intercept point of the second wisdom is then discussed

The intercept point of the second wisdom is always first, the emotional self. To get at then "the self worth interception" with ability to lower self worth to the needed level in order to control the hearts thought of the new host, of the second wisdom. In is in hearts thought of self expression of the inner most emotional truth of the living higher self does the second wisdom "come into" the first

wisdom to kill off its emotional spirit and defeat human will from achieving first the inner balance and the relationship with the life source- and then defeats the relationship goal with other people when in that kind of deadened emotional state. Use the flip chart to draw a picture of a child Ask the group to explain five of their own childhood experiences-lightest to heaviest, in both the positive and negative emotional energies-write them down beside the picture on one side and determine the reaction in self expression or self protection on the other. The class then see's what it is that deadens the emotional structuring of the student-which the same things are used to determine that spiritual death from emotional deadening. Which the moment's reaction from others is then programmed to become the new level of ones own self worth to draw from, in each emotional moment with another person, and all other people. Explaining a person who knows itself is a spiritual person knowing then its own empathy and wont see to do any harm wen itself sees the intercept point of an open emotional wound that needs help while the lost person sees the same as exploitable tool to work it, and kill off the human will for its own truth utilizing tools and formula of human will removal. This is when the self becomes intercepted emotionally and internally, in hearts thought of itself, to then be puppeteer'd by the lower selves in other people.

Ask group; why is self expression a need?

Ask how does it feel when in the safety of self expression and when you express but isn't safe with what people generally do in those moments? {emotional self protection behavior} ask group then in those frightful moments what self protection behaviors DO THEY USE. Triad group process to bring back into the group. Assign a list to be put beside each student or close enough to then use that knowledge so others in the group can detect when their fellow student is in darkness of their emotional selves, and what self protection behavior is being used in their self protection moment. Ad as the student progresses and losses its self protection behavior then each self protection behaviors this student isn't using anymore is taken crossed off the list of behaviors the student hanged in itself. The clearing of self expression "is the need" to understand the knowledge truth and the logic are describing to the self of the emotional response from the

experience. Explain that without first hearing yourself and seeing the reaction of a trusted spiritual friend does the self then know in certainty of itself and how itself is reacting to then impact others with their emotional content turned into emotional darkness of the same truth. But doesn't move on unless directed by a knowing, and that knowing comes from one of the two wisdoms in their messages of either self expression or emotional self protection, which withholds the emotional knowledge of self but in doing so kills the emotional life off is the student. The student feels deadened emotionally internally and finds themselves either living through this emotional and its spiritual death element- or, shows up to one of my classes to learn self and know self quick. Intellectual wisdom as one element is "the what" in terms of spirituality. So, what then is separating intellect from the first wisdom- from self- and what then separates? Ask Who is responsible for the second wisdom in all people if god is responsible for the first? The end result of the discussion is to understand that until the student begins its own personal development program, this self is still directed by fear and fearing potential loss, and will be dominant wisdom over the natural wisdom internally wanting and needing to maintain contact and calculate understanding of a self about to lose its dignity of re experiencing that looping in negative emotional energies from the evil spirit influence killing off the one element that then kills the others off like they didn't exist in the first place. We are human beings who needs to understand AND CONCLUDE our emotional moment in order to feel the contentment of the spiritual fullness, each of us seek as natural emotional food, for the spiritual self. Which relies on the normal levels of self worth to be at the norm, for the balanced determined self to be then "in tact" but needing then the acknowledgement model of being parented to sustain its self worth level—all others destroy themselves in addictions and jails and institutions, and who everyone else takes my training or some other personal development training that develops the relationship with one's own self first. To take that self into the relationship to share with another, knowing it is fullness and how to achieve emotional fullness that meets the emotional needs of the interdependent self sharing itself with another will trained interdependent self. And who all of humanity seeks with or without admitting it, and some don't even know fullness is a need meeting spiritual element- that meets the emotional need of the living

human being {alive in its own hearts thought processing the emotional knowledge of the self} And when not cleared, the second wisdom will take from you your first wisdom and turn into the angry persons wisdom. So the key in relinquishing the power of the second wisdom begins with the self expression, because it is from expression that understands. Is birthed and true knowing of self is developed internally to add to the knowledge base of the self. And ability of the balanced determined self "maintaining" the trust and belief in the skilful higher self is alive when knowledgeable of this skill that helps self to express itself and its love and its trust through its behavior. But first what it takes to remove this infection wisdom from us and have it then "serve us" instead of serving anger and intent the second wisdom has for its host in self destruction-while destroying us. We can use this second wisdom "after healing" and achieving "the skillful" balanced determined self, trained in COMMUNICATION LIFE SKILLS as a means of seeing in others the same spiritual death, which you can then help that person remove itself from the grips of the second wisdoms power, and effect over its host. Or, you will know how to protect yourself without losing self from their offerings in fake trust easily now that you became walking lie detector. Explain that when the emotional clearing isn't "presented" by the balanced determined self, is the cause of the students relationship dynamics with everyone he or she relates with. {positive or negative emotional energies shared, the relationship dynamic is inevitable}. And then is used by the second wisdom as a reason to remain alive in the self, through the emotional death we feel, and fuelling its method of operation through the self rejection of the truth the student does to itself, when uneducated and unknowing. Because when rejected enough times, actually program's us "to reject ourselves" before we have a chance to speak the words of self expression of that inner most emotional truth of the living higher natural self. When at that early age we become accustom to the self rejection as part of the internal emotional dialog in the silence of ones own self talk. And its communication element in the silence that communication is presented with, and is prevented from embracing the emotional structure of self-in itself, causing the self destruction in ourselves and leaving us with little or no self worth to fuel the moment. Leaving self with little or no fuel to internally energize the moment of maintaining the goal in hearts thought of it. When we were constantly "eaten

away at” from early childhood through the rejection model of being parented- and no one escapes this spiritual and its emotional death trap.

2. Evocation

Assists participants to describe their experiences in the stimulus and to share their knowledge about the lesson objective;

Ask the group to look into their own childhood and see when the child self expressed and what the reaction was. Very few will remember or be willing to become vulnerable so the coach will proceed with their own story in how the self was rejected for its self expression of emotional and physical need. And how then the self protection behavior felt safe but destroys the moment in the closest relationship, separating self then from everyone itself needs from. Use those to movies the secret and revolver, in that moment to see who identified with either of the two persona's of their human being

Explain the self talk generated from feeling rejected in the conclusion in the unconfirmed assumptions the child makes of itself without all the information because children in that moment isn't given all the knowledge of truth concerning its rebirthing element of its spiritual children. And concludes in low self worth- explaining the darkened emotional self from its ego, hijacking the truth element and the first wisdoms energy and applies that hacking onto the internal emotional structure of the self talk, of the child.

Then ask group to isolate that negative self talk to then erase it, erasing the harm it can do to the person-this is a difficult thing to develop group mentality as a path to follow so the coach is instructed to tell the group “we will begin now to catch ourselves in our negative talk” and its negative self talk generation working from a thin sliver of the truths totality, in knowing the moment. When it is understood this negative self talk isn't going away by itself –the coach shows how the self healing meditation healed the pain that caused this generation of emotional death, reinforced by the negative emotional energy generation from the second wisdoms amplifying effect, causing the amplified fear to feel in heart. To then see its pictures of unresolved memory to re ignite the unresolved emotional traumas

we feel in our early childhood programming, in the potential fear of loss, to then react to that in the moment in the lowered self worth fueling nothing of life anymore because the self had been emotionally deadened. For which isn't the fault of anyone because there truly is the second pedophilic nature of the second wisdom pedophilizing your heart since early childhood. This is basically learning the art of reframing the same knowing, but in the totality of truth of the self and not just seeing the exploitable parts of its inner self. But is the reasonability of everyone to realign and take back what had been stolen from us, and if you don't then you remain an infection element god does not want to infect his spiritual realm with, "make sense" ? Is this negative self talk generating negative emotional energies for the self of the child to process- maintaining its emotional death element to think from, looking at those things as a part of its self now. Saying to itself the negative things about itself that depletes the normal levels of self worth, leaving the self of the child to program itself of its own "lowered" self worth level. Learning a multitude in self protection behaviors that do nothing but create then in auto result the conflict we experience in our relationship dynamic, with even our closest and most trusting people in our lives. Because we began our emotional programming with uneducated and dualistic parents who brought us all through the rejection model, creating these effects of not trusting in the self and not to believe in the self anymore. Accepting the self is natural to do as a child, who we learn to self reject from our parent's rejection of our self expressions, programming the heart to never believe and trust in itself ever again. And from the environment who needs us spiritually deadened to profit from how they see the body "as a hunger machine" is allowed to be exploited in us through on t.v programming of the emotional heart and the corporation, and the corporation of Canada because a deadened heart is so much easier to control. And "an emptied heart" is easy to feed it with the physical elements that make so much money from the deadened emotional state created by those profitable substances that distract self from our unknowing of self, and its incompleteness as the result- and who fully understands our hunger element better than we do. Who the ones dealing the deadliest addictive substance out there needs you and me to remain in our fears so we do not catch onto how they...among other evil things -deal dope {alcohol-weed-pharmacy drugs-gambling-smoking} to profit

from emotional death, leaving self and all others to be injured, crippled or burned alive in car wrecks, leaving the rest of us to feel loss and grief in its misery and loneliness.

Objective Enquiry/Skill Practice.

Turns to expert sources – which could be from outside the group, and/or the coach, and/or the students themselves – to develop a detailed "how to" of the skill(s) to be learned and the opportunity to practice the new skill(s) within the safe confines of the group;

The self actualization meditations.

4. Skill Application

the first meditation is the healing mediation so begin this one at the start of each group with this one and end the day with this one instructing the class to do so daily until the self is revealed to self again. And then slowly introduce the other ones that build spiritual and emotional strength that enables the self to experience new things and not have those emotional responses be transferred through the emotional filtering methods of turning the self into calculating hearts thought through the second wisdom, leaving the first. Use this one though for 3 weeks to a month at the beginning of each group and at the end of reach group.

5. Evaluation

Involves a de-briefing of the lesson with the group, assisting students to identify skills they have mastered and those that need continued improvement. This phase gives the coach much information about how to proceed with guiding the group and individual learners. THOSE WHO BEGIN THEIR DAY WITH A GLOW YOU haven't seen is attributed to the meditation and the skills and awareness's you are learning. Where the second wisdom of self defeat and its self destruction just seems to evaporate into a nothingness that can't be found again, and even if you do find it you won't want it. But also explain that is does try its re establishment through negative self talk and future anger. Skill practice; the self healing meditation but explain that all things learned here translates itself to the

emotional and its spiritual transformations, its not and can never be just one element of this re programming training that will heal self completely.

{reprogramming reaction to never fall victim to unresolved anger again because this in itself is the death trap.

The self then feels imprisoned emotionally when not understanding self in how we react to two opposite and apposing wisdoms speaking opposite things of the same emotional truth, of the living higher self. it is the return to what is natural that will not only sustain the student throughout its life, but complete the self emotionally in the moment for every moment after that to feel whole complete and content left needing almost nothing anymore except to share the inner most with others with confidence. Who then this self graduates from the kindergarten heart the rejection model of being parented left us to consume from the physical environment by those who exploit -exploits in all of us in our children who grow with that programming to become us, the adult self with two opposite and opposing wisdoms of the same emotional truth of the natural self. Waiting to die from addiction either by the disease itself infecting a person, or one this infected person kills in its actions of abbreviated consciousness that then does not belong to its own human will because alcohol has that strength, to dismiss consciousness from view. As do all other psycho active substances to take consciousness away or which people accept but then blame the victim when its alcohol. And then the people buy it! it can only be then the brilliant drug dealer convincing its junkies that it is their fault and not the fault of the drug dealer for acquiring the disease element of addiction. Which the community as a whole then blames the drunk for while even world health screaming at all of us of this deadly disease outbreak, but instead of reacting in the same way we do every other life threatening disease, we keep blaming ourselves. It is what I mean by opposite and apposing wisdoms doing now damage to self through the efforts of the possession element of human spirit. To make argument with each other without the ability to conclude in in the mind with its cognitive dissidence which is disease of the mind learned in childhood that enables the hunger machine addiction element as the adult.

.

The self healing meditation.

Explain to the group this will help you heal emotionally and help you to become naturally the “acknowledgement model of being a parent” when in that moment, and who all must become this acknowledgement model of becoming a parent in order then to understand different elements of the same training that arrives at this place in your balanced determined selves.

Imagine after total relaxation that your walking down the most beautiful path filed with green trees, favorite kind and flowers with the fragrances of flowers allow self to smell those flowers in your imagined thought utilizing memory of those things in doing so....your walking along feeling the weather in being not to hot and not to cold but being just right. In that the warm but cooling breeze allowed to be felt against your skin in the meditation is acknowledged in self and who self allows itself to feel that gentle breeze and its comfort level.

Your feeling a balanced joy in that moment allowing the feeling to envelop your heart through remembering how that truly felt when you experienced it {all people have, and the coach is instructed to help the student regain this memory if severely emotionally damaged, because that memory is there to be felt right now for specific purpose.} Allowing the feeling, which is the part of the meditation that reprograms self to remove its unresolved emotional pain. The student is directed to walk down this path having those feelings of calmness and achievement in their hearts in that moment. Your walking along and you notice a child in the distance sitting with its head down feeling sad and hurt about something. Look at the expression on its face and into its eyes of this hurting frightened child, and allow our empathy to feel what this child is feeling in that moment, which is easy to do. {allowing the feeling to be felt is the re programming element itself} easy to do because we know what pain feels like, feeling alone, sad and hurting, and no where to rest your head at that age, because it is rejection from the parent that caused this pain.

Then ask yourself what would you do to comfort that child? Do that in your imagined thought which is not fantasy at all but is created from memory of experience. When you apply this emotional comforting to the child in the meditation what then is the child feeling? tell the student to speak that out loud {when one on one} but told to the group to imagine it. {And look to see who is struggling with its emotional response to help strengthen that persons imagination}-when the child feels relieved to have “you” as the caring adult acknowledges the child emotionally, who the adult is instructed to say to that child after itself speaks the problem say, “that must be hard for you to experience and left alone to do so. So then I’ll stay with you and we can feel this moment together. If the child asks you “how do you feel my pain”? and you the adult explains to the child of its empathy that allows itself to feel the pain of the child. the self can say “I know how this feels” because I felt this same thing when I was a child so the child in the meditation will then feel trusting.

Ask “how does it feel for the child” to become comforted by the students intent to do so? And then tell the group to allow that feeling into their heart of what the child is feeling. Allowing the comforted feeling in your heart the same empathy- and then explain that in itself “is the reprogramming part” of the students heart and hearts thought processing the knowledge of self. When the feeling is allowed to be inside the heart of the meditator, then this begins to remove the pain by replacing it with the healing this meditation enables for the student. who I have yet to find one student who didn’t receive their freedom from this practice. The brain and the sub conscious and the heart itself does not care what is right or wrong, and does not care what is logic or truth –it only cares “what self believes” of those things-and will act based on intent of the belief. And not what is truth and sound logic of the same emotional experience, but what its host needs –or what the host desperately needs...The human will is the most powerful elemental this planet because it is still attached to the seeds enabling element of the life source, who comes into the physical human being through the electromagnetic pulse in the earth. Meaning those things of thought and thought process are programmable to suit the needs of the human will. When that human will is

without education, and with the second wisdom then that human will is still confused.

Truth speaks to us all in the silence of itself, contradicting the things emotional programming is speaking to our lower selves. In which to create self protection behaviors from, but all of it is in the fantasy element of the young child still reacting to their emotional programming in the negative emotional energies created by the second wisdom, and its dark feminine element "of fearing potential loss" controlling the heart of the first wisdom internally, in all people in today's world. So allowing the feeling to penetrate the heart of the self in this moment speaks something specific to the reprogramming department of heart thought processing knowledge. True or false the living computer does not care. But does "the human will" and will and will obey it-over what everything else suggests to itself. When this meditation is allowed to be felt in the heart of the self then replaces the old with the emotional acknowledgement between student and the imagined child. and actually does put itself inside hearts thought processing now this moment "of emotional healing" instead of being afraid and reacting in the same ways over and over again, LOOKING THEN TO THE ALCOHOL OR WEED YOUR government has in place for those who need emotional and spiritual care. And since this is not for the coach I myself trained to know reality of truth, then I will tell you this is how I train my coaches to help those students to digest what the truth is. In this case the truth is the truth and your government is a drug dealer amongst other evil things most people do not want anymore. And they will be shortly removed by what Enoch said- but dear god man "man the fuck up" and take away the drug dealing and do not allow the fag education in school. Any who does will not be returning to this planet but will go to school "to be schooled the hard way" on the prison planet, who you will be that student in that pedophilic school because you have then parents who either doesn't care, or is too afraid to defy the pedophilic teacher priest and government. So good luck to you if you sacrifice your children and hand them over to the priest like they did in the old days but in today's world is a pedophilic teacher and dirty cop still willing to kidnap Canadian children from their parents for not complying with the crown and their alien rules and laws and religious belief in sacrificing the child for their

god and god worship. The Talmud and its priests who relies on the judge and dirty cops willing to kidnap children like they is at the residential schools. But not in today's world since I myself went into court already and demanded they look at the pedophilia when they performed from their internal god worship with the second wisdom on me. And when they did I said "judge please stop pedophiling the spiritual children born in my heart and cognitive mind born between me and my first wisdom of god, and to please remove the second wisdom from him before speaking. Which didn't work to remove the fake trespassing charge because I was without a lawyer... who pedophiles everywhere look to exploit aloneness like that, don't they? but anyway, they gave me a seven day sentence for trespassing in my own home by the way...but I didn't get spoken to "at all" in my implemented application to expose the spiritual pedophile in court because kindergarten evil knows the power of the constitution and what it demands from spiritual pedophiles there. So go to court but refuse to cross the fake like that puts you on the fake water, and fake boat because this will be "you" then saying yes, go ahead pedophile our spiritual children and I'll look the other way. so the same pedophilic nature will meet the selfish need of the mother who allows the physical pedophile in the home to terrorize the children without now anyone to go to, with the mother compliant like that. Who it is no longer just one pedophilic nature raping and pedophiling but two, who the second one is the child's mother pedophiling her spiritual children first. And who you and I both believe any mother like that who allows its pedophilic husband to sexually abuse their children, to be re educated the hard way having it feel good then, for the survivor of this evil, and helping that emptied deadened soul to heal from the damage those two create for their victim. But who the human being now will see as punishment for doing wrong. Where as its not so much that-than it is educating you, to keep giving that mother and mothers like her another chance to see finally what their second wisdom is doing to them, and then to its children as the result. All government employees are this mothering element in allowing the spiritual pedophile into their arrangements with their boss. When your forced into the second wisdom worship, when the judge says cross the line putting you on water and boat...and then a new set of laws that are different from the land laws made by the same evil, but who spiritualists intercepted and created the constitution

for us to count on, and rely on. If you have the money for a lawyer -and if not, you rot out in jail hoping no mentally ill person who needs to be in the hospital but is put in jail because its so much more profitable for the jailer, and the few. Who make as much money of the inmate population of Canada as the Americans who make money openly there, off imprisoned flesh to punish the spiritual essence of the life source, attached to that flesh. Where itself may, or may not smash your head into cement while you sleep on the concrete floor, or gets pushed down the elevator shaft and things like that. We are threatened with tis extortion because we together refused the burning ritual -but is replaced by this evil that needs evil to begin, so someone might profit from your valuable hungry flesh.{wtf?} Who is the evil spirit influence behind the hacking and the emotional programming installed as operating program of behavior in hearts thought processing now spiritual death, to that physical mother. Fearing now something from the pedophilic father if she were to attempt to rescue her children from that evil. So in hearts thought of that fear she chooses selfishness of fearing "a greater fear" than the value she puts on her on children, you see? But it all began internally for that physical mother with the ego and spiritual influence of emotional death we all are infected with, and do the same exact thing to our own spiritual children that then follows the self of an otherwise good person, to be with the evil. Not wanting to but feeling safer to, and in that way all children are then put through the wringer when the tools and tool box from hell utilizes the formula of human will removal and proceeds then in killing off the hearts spiritual male of intent making from the emotinal knowledge in spiritual child born. Im telling right now if you let your children go to fag school to be taught the new candy store variety of sexualities and say nothing "that allows it", then you yourself will be accused by the real "spiritual judge" of spiritual children and what their intent making is, and what this decision does in it ripple effect to others yes? Or if you let them watch the pedophile machine knowing what you know of the intent made to be with only the second wisdom on its programming with the same spiritual pedophilic intent to attack and assault spiritual children. Where this thing makes an evil act feel like righteous truth in the heart of acknowledging human emotion in that kind of programing, leaving the heart to believe the evil is good, and the good itself to be evil...When the cop has to kill the perp who was

portrayed already as an evil being on the tv cop show. Igniting already the anger and underlying hostility for that person on tv the good cop protecting the community from. We then believe in heart to be a real person viewing him in the drama unfolding –while in alfa state the self then sees the good cop protecting the community while struggling with its own personal issues and in the emotional content producing empathy for that actor but with the audience in alfas state seeing as reality for a real cop...Generating even love felt in that moment knowing empathy in the first wisdom being used for evil –when that good cop faced with a split second decision chooses to kill the evil, evil bastard willing to hurt like that, as just witnessed emotionally “in alfa state” on the tv drama. The heart believes to then program self “as reality” in thinking you see? or plant evidence that will get the crook life in prison who the audience then applauds in a justice felt of genuine righteous anger being ignited in you, but is not a generated emotional response of a real encounter in the physical moment –its only on tv, but not a real reality- and therefore then not a real emotional knowing to believe in. But in alfa state you me an children who you and me use to be, being programed like this lour lives to believe what we believe today. Because evil discovered that in alfa state we believe the emotional content without the heart knowing real of fake, and this is being exploited to maintain the current system with now you believing in your hearts that the last way they have to burn us alive in the public square in front of all people in the community which is to threaten the horrificness of jail, is their last stronghold over the ret of us livng inour Canadian communities. Which I do not know which of the two manipulations is more powerful the fear of loss in hearts thought of burning alive, or the fear of loss in hearts thought of being wrongly accused- and worse than that being accused of a mistake or a disease related behavior caused by a symptom, and not intent to be evil. But tv told you along time ago that it’s the drunks fault. And in this way, and the only way a drug dealer can survive this long, dealing in its multiple substances for sale, is how “they”, convince us they are protection but their end result behavior is drug dealing and muscling extortion for the drug dealer. Who the monarchy gets the last money for every drug te canadina government sells their victims of a drug dealer. As they get the last money for all taxes including the rent you pay on the house you own who they say if you don’t pay us tax to live, then we take your

house from you and again "wtf"? i thought the fake Jews were limited to taking only the Palestinians homes away from them, killing them in the process of those who say no and stop. The one in love with the dark feminine element in themselves, working against us, the trusting... who love our spiritual mother. Helping us to birth and rebirth the spiritual children they, the evil in the monarchy, see as their desert, like a physical pedophile sees a child sexually-it is the same heart pounding lust I see in both of them, the physical pedophile and the fake jew in Hollywood and the monarchy and the Canadian government trying to hide the same evil as the American nazi behavior coming from there. ensuring nothing of the goodness in people is shown in our emotional programming without emotional manipulations of hunger machine creation in emotional transformation to see reality as fake, and fake as reality... and horrific shit that no one should ever be exposed to, let alone the raw and emotionally programmable living computer housing its human spirit in uniqueness, and the life source providing as explained, and loving that purity of innocence coming from the uniqueness itself is providing for. And listen carefully dirty cops and dirty judges everywhere.... if you quit evil now, and destroy your weapons {do not give them back but destroy them} then you will be forgiven in your commitment to make truth in your heart. And no longer what spiritual pedophile is counting on- in emotional exploitation in you... like the physical pedophile controls the same way emotionally the young child there is no difference in behavior and is a mirror reflection in identical behavior and formula of human will removal from you. You like every one else is seen by life herself, who god the masculine element respects..... as victim of that same being doing the same thing to her. In her heart first, in order then to access ours-{read Pistis Sophia.} who she too was convinced of the same pedophilic wisdom also but in different ways. But that happened solely for the purpose "to make work now" how itself access the electromagnetic pulse and becomes then secondary wisdom in all people and couldn't have worked to be our spiritual pedophile now, unless first defiling Sophia. So do not worry that he might not understand because perfect wisdom can't help but know and understand. She is back now with her husband and the two are enjoying their commitment to each other, and now its time we know how to do the same thing in ourselves as a masculine and feminine element that equals itself into a oneness

element again ok? Because no one wants to see anyone fgo and learn the hard way no one because it is not in the heart of the good to want to see someone else suffer in any way in which like my emotional life and all emotional lives I've lived id d so in great amounts of emotional pain to learn grow and evolve from and ill tell you, is hell to live through and a living hell to experience growing up. By bad parenting and an environment infiltrated by an alien being with evil in its heart smart enough to convince people he is a god. jut ask any one of us taking in this pain and suffering "voluntarily" as to learn grow and evolve the easy way, through our own hum will to do so, who most growing up in hell like that already made that arrangement with the holy spirit herself attached to the mother god, who is in our seed offering both of them to the inner self, of hearts thought of the inner self. How about you, what do you see in the light in your logic of your human truth- concerning the same thing both of us and all of humanity still suffer through with only one result, evil still in control using the same fear of horrific loss spoken into the heart of the personal self, of a community member being controlled by this evil. And in the loving but backwards parents thought from this "acting" they see on tv and the relate with the true reality that jail exists but if you have the money for the right lawyer you can be like O.J, so do as you please right...? But when now the pre programmed parent see's this happening to our children "in hearts forethought of this happening to the child the parent then helps significantly to "program" the child from its own truth element telling itself of what the truth in circumstance is emotionally but confused like that to obey evil as goodness and goodness as evil. Is what "developed" your understanding in perception of what is happening in a falsehood of its reality—who the fake jew running Hollywood making sure tv –programming goes in the correct form to produce the opposite in human will, and again, absolutely remarkable to pull off as a crime, and so incredibly evil to. But if I was you, I would worry "how it came into your community" in the first place, i mean how in your truth element was this allowed to get past the silent voice? That in each time we think of doing something in the calculated darkness of fearing, and need then of self protection behavior, and is about to act in darkness of a truth, do we reject that silence and feed the second wolf instead. Follow along in that fear knowing it is evil we are walking into, but not having the human will to do anything about it. {zombie

state, knowing to move around but no heart and no hearts thought processing truth- so self is dead inside being able to still move around, but not internally. Because almost nothing gets through to touch move and inspire you through that kind of world to live in daily... as seen on tv.} left thinking evil is good, and the good "useless" to care for today's reality, so then in its end result children and we ourselves say in silence "thank god" for the evil in cops, protecting us from the evil man hiding in the bushes. Oh my god...

The programming and its evil go so much further than just this, which I do not have the education to label what I detect in my hearts knowing of my movements communication to my inner self, spoken to me-in the same silence in you-you already communicate with but didn't know its language of specificity because the emotional filtering being exploited to remove human will for truth "of all things" but needing to target the emotional response itself. To achieve the stronghold on the self worth level because this evil counts on the puppeteering that comes from raising and lowering that self worth level "at its own leisure" when itself needs the human puppet to do for its own reasons and for its own agendas...you see? This world was shaped into its form today and took many people to pull that off. This is how this evil enters every one to assume them in human will in the exact same method of human will removal as the pedophile removes human will for truth from any child. And it's remarkably remarkable to see how effective spiritual pedophilia is on the entire world affectively yes? not just me and a few others who have experienced the emotional psycho drama coming from the adult in that sexual relationship of evil, but doing the same method of extracting from the heart of self its own human will for the truth. But a lot of you do and when you decide to get together and share each other's concerns then the lot of you will form your own Canadian government because the one leading you now is not only pedophilic and works from a disguised religion of the absolute in evil, who just as the drug dealer got away with "human will removal" as to did their belief in their god who is Satan to them-but they are being lied to, it's not the Anunaki anymore like it was before, it is a new alien race picking up where the Anunaki left off. And believe their god to be more powerful than the god of truth. And who love the things they get and feel when saying no

an stop to truth in them, to love very much the second wisdom of absolute payoff in money making of human misery an human flesh programed in the hungry and hungering element - and power over others who they love more than truth and life and holy spirit of trust.

There is a judge of who determines determination itself in our hearts thought of intent making. If that intent shines then you're ok. If not, then do your work to overcome what adult survivors of physical pedophiles healed in themselves {ourselves} already but not as efficiently as to completely erase the negative emotional energies flowing through the blood stream and into our hearts where as it turns out, the peptide is the masculine element in translation of the communication from that radio like transmitted signal we get in our intellect and logic, the two masculine elements of the human self. The cell then accepts that peptide in herself to be impregnated by the knowledge in the peptide which the bio computer holds its knowledge base in the living cell, of thought an thought process of its own. The sub conscious and the hearts thought both have thought process of their own so each one who all communicates with each other to keep the living computer alive to obey its every need drawing from a set of preprogramed knowledge and direction in the genetic code of the physical human. And all of it to ensure the spiritual self is housed properly in its living computer with the ability to do as its told by human will, and we show you how to tell it to dismiss the negative emotional energy and function in everything in thinking in the hearts thought of self, mirroring then a healthy reflection in self work in future thought of emotional self expression. In words describing the emotionally impactful truth, and living in spiritual light of the emotional truth of the balance determined self.

The rejection model of being parented and meditations.

1. The Stimulus for a lesson is often provided through group discussion, role play and brainstorming. It is intended to stimulate students in the cognitive, affective, and psychomotor domains in a fashion relevant to the lesson objective;

The rejection model of being parented and the hacking of the living computer.

Explain by role modeling the first few evaluations of how the student sees the other students strengths and weaknesses which that strength and weakness comes from the emotional knowledge of the self. Learning here the positive but truthful way of approaching someone you need from.

Who the coach or parent friend neighbour of trust -presents as a positive encounter using truth.. list the functional helpful careing behaviors the person has and uses, then say for the area the needs strengthening say all those good things from truth but then say "as a growing edge to focus on" to strengthen your growth though you might want to strengthen this _____ in your behavior to better align with the life source, and the first wisdom.

In new circumstance and when self is weak is because he or she had taken part in their self protection behavior acting from the selfishly determined or the pleasing determined self. Ask group when they understand the two wisdoms. Ask as conversation starter how the self destruction of self- begins in its infancy and unfolds eventually into the self destruction we see in each other. Explain how when in observation of our own emotional moment of experiencing the emotional impact from the experience, the second wisdom will come into say the negative things that want the human being to fail at the self expression. And become too afraid of speaking from the first thought of life. Censors the content of the wisdoms knowing in its communication with the self, communicated in the silence of the silent voice of the life source sourcing self with the emotional knowledge of itself, to learn grow and evolve from. But then the second wisdoms input is a reality in fantasy that controls the self and will continue to do so until the self of the student begins to reprogram the hearts thought of self. Explain to the class we are here to reprogram the emotional knowing of the self, erase

unresolved pain and redevelop the intent making dept. of the student to bring the natural level of self worth back. To then operate from, when in thought of self, and its own self expression need, and to in its and result restore the natural trust and belief in ones own self.

The intercept point of the second wisdom is then discussed

The intercept point of the second wisdom is always first the self worth intercept with ability to lower self worth to the needed level in order to control the hearts thought of the new host of the second wisdom-in the emotional moment. In is in hearts thought of self expression of the inner most emotional truth of the living higher self does the second wisdom come into the first wisdom to kill off its emotional spirit, and defeat human will from achieving first the inner emotional balance- and then defeats the relationship goal.

Ask group; why is self expression a need?

The clearing need "is the need" to understand the knowledge truth and the logic is describing to the self, and when the person understands, then the person moves forward-but only through the clarity of hearing yourself speak. But doesn't move on unless directed by a knowing, and that knowing comes from one of the two wisdoms knowledge they provide in the moment of the first ones birth and the second ones attempt at killing the spirit and spiritual nature of which in the emotional response is there for, but is intercepted before it has a chance to connect and become the spiritual oneness element with the human will of the inner self. This second's wisdom is introduced to do this specifically to the natural algorithm of the child's life source providing itself with the rebirthing element of this first wisdom.

And until the student begins its own personal development program, this self is still directed by fear and fearing potential loss of the second wisdom. We are human beings who needs to understand AND CONCLUDE our emotional moment in order to feel the contentment of the spiritual fullness, each of us seek. And who all of humanity seeks with or without admitting it, and some don't even know fullness is a need meeting spiritual element- that meets the emotional need

of the living human being {alive in its own hearts thought processing the emotional knowledge of itself} And when not cleared the second wisdom will take from you your first wisdom and turn into the angry persons wisdom. So the key in relinquishing the power of the second wisdom begins with the self expression, because it is from expression that understands, is birthed. And true knowing of self is developed internally to add to the knowledge base of the self, with the ability of the balanced determined self "maintaining" the trust and belief in the skilful higher self. But first what it takes to remove this infection wisdom from self, and have it then "serve us" instead of serving anger and evil, while destroying us. We can use this second wisdom for other reasons of detecting in others... "after healing" and achieving "the skillful" balanced determined self, trained in COMMUNICATION LIFE SKILLS as a means of pursuing the goal made.

Explain that when the emotional clearing isn't "presented" by the balanced determined self, is the cause of the students relationship dynamics with everyone he or she relates with. {positive or negative the relationship dynamic is inevitable}. And then is used by the second wisdom as a reason to remain alive in the self, through the emotional death we feel, and fuelling its method of operation through the self rejection of the truth the student does to itself now, when uneducated and unknowing. Because when rejected enough times, actually program's us "to reject ourselves" when at that early age and become accustom to the self rejection as part of the internal emotional dialog, causing the self destruction in ourselves and leaving us with little or no self worth to fuel the moments inspirational emotional moments in which goals are made. Leaving self with little or no fuel to internally to energize the moment of maintaining the goal in hearts thought of it, when we were constantly "eaten away at" from early childhood through the rejection model of being parented, and no one escapes this spiritual and its emotional death trap.

You middle class people are as spiritually drained as we are, the supper rich and the super poor, even though we all had different parents dishing out the same rejection model of parenting us as children. So in this way we are all the same emotionally in emotional death, and in zombie like character behavior left without the willingness to be the purity in our emotional structures as human

beings, where the first wisdom of the life source offering her wisdom in an energy in essence of her wisdom, to the feminine element of self accepts it and adds its wisdom to the understanding of the emotional experience in the now. Who as children we run to mom and da to express that happy joy or sadness or whatever but who rejects child. Why the child then begins to hear the egos voice that soon convinces child that lying is emotional safety and refusing to self express will keep the heart of the child safe emotionally and the second wisdom is successful then at installing itself as its wisdom. Taking the place of the first wisdom, and now with the second wisdom looking like a saviour to each of us in this vulnerable emotionally desperate moment at that raw and emotionally programmable age open and hurting terribly from feeling that rejection in the center of each heart that hears it in reaction to the child's self expression.

2. Evocation

Assists participants to describe their experiences in the stimulus and to share their knowledge about the lesson objective;

Ask the group to look into their own childhood and see when the child self expressed and what the reaction was. Very few will remember or be willing to become vulnerable so the coach will proceed with their own story in how the self was rejected, and how that rejection effected the ability to self express naturally anymore. Which is the subject of study and there is no need to do a therapy session which makes sense because no one here is qualified to do such a thing.

But what we can do is share the knowledge base with each other, and there's nothing wrong with that. Except for dirty cops and dirty judges who have no respect for the constitution, and constitutional law or the person it is protecting... from the dirty cops and dirty judges wtf? who that document is their boss!

And most will just assume what they experienced in rejections trauma is the norm, and always then "my fault". As the internal self talk that completely kills off the emotional connection in self with the life source, and now the emotional structure in that self is now the property of the evil spirit influence, when not fully

educated and the human will becomes the property then of the second wisdoms intent making.

Explain the self talk generated from feeling rejected in the conclusion in the unconfirmed assumptions the child makes of itself, and concludes in low self worth-explain the self talk of the child and how it enables the maintaining of the emotional darkness- or can maintain the emotional light, when educated. Then ask group to isolate that negative self talk, not to focus on it. But become aware of it and ask them "is that something you want" in you as something to calculate the emotional moment with? When it is understood this negative self talk isn't going away by itself -the coach shows how the self healing meditation healed the pain that caused this generation of emotional death in generating the negative emotional energies kept alive in in the moment and every moment with the negative self talk now substituting emotional life. It is this negative self talk generating negative emotional energies for the self of the child to process- looking at those things as a part of its self now. Saying to itself the negative things about itself that depletes the normal levels of self worth, leaving the self of the child to program itself of its own low self worth, learning then to not trust in the self and not to believe in the self anymore. Accepting the self is natural to do as a child, and we learn to self reject from our parents rejection of our self expressions, programming the heart to never believe and trust in itself ever again. And from the environment who needs us emotionally deadened to profit from how they see the body as a hunger machine, which is allowed to be exploited in us through t.v programming of the emotional heart. Because a deadened heart is so much easier to control, who the ones dealing the deadliest addictive substance out there, needs you and me to remain in our fears so we do not catch onto how they deal dope and the deadliest dope out there in alcohol to profit from death misery and loneliness. Otherwise no one would reach for drink or a smoke or a joint or a pill or a one armed bandit or your gentiles to keep you good and remaining in that happy joy we created for you, and how could you...you bastard...

Objective Enquiry/Skill Practice.

Turns to expert sources – which could be from outside the group, and/or the coach, and/or the students themselves – to develop a detailed "how to" of the skill(s) to be learned and the opportunity to practice the new skill(s) within the safe confines of the group;

The self actualization meditations.

4. Skill Application

Involves applying the new skill(s) to an out-of-group situation;

The first meditation is the healing mediation so begin this one at the start of each group for breakfast lunch and dinner in those time periods for three weeks to a month before moving onto the other meditations –of spiritual and emotional freedom. And then slowly introduce the other ones that build spiritual and emotional strength that enables the self to experience new things and not have those emotional responses be transferred through the emotional filtering methods of turning the self into the second wisdom, leaving the first. This was the adultery claim in the bible, showing those who were “whoreing themselves” back then, how to realign.

5. Evaluation

Involves a de-briefing of the lesson with the group, assisting students to identify skills they have mastered and those that need continued improvement. This phase gives the coach much information about how to proceed with guiding the group and individual learners.

the meditation and the skills and awareness's you are learning will help the student maintain its natural trust and natural belief in itself using the communication skillset of the balanced determined self but does so with a clear heart without any unresolved pain there anymore after mastering intent in the

meditation which is easy to do. Where the second wisdom just seems to evaporate into a nothingness that can't be found again, and even if you do find it you won't want it. But also explain that it does try its re-establishment through negative self talk and future anger and future sexual intent, where all kinds of lies happen, yes?. Explain then the class's objective now is to catch onto the negative self talk generating negative emotional energies and to practice the meditation until perfect at it.

When finished with this "emotional re-programming" of the hearts thought process of the living, higher self" and you don't call this "the real fountain of youth" then I failed in my explanations and I owe you a billion dollars. Self must find a way to relax to the point of almost falling asleep but active in the mind and hearts thought of the meditation. There are many things on you tube for this.

Finding a lost child meditation

First take three deep breaths, block all things out of your thought and heart except something left to focus on that calms you like a child's innocence, or something from your child's innocence. See yourself in the ideal balanced determined self and allow the emotional content of this success. See yourself walking along a path by yourself and you come across a child, lonely sad and depressed and hurting. Look at his child not as parents but as an empathy driven human being who cares for this child, because it is easy for you to identify with and acknowledge the emotions of loneliness and sadness and depression from your own early childhood moments. See yourself ask the appropriate questions like "how are you feeling" and wait for the child's response; the child will react to your question to what is real unresolved emotion in itself. Pick the child up and comfort the child by taking care of its feelings. Say, that must be painful/tough/fearful/hard, to deal with for you, and continue to hold the child and rub its back in your imagined thought while at the same time say, "don't worry little one" I know how this feels. So we can stay together and feel that pain "together" until its gone ok? The child will whisper "ok" and then be silent for the time it takes to then feel "yourself" what the child is feeling. "Allow yourself to feel this comfort" {it is the reprogramming part that heals you} as if you were

the child being comforted” as the result of an adult giving a shit about you and loving you genuinely. The silence and the calmness in the child’s breathing is noted and its comfort factor realized and accepted and you both feel good about being together.

In a few seconds or minutes of visualizing and feeling this moment, distract the child to bring it into the now by tickling gently the child’s ribs or behind the knee..two favorite ticklish spots on children. After that return to the child’s facial expression and ask again how this child feels. When you see in your thought the child smiling then look into the heart of this and allow the self to feel as the child feels, and allow the self to feel as the adult does nurturing the young child. Allow all emotions that feel contentment of the nurturing in your own heart and imagine how this must feel for the child finally being loved like this... hold the child in a loving embrace like you haven’t seen each other for a while.....the student learns the basics here but encourage the students to take this meditation further into imagined thought to play with the child for a while afterward. Allowing the emotional responses in reaction to them, will “reprogram the heart” from the low self worth into “not” a higher self worth, but a clearing of that which destroyed self worth. Starting now fresh, but with the knowledge of empathies understanding that never leaves the person to include now finally for yourself in those meditations. The person is to bring about a new higher self worth, to develop the higher self from the lower self dominance by creating brand new emotional experiences for the self to experience, but the realigned emotional self will create those experiences without the dark and deadened emotional unresolved crap left behind.

To know self is to know how the self will be with, and accept, and react to the new experiences. It is the emotional infections of emotional darkness that made you think in crappy ways. And none of it is your fault and he knows it, and this is why no one is to be punished except for those who need punishment as part of their evolving, but all the aliens doing this to us are to be punished. Because after so many years of being in this emotional programming of a hateful god, and revengeful god, and immature, incomplete and jealous and desperate god- the inner spiritual self is doubtful and no kidding right?

We cant take "the new" of the newness and expect that to be all or be the cure for the emotional disease resulting in our spiritual disease. Brand new emotional experiences are needed "as the new self" to maintain what is found.

Reprogramming the heart is easy and incredibly effective considering the amount of time and energy needed for such a thing that seemed once impossible to accomplish. Now is easy to do, and takes only minutes a day- and self should not ever stop doing this. It is real when I say how effective and easy It is to remove from the center of sight, "self" from the unresolved pain and fear. And when you get better and believe and trust in yourself again, and begin to believe you are cured because you feel good, then lower self-influence will find a way back, to seep into your hearts thought process, "becoming infection quality again"!-its "hearts thought" and its "hearts thought process" is the intercept point to infiltrate thought of belief and trust in self...so always be aware to be aware of the second wisdom communication that needs justification to remain alive, in the self who justifies "allowing the lower self" and is like pressing the enter button on the laptop. Once entered, the other electromagnetic pulse is given access. But once realigned, the higher self controls the enter button, and no lower self will enter you again, and then you will have earned something you have to discover in your own understanding of your own human uniqueness. The old programming is without the power it once had because now self is informed and its pain is close to being erased. Maintaining this meditation practice is maintaining "the emotional self" at the same time but not enough effort will return lower self dominance to infect heart and corrupt the mind again, like no effort was ever exerted in the first place. When strength is developed however, eliminates the access of the interception point "harmful intent of lower self" uses to enter the hearts thought of the human self-it eliminates first thoughts living happy joy and truth element herself in spirit to deaden and then darken the emotional self knowing the emotional self translates itself into the spiritual self "the influence itself" that directs the hearts thought process of the self. Who births spiritual children who are representations of the emotional response and the reaction to it in cognitive thought, remaining emotional turns into the dark feminine element offering then knowledge of the lie and emotional self protection first, and then begins to suggest the things that might distract you from your hurting.

Can help in two ways. First, can identify and help self visualize its own "rebirthing element of the god self" inside and help to program proper methods of parenting, taking care of the emotional content in the self and at the same time, and recognize the same need in current or future children. In meeting ones own physical and emotional needs is needed a decision making process that enables this end result of inner fullness, that meets on its own the emotional needs of the self- achieving then the peace and rest as the automatic result- the body is its own consciousness obeying its own god, the masculine element of the emotional self.... or, "the human will of the emotional self" and will do and program anything "the programmer" WANTS TO PROGRAM IT WITH.

The Darwinian death walk humanity is put on, who some make enough money to get their needs met, the rest of us earn them their money and we are left without our needs met. While in disparity of lacking and depravity in meeting physical need, is the operational programming of your decision making process now. where lower self and influence itself breeds and reproduces its dark self destructive spirit and spiritual nature in all people- and all people are being with the darkness but thinking that what is- isn't, and what isn't "is"..., and projecting this spirit into and onto this earth, instead of what is in their hearts "genuine intent" to become the same goodness we feel very deeply. But surviving like this which is a fake rule they, the ones who love their second wisdom god worship of receiving the evil knowledge of the lie, lied to us. It is not survival of the fittest this just gave themselves permission to act like animals when wanting to make money. But don't worry when all their money and property is taken from them and given back to the people they stole it from, then we all can give them all a crooked wave goodbye while laughing at them because their education is to survive as the ones here they enabled to survive the same way.

Bridegroom/emotional and cognitive realignment meditation;

First take three deep breaths, block all things out of your thought and heart except for the masculine element of the self, and the feminine element in the self -seen as a male and female in physical human form in the meditation- in love with each other, and who trusts each other. If you are male then from your cognitive mind visualize your feminine element as a woman in love with you, and you with her. If female, do the opposite where you are the wife and your husband, is your own masculine thought of your emotional self- "is your husband". If you have a hard time doing this then use a heart felt visualization as yourself as one of these, and for your other half, use your ideal person of someone you loved once, or still loves. Who didn't cause damage in any way- if the person caused emotional damage then find another visualization in your own ideal of this "hearts thought". Imagine you trust each other without question and have already learned to accept this, and are in love with this one aspect of trust in this relationship as much as you are the woman/man you are visualizing-this is your ideal woman/man/person to be with, and love with, and trust with, and "truth with". See yourself walking along a path in the beautiful nature of this planet {what's left of it} and imagine then you are communicating fluently "with honesty" where there is no threat of rejection in any way, only consideration of the inner most emotional spiritual selves of each other, and you trust the moment like nothing can penetrate it. We have all experienced moments like this at some time in our lives so finding the right thought and emotional feeling isn't hard. Your selves holding hands and in love with each other walking down that path and you come across a child that seems lonely sad and depressed. The masculine element/father figure to the child, asks child questions like how are you feeling, you look like your sad and wait for the child to responds...in thought, the child will react to your question -allow this..

And you then imagine picking the child up and holding the child with purpose to comfort the child, while at the same time you notice your wife noticing you the father figure part of you and the caring love inside of you and who she feels deeper and deeper in love with you as the result of seeing deep into the center of your heart like that, and allow "that feeling" of beauty and of feeling loved like

that. You then put the child into the loving arms of your female, to hold and be held by the mother figure she is to child, and imagine the female doing that female thing that brings comfort to everyone in the midst of horrific-ness, when nurturing a child. Be with that emotional comfort feeling it yourself for a while – and knowing this is the right female for you and feeling that sense of the absolute in safety with her. End of the mediation but tell the class it is important to attach a face of your inner self opposite influence, do you understand? who can be anyone who is a stranger you saw in a picture somewhere “that feels right”, and be with this same person each time you go under like that, to communicate in spiritual language with not only self, but life source to.

Imagine then tickling the child to distract child for a little. While from the comfort “you are” to that “hearts thought” and to bring child into the moment with mother and father parental figures your masculine and feminine element’s are to this child. Declare this to the child’s eyes, which are connected to its ears, and ears connected to its heart, “the ears of hearts thought acknowledgement,” - declare that you found the original parents of this child to be “unfit” and “uncaring” and it is you and your wife who are to become the new parents of this child –{this new dad is stronger than anyone’s dad and can protect all three of you.}Take ownership of fatherhood! With the intent to continue to nurture and enable growth, and evolved spirit in future meditations to keep the rebellious child {self} accountable for any misbehaving’s you see in the meditations, they will show themselves and allow this. Be mad! And for pissing the father off your punishment is tickling. To then take the child and say look what you did, is that from the first wisdom in you or the second wisdom ? Wait for the child to respond as a child does responds like this when feeling safe with guilt, and an innocence. we try to hide our reaction from the child in that moment of discipline “but don’t hide it” if it happens laugh with the child. But declare to this child that from now on when the kid makes you happy, then you will tickle it to make the child “as happy” as the child makes the parent! And declare then, “MAKE DECELERATION OUT LOUD in hearts thought of this” that when child pisses you off, then you will do the same thing, “tickle it” and say when you piss me off, then this is what I will do to punish you! Ha! This works in real life! children “become open to hearing

you and your prenatal needs over the child's well being" when you do not inflict physical pain which is another form of torture and extortion that says "if you don't do this, then this bad thing will happen to you...injecting fear into their hearts "of acknowledgments needs" in them, when they self express their inner emotional truths in any way. In which only rejection of self expression opens the door to the influence that influences lower self, "hearts thought process". Processing the things of emotional escape and no longer the emotional accountability that enables higher self in hearts thought process . When we threaten children, they become self protective and lower self then is its parent, "enabling lower self in child", soon to dominate the natural higher self the child is born as.- and this is how yours and my own "lower self dominance" was established and "invited in". But maintaining things of emotional escapism programming, is not the self first, it is the influence providing the thought of the emotional kill, and the self following. But it is the cunning deceit of emotional manipulation first, internal, performed by the emotional leverage holder over the child's hearts thought process. Where fake trust is earned from the lie and liar internally. Just in case you didn't know.

Anger is real and on purpose but if we don't complete the pain that causes the anger, in the moment of anger, then is an infection in hearts thought process will take you like an evil man takes a woman in other ways-it will rape your self worth. If the masculine element isn't directing the feminine element, the rebirthing element of the human being, then what ever influences the lower self dominance controls the hearts thought process and takes it from truth, and from the spirit of truth, which is trust, the only elemental spirit that connects people together and no other spiritual element has this power. But evil steals that from us to, it replaces emotional truth with the lie or disguise or falsehood who self believes and trusts in. The cunning deceit of emotional manipulations of human trust, in early childhood –committed against each of us by whatever fuels and enables the lower self "hearts thought process" of truths opposite, internally. Some say is the devil/Satan/dragon/viper but who we label as its behavioral trait, which is the same deceit manipulation tools- and formula of human will removal used by physical pedophiles on children. So now we label this monstrous beast of an evil

being, as the spiritual pedophile, because that's what its intent is. To destabilize the norm, severe emotional bonding with truth and the emotional first wisdom and lower self worth to be worked as now "a fearful puppet", and no longer a living higher, natural god self we are born as in duplication of our parents, who are gods "in the god head" for the entirety of the universe, and they know it. These moments of meditations will take on a life of its own, which is not living in fantasy but taking the few minutes a day to imagine this and accept the emotional responses are real "because they are real" when you feel them. Which then inevitably, and without permission or even rejection of emotional confrontation "will reprogram the heart" from the old into the clearing of the "right now", to compliment the new programming in your thought process of what your hearts thought is. The subconscious and the cell do not know the difference from imagined thought, and reality of thoughts consideration in the now, considering the new experience-and will follow the direction of its god the human will of the inner self, which is in realm time.

it is emotionally focused to reprogram belief and trust of the self again while allowing knowledge of our own daughter element and our own "son" element, who self begins to "like" in yourself again-like it was naturally at birth until around the age of five or so. Each one of us experiences this separation, division and conquering of our emotional selves, but it is up to the self to develop self back into a hearts thought process that won't infect the realm you want your spirit to end up in when your living computer is no longer alive, holding the spirit of self, in itself. The lower self influence works this as leverage in the child establishing slowly... the hearts thought that says the lie is the emotional safety in early childhood. Who from there, the self lies to self protect and learns along the way to refine the skills of the lower self dominance, not realizing the safety need met has a cost, of emptying the emotional need meeting fullness we are born with. And for many of us, seek then the physical distraction quality of the environment, to distract self from the unresolved emotional self without the ability "before now" to resolve anything. Enabling then physical addiction to the favorite escape self has found to rely on as escape tool, of emotional distraction of spiritual longing, and emptiness. And because the cells in the body are

programmable emotionally-to contain the emotional memory in vivid image of heart felt thought of the experiential moment, but the self in its human will must take the emotional programming away from the thief who stole your happy joy from you, and took everything that comes for the then happy joyful person. The secondary influence programs the body to feel fear of the emotional self. The point is, we can use this and it is proven method of achieving abundance in wealth and material but more than this, these meditation in self healing reprograms the heart of trust and belief in self, back to the original hearts thought programming of life, and living inside the knowledge of the emotional truth of the self. Who the second wisdom targets for separation so itself can install its wisdom as continuous emotional programming in low self worth and its self defeat each time we make goal from the first male spiritual child "of intent made" in the heart felt self.

It changes the old into the new, and the old then isn't forgotten but moved out of the way for the new programming to implant itself in the heart of the self, and change the level of self worth back to the original "out of box condition" {laptop} we are born as. The experiences knowing doesn't disappear, but the pain is detached and most of it healed, and no longer contributing to hearts thought process any more, "and that is the goal scored" for the spiritual human being people! Your centeredness and completion and fullness and contentment wait for you, where and when memory no longer acts as emotional filter, interfering in the new experience in the now.

The old then is used as a knowledge base and tool of empathy and as a self protection method of knowing and dealing with those, in a functional way, without bad intent making that generate negative emotional energy to be left unresolved. How to deal with the other persons emotional duality of higher and lower self in themselves.....because soon you will realize that what is within the other person, must come out and the best way to understand the other persons darkness, is to understand it in self, and help people with it in themselves. We live in a place where we didn't have to do evil, to destroy the evil... which does nothing in destroying anything except the light. We live in a place where if the people were strong enough, they could simply "vote out" evil, and replace it with

the newness in themselves, and decide from consensus and problem solving skill, and from the first wisdom -instead of what evil influence, is decided from now.

Success meditation;

First relax

We all have had times when all things seemed to have been put together in a way where the self has every need met there was, and had been successful in achieving the goal set forth. This made the self feel good, confident and like low self worth and zero trust and belief in the self "never existed". But soon doubt seeped back into infect the heart and self, and self forgets quickly those positive emotional things that create confidence and self-worth naturally. The point is to recall this emotional memory and keep it as hearts thought focus, for the meditation to be successful. This is "inspiration fuel building" when in the moment "hope leaves the person" when it becomes the self, without hope, because hope isn't a permanent feeling. -only her memory {truth births hope as well}... to carry through in the hearts thought of what hope itself spoke to self, in that moment of silence that inspired you to act.

Lust fuel fuels the person to act in the opposite of what hope says to act on, coming from the other wisdom, the dark one that calculates hearts thought of instant gratification addition, in desperation to whatever. Which female does your masculine thought "calculate hearts thought with" to formulate behavior with? That will act out or exact, the hearts thought into the physical reality? Projecting then the spirit and spiritual nature of the calculated hearts thought with one of the two wisdoms, because there is outside spiritual force in opposite and equal reaction to truth and trust... but in opposite of each other's influence. Your higher self "you are born with" and is yours forever if you want it, more than what instant gratification offers you "in the moment". And is gone quickly filling nothing but simply distracting you from emptiness that has been there since early childhood "emotional conversion".

Take your deep breaths and imagine now in something that you want to achieve as a goal of spiritual self, Imagine walking through the steps it will take to achieve

the goal and imagine yourself achieving the goal, and then completing the goal in a happy joyful heart! Now allow yourself to feel "confident filled" with self worth and the lively, "living" emotionally content, being totally positive when in your memory "remembers this from the past" and APPLY THE FEELING to the visualization of the goal wanted but has succeeded in achieving and self feels that achievement in an ownership of the reward of the goal emotionally and physically.

The reprogramming element is the aspiration from the inspiration that resulted in the masculine element or the male child of intent made, you feel when successful at something important to you, in memory of it, and have succeeded in accomplishing! If the self cannot find the positive emotions in this moment from something recent, simply remember how it felt when this really happened and unexpectedly happened, resulting in positive emotional responses in reaction to them. Take this memory and attach it to the visualized meditation in the now of what you want to accomplish but haven't yet. To imagine the goal as succeeding, to then allow for the positive emotional responses and react to them in the real" in imagined reaction to them....of the goals success! "is the reprogramming"! Meaning, allow for the feelings themselves because they do ignite as if the imagined thought is real... the brain the cells in the body and the subconscious do not know the difference between imagined thought, and reality. And if we know this as being accurate- then this is how we reprogram what seems unprogrammable. The way self feels in the now, without effort to make changes, doesn't seem possible that old unresolved pain and fear can be removed as easy as I say it is. There is no commitment in changing hearts programming other than the few minutes a day to do these meditations, and the same is true in how to maintain the hearts new and positive programming in the few simple communication skills needed.....Jesus was never religion but came to warn us that there is a pedophilic entity disguising itself as god and has found a way to hack the living computer and become wisdom in opposite of life's first wisdom, of the emotional self, and of the emotional selves of others.

its maintaining the human will that will still be the challenge because the memory of the old reaction system of emotional death will still be there, but without the impact of the dark wisdom, and pain attached to the unresolved hearts thought of the self, in emotional state.

but only for the first little while and then tis evil and it dr feminine element of spiritual death of the spiritual birth of the first wisdom, will be disconnected. And the heart of self, who will separate itself, from separation itself, and will divide into tow meaningless pieces division itself, when after masculinizing the feminine element of the inner self, to give birth then to new daughters of emotional happy joy!

Who needs guidance and who then the masculine element births the son of the two parents the masculine and feminine elements internally of this heart felt thought of self, who reflects its worth back to itself- in hearts thought of self expression. Each time before expressing and will do so now without interference from self doubt, the mother of all evil about to come out of the person who doubts their emotional selves.

And new spiritual sons/masculinized emotional self reacting to emotional response, with intent to achieve something for itself with intent made to share that worthiness with the entire world in ripple effect of the first thought and action when communicating with now with someone else.

Meditations like these will automatically change hearts programming-really! And you will see how this works on your own if the human will for personal development is applied. But maintaining the new programing in the heart of self that now sees self in the positive light, and feels that way to, needs to be maintained daily or we lose the new sight, and return to the old. –it is how evil works to trick us into believing the fantasy is reality, and that pain is irresolvable. It needs this from the human being because then it can exploit the unknowing self and lead self onto a path making of its own, and not from the willingness coming from any part of the heart felt self. Which is from only one result, of not dealing

with the unresolved emotional self, in what is left unresolved from early childhood emotional programming, the programming specifically that describes self worth to self, which is felt emotionally. Its need is to turn "emotional programming" from self expression spiritual machine of the balanced determined self, which we are born as- into the hunger machine of instant gratification need, is what everyone is turned into in today's world with a pedophile machine in everyone's living room. Because when it can do this, means it is its own influence, and no longer truth birthing elements that enables the rebirthing element in human self-this evil does what it does "to enable itself" with our rebirthing element, to them is the gold that gets the gold, in physical form. But to us is like the god of truth and the first wisdom of life in rebirthing element who he found us all worthy enough to have till now, the nearing of the end of the seeds loan, in which will be recalled.

You and me and everyone who is still here and still confused, are those ones who have "held out" till now, where as may have graduated into grades one two and three in terms of their apprenticeship for either permanent residence in a family oriented heaven, or to earn a birthing element for yourself the choice is up to trust herself not god, who listens to her and who makes his own path making from.

And the self if the self thinks itself is willing to proceed into a godship for itself, then you can make attempt but is a very difficult thing to pull off not that I know this or anything else I'm beeking off about. I hear it then write it then follow its lead and we both are waiting for him to return in between 2021 and 2023. Because we are, believe it or not- the lost infected and the sickest ones to result from the original decision to remove himself from his own wisdom of his own rebirthing element, who is the Omni present gods son-who birthed a son, our father of spiritual children. And when god said to have mercy on the entirety of the secondary human being born from the seed and not physically as the Anunaki convinced themselves they are our father because they made the living computer but without the seed and where and what its from, no life "would begin us" in spiritual thought in the spiritual mind. Which the brain is only a conduit to receive spirit and distribute its energy as according to its specs.. as the first wisdoms

knowing and rebirthing element in result- we get from her. This is recognized from the secret saying that said that if spirit came into being because of the body, then it is a marvel of marvels. That is the recognition of a commitment made by a familial god protecting his children.... I say "his" but I want to say mother and father god, TO HEAR IT IN MY HEART of emotional acknowledgement of truth there.

Waiting to be acknowledged by the human will in the soul of this human being because it feels real nice to have a mother and father god. But writing it from that silent voice we speak back and forth to like this is almost the same thing so writing things instead of saying them is ok for a little while. Until you get strong enough emotionally and sure there is a time thing involved but I think that its only a wake up call to then be motivated to be focused and at the ready to be with truth because after that is separation time.

those behind the moon now will be taking the ungodly and the wicked and the evil ones away from here. Who only the aliens to this earth claiming to be god and humans are to be punished in humiliating ways because the is the focus of their language first of all, and second, is to see them squirm into a begging intent, which will be nice to witness soon !-we all get this satisfaction of seeing the real spiritual pedophiles committed to evil in themselves first, be destroyed as a power they have on us now -and then the punishment for what they did to his children. As for the humans though who follow its lead, I wonder honestly what prison planet will be like because all I know of is physical prison is the horribleness/evil/wickedness of jail on earth.

Self forgiveness meditation;

Imagine yourself lying down and are comfortable, peaceful relaxed and carefree just like you get right before falling asleep. Imagine then your lower self immerging out of you, in spirit and rising just a little above you. About three to four feet. So you two, the higher and the lower self can see each other AND ITS OK IF HE/SHE CANT LOOK YOUR HIGHER SELF IN THE EYE yet. Remember the embarrassing things you did and tell your lower self "I forgive you" and allow the lower self to react like a child would in need of care, and when the child gets it,

reveals “the real” behind the lower self, who is hurting and is suffering...and exploited. Hold this child because you know the pain is still there and look to acknowledge the emotional content, and when the child feels better visualize the adult back to normal and invite yourself back into yourself, wake up and smell what reality looks like when not feeling negative emotional energies all the time, it smells like water.

Not to fix it, because no one can fix unresolved hurting, pain and fear- and no one can change what we do with that in reaction to this state of spiritual death except the self. But we can heal ourselves through this method. You will erase your pain if you find the will to practice these meditations to their perfection of image and emotional feeling when you intervene like this, then the lower self “is healed” and completed and concluded in its masculinized feminine element, in that moment in which there is much infected spiritual death now.

Invite the lower self back in and say “don’t worry little one, I will take care of you and I will protect you”.

In this understanding in your meditations, think of you as the higher self and as the adult you are, there now as friend/father figure/best friend PROTECTOR.....to your early child lower self-intercepted spiritual self, as meditated child there to serve protect, and control misbehavior to. In those meditations are examined and felt in forethought and fore thinking –forethought is communication with the son of god in spiritual element, giving to us access to his energy of what his father gave to him in intellect, and who his feminine element named Sophia shares her energy of her wisdom for our masculine element of intellect you see? It is how gods are accountable for their children who they did adopt us, you know that right? Regardless of seed or no seed “it was their love for us” that decided mercy for even us, the last of the hold outs...

What you feel and what you see in those meditations is a good place to look to understand how they communicate life with us- and its speech pattern then can be learned. I’m learning the language of my silence, and you will yours because you will have erased pain and all the crap associated when acting on fear and unresolved pain, all that will be gone and not there to feel, and then consider...

Controlling fear/hurting/anger in the moment meditation-being your own savior.

In the moment and every morning imagine self as the child frightened in a social setting. You as the adult higher self -takes the frightened child/self into your arms and comfort your child as if it was your child, and it is, in spiritual form who needs a dad and or a mom in the spiritual moment! When in the moment of holding child with intent to comfort and love this child, know to say to this frightened child that all will be ok and we can both feel this fear together and then the dad will protect the male child of intent and path making who the daughter element is encouraging through an inspiration from her, to act on the hope and promise of meeting the emotional need in the now, between the inner self and someone else's inner self. Who birthed the daughter element of emotional inspiration from that other person in some way, which doesn't have to be romantic, just inspirational. Continue on to say to that child that - you will protect it from anything dangerous. And speak to this child in the moment of fearing that this child is loved beyond comparison and no one could possibly love this child more than you, and allow your emotional responses in reaction to them you would expect a child to react to because they will show themselves. This one maintains self to think through to an end result without unresolved pain fear hate and anger acting as the disruption distortion tools of unresolved emotional filter - all in the now, with all that was with the early child.... Be aware always for his spiritual penetration of thrust In regard to the interception ability of which who isn't gone, but sleeping... because look whose lurking in the tall grass waiting for the moment of emotional weakness to inject his dark feminine into your sacred feminine element of life birthing the inner most emotional truth of "your" living self.

In this meditation we take our lower selves and help to heal it as to find the courage of heart to proceed with the self expression of truth and need, instead of what evil wants us to do, and self reject that lower self, you see? But we do what god the Omni present god and his son did with his grandchild and help that child complete itself and earn its fatherhood to the children he himself birthed as god,

in power of doing such a thing. Regardless that he was without his masculine element when in a hearts thought of incompleteness of that masculine energy birthed the entire universe just to house the earth so one day his children can be born on earth and he can then be worshiped as a god, this was his plan in incompleteness. Who he had to manipulate the Anunaki into believing they were making slave for themselves to do the work for them because he blew the smoke up their butts and said yes you two are the two sons of god, so do this thing because your god. They bought it and we are the end result of cleaning that mess up, in the last of the hold outs where honestly god the one who graduated into his apprenticeship papers to, doesn't know what to do with those ones condemned for little while or, for the entirety of its life span in a time allotted to itself- the prison planet quarantining the ones who told truth to get lost!

Lesson 3

The Feedback Formula.

The feedback formula is a mechanical way of learning self expression in its genuine and truest form. The coach is instructed to not move forward until the entire class understands self expression is key in developing the understanding of self in an emotional depth of self, and to eventually establish the balanced determined self.

And to ensure the student knows its own algorithm "of reaction" to those fears and "created" potentials in fearing loss. Remembering that it isn't, and never can be the other persons fault for the way the self is feeling because first of all, the knowing of self is distorted because of the lower selves "stronghold" over the higher self in terms of feeling safe in terms of natural self expression.

Second, it isn't the persons persona that ignited the emotional response in the now, it is the behaviour itself but one infected with the spiritual sickness we all suffer from, that begins its self with the crippling of the human will to do such a thing as to be expressive of its inner self. and sure it does come from the persona of the other person, but not the complete or completeness parts of that person,

which makes up for the totality of that of self, who isn't gone but deadened to the point of its own lower self dominance. These are the circumstances for all people in our oneness element together in terms of recognition and validation purposes, of that continued oneness between our human kind in the natural higher self transformed into its duality of the higher and lower self, with each having the opposite persona.

Third "it is the reaction of self" that either will continue the conflict, or will look to resolve the conflict and even communicate the same emotional truth and its need for self expression in a different way, through the balanced determined self, never utilizing the selfish- or the pleasing determined self. Depending on what the self would do in its moment of wanting to get the hell out of there, or remaining to stay and communicate with the infected other. And if you remain then self either accepts this punishment and argues back with that infected unresolved person in lowered self-state, or chooses the higher self to communicate then in that moment back to that lower self state.

The coach explains the three types of persona's -people choose to wear like coats, and their intent making ability. Which are the balanced determined self that takes learning to know, and practice to become accustomed too. The pleasing determined self which takes the absolute dismissal of one's own emotional structure of self, while serving someone else's. The selfishly determined self who takes continually and gives nothing while complaining that itself isn't given enough of what it is owed to itself righteously, which takes no practice at all to become immediately. So it is the reaction of the emotional self and the implementation of the behavior after intent is made to become one of the three, in which you have no choice but to result in one of them. So as it makes sense now logically to become the bds behavior in the face of the pds or the sds behavioral intent in reaction then to someone else, it won't emotionally in the moment because unresolved emotional is feeling the emotional impact in the moment like that blinds self to logics knowing of truths knowledge base. but self expression in the safety element of the balanced determined who can self express its emotional self because itself is no longer facing its own self expression, can communicate in a on abrasive way in terms of approach. So in this sense it's important to understand howself

communicates its emotional self. { find a different or an extra "persona driven behavioral type" than these three and Ill owe you another billion dollars.}Fear speaks to the cognitive fight or flee self from an over amped fear of the emotional self but, wisdom of the good speaks to the intellectual self, who takes the emotional truth of the self and brings into the place where logic is given- and fullness received when self realizes and acknowledges the emotional truth of the self, and then communicates that out loud "in verbal communication". Fear speaks to the cognitive mind in the animal instinct to fight or flee. It does not reach intellect, but does use its power of reaching the logic that concludes the thought in question not by killing intellect, but to dim its light in search for the greater light of emotional depth, but sinks self then in then its emotional fearing of the self expression, finds itself trapped in that fear and calculates then the fight or flee on emotional levels. The self gets self protect and enters into one of the two other behavioral types in persona making. And since this persona developed is inevitable then we might as well make it life and a human will that maintains life, in which the other two will be put to sleep. Which FIRST AND ALWAYS FIRST is self looking into the mirror if self worth and then is the self questioning the self in its own self worth level determining if itself "is unworthy" to speak from the emotional truth of the higher self. But the only thing acknowledged and expressed then is the fear of self expression, when then the self protection behavior is formulated, when after truth of the emotional self is denied or rejected completely. {self rejection}-So the second wisdom does not access the purity of logic from the life source, but does have the reasoning ability to understand the fight or flee- and then escapism needing that now to distract self from the lingering unresolved emotional structure of self-which is what is left for the self to spend its moment in silence with. Mindlessness and its wilful ignorance occurs here- where then the self is thinking only in terms of self protection preparedness, in constant fear of rejection and humiliation in hearts thought of genuine self expression, running though the emotional structure of self ,of the inner most emotional truth of the higher self now never reaching its own emotional depth

. Slowly but surely committing self to a life term of emotional death if new ways to understand self are known, and direction there to guide self into relying on that and the complete sense your first wisdom speaks to you of this knowledge base of you, me and the people you hate and love.... all in the same boat. In the same algorithm of one consciousness with two opposite and apposing wisdoms speaking opposite and apposing things to that consciousness of the self of the human will to decide from which body of knowledge does oneself take from, and calculate hearts thought with, to then formulate the behavior. That its specifies and meets with the standards of the wisdom chosen and what are those standards other than the tools and tool box of the lie, of the second wisdom in the cunning deceit algorithm applied to the human relationship? Returning to the skill set of the balanced determined self as you were born naturally as believe it or not, in your "reasoning ability" when that same reasoning ability was present in your moment as the child, facing the acknowledgement model of being parented. Where then only the unresolved hurting and fearing is contributing to hearts thought, "who this persons self" doesn't ever then visit its own emotional depth to meet with that reasoning ability anymore. When the skills no longer exist in the self who once naturally understood its own emotional depth immediately, because that is how the living computer works to enable the life of human spirit in that knowledge base of self. But when what is natural isn't used like a muscle left to waste away the physical atrophy continues to weaken the physical structure of self, until the self withers away, does with intent, something that will save its own physical self from wasting away like that. So too does our non physical and invisible spiritual elements do the same when they are not utilized. Until the person decides to do something about it before itself is allowed to waste away into a drawn out emotional death to live in. And became programmed then in your heart to know that truth of the emotional self "brings rejection" and the negative stem result emotional responses of embarrassment for the emotional response, and then left feeling humiliated by remembering the way the rejection was presented, leaving every child feeling then ridiculed. Which are then used by the second wisdoms ego to recall in an emotional moment in the now. To then have those three recalled instead of positive emotional programming, the natural algorithm of human spirit- prevents self that

expression, left in its animalistic emotional self protective state. Where the opposite wisdom needs the self to be, in order then for the human will to be beaten like that to then choose itself as its wisdom of knowing how to defeat the fear itself is amplifying, based in fantasy of half truths and thin slivers of truth to be left to focus on, in a self worth mirror. Which then self protection behavior knowledge is birthed by the dark feminine, but not for the sake of the self, but to further the chaotic emotional self. To be taken into then, the relationship to communicate that chaotic emotional mess internally, into creating chaos in our relationships. By that second wisdoms birthing element of evil intent made to look like first, the truth and the first wisdom. But is the intercepted lie and the second wisdom of the lie, and then amplified anger taking Sophia's place, as our wisdom, turning the our natural wisdom with anger in itself, but with all other human emotions to there to feel. But when the dark feminine element in this evil spirit influence is finished with the young child's heart, and its first wisdoms emotional structure of itself, the low self worth mirror is created in which to look into every time now in hearts thought, of new emotional response to possess the heart of the self in that emotional moment and for this algorithmic hurt to repeat itself over and over again while thinking we are free and alive, but in reality resembles more like the zombie of a physical self with the ability to move and feed, but without the thought and thought process of emotional truth of the empathy and trust that births love to feel. Which we do have "but" has been stolen from us so in this way all is forgiven. And no one cares who has a problem with that except that it reflects your own darkness and dark feminine element adultery and willingness to keep dark emotional mistresses who the re established balanced determined self destroys –your true feminine element has a problem with that and so does god and so do your victims. So if you can turn yourself back into your natural algorithm then you'll be good with god. And no one there will arm you emotionally for being bad but everyone will celebrate the real birthday since the real one is also stolen by the behavioral intent of a pedophile Fucking with our spiritual children. Because evil knows we do this automatically now after we are turned and emotionally possessed by the tools and tool box of evils intent to rape the mother god, and pedophile the children emotionally born from what's left from the end result of spiritual communication

between mother father and child, which is separation division and now "the emotional possession" over all of us. Because we didnt know the keys of our human knowledge and god bless Jesus for trying but evil said no way, we will lose too much money and besides, our god can beat up their god any day, so who cares who suffers and dies, and te childen we secretly sacrifice still physically in manywaystotheor spiut belief in the god wowantstis from them an has given detailed instruction in how to rape three year olds to the priest and we already know about ten thousand catholic priests already have been caught an put into other arrangements with children {omg wth?}

lets turn them further into addiction machines, and hunger machines and they'll never figure it out. And we wouldn't have, if it weren't for that boy who found those caves with this knowledge base in it. Which is where the whole bible story comes from, But those were not gods they were aliens who justified their shit into believing it would be ok to do such a thing as to make their own human. Which is the inspiration fueling the new born aspiration, the spiritual child born from this immaculate conception, and is this title because of its spiritual element of life with intent to give life, and save us from spiritual death and taken away from a pedophilic father figure. And to keep then "reusing and re looping" the negative emotional energies influenced immediately after birthing "in every hearts thought" of future self expression in the new emotional moment the fear of potential loss communication with the dark feminine shown to self in an image with out a silent voice just the image of what to fear losing if self were to freely express it's emotional truth. There specifically to stop self from its own self expression of clearing and hearing of its own voice, in spiritual understanding of its emotional self. Who now self when ignited in fearing its own emotional expression of truth, turns on its emotional fight or flee instead of entering its own depth over and over again, and soon forget our emotional depth, and forget its even then a part of the living self. We are programmed like this mainly because of the tv programming learning these things starting at an early age, already looking for the escape and distraction manipulation we do sub consciously to ourselves. And seek then "to hunt down" the one physical element that will satisfy the needs of the escape. For the drug addict, this is really good dope, and to the

alcoholic it is a supply of that deadly poison for sale-for the food addict though its a banana split... and then another... and another and...For the fearful person not willing to poison itself it is pleasing and constantly fearing and "what" thought, it is entering in emotional depth in itself, to see what she has to say/birth as emotional wisdom. Denies it and goes self protect and lies to itself of its true circumstances and reframes the circumstance then in a fantasy of the reality, while the other ones of addiction do not they remain in with their truth of emotional pain isn't that interesting? She can inform her sister in the feminine element of the higher self who is the sister of Sophia and who she is in us as influence of life for self because the she in every masculine element of cognitive thought and is the life itself that births new knowledge taken from original emotional knowing received by our first wisdom of what the self is emotionally, guiding itself in cognitive thought. And we better start acting like it. And when human will is the driver of that bus then the bus driver decides where he stops and continues at its leisure, but keeping with schedules of the goals made, you see? But if its fear explaining the angry persons wisdom to the unresolved selfishly programmed or person programed to believe itself must meet the needs of others and ignore the needs of self in order the to meet the emotional safety need so desperately needed because the self is still separated itself from Sophia your sister wisdom, who the two of you have other sister wisdoms but ones according to your uniqueness and mine with each having a life and life source driving it. The loan succeeds in bonding together the two hearts- one of the self, and one of the god of truth and the first wisdom, but it is only meant to be temporary. Because a person can, and does learn its heart of wisdom in the constant thought process itself calculates with, to form the behavior that acts on the intent birthed, from the emotional knowledge base of self reacting to new experience in the now. That human will lives, and when the self turns away from this "life being" in itself, then this self is convinced by its second wisdom, who later says in a mistress wisdom, we don't need anyone. And all we have to do is lie to the emotional presence of others, who just do not understand. {but in reality we do because we each feel the same emotions, and only uniqueness and its reaction to them is different so yea, we do understand you and you understand us. But the thing is I'm alone right now and not living with anyone to share

anything with. so that fantasy in your head that its you against all your enemies your certain will reject you, ninety eight percent of them just will not and will want to acknowledge your existence by acknowledging an importance in themselves, of what your currently feeling. and this is what fear dose to each one of us, just in different ways do we treat through one of the three personas behavioral types of human self, and is why we cant find each other. And there's a thing, im alone but i do not wanting to be alone anymore. Which I have been alone from a committed relationship since my marriage ended twenty five years ago. Living in my emotional death all time, I have since cleansed and cleared and collaborated with my first wisdom again. And I am pain free and fear free like it was before, which this normal fearing is kindergarten fear to feel, when not purposely amplified in a little boys ,or little girls heart. Of not knowing anything else other that what reality says of rejection, in her heart of the opposite, that this spiritual trauma must be dealt with immediately- or die. In the emotional heart of what was before the rejection programming, was the happy joy once in your beautiful heart from god containing what he sees and feels in his heart, as his child "with right to life" –in the tiny little hearts of little boys and little girls. Filled wiht the knowing of itself who naturally expressed its beautiful emotional self to feel that beautiful innocence of heart. But when the child gets older and is not so cute anymore...this is a problem for most of you who grows tired quickly of their child's need to self express to feel acknowledge now on different levels of cognitive awareness, skill and intent to feel acknowledged. through now a different set off parameters of the self expression itself, and who this self and all selves feed spiritually from when attempting independence from their caregivers.

The feedback formula is a mechanical way to express the spiritual knowing of the emotional response, but when the self aligns thought with the hearts thought and speaks from that understanding within self, looks to clarify and does clarify. And gets use to it-rejoining the oneness element back to its original state because this self understands that self expression is needed to completely understand the self, in the moment. As to ensure no one else takes that space in your hearts thought department; manipulates it, and puppeteers you into performing for them. The puppeteer maneuvers the feared loss leverage against you, trying to remove your

human will for first your truth of the emotional self, who should be embarrassed for feeling that way! To keep something that belongs to you- and how could you then be so selfish as to make sure your needs are met while I suffer...this cunning deceit of guilt manipulation and shame based manipulation turns things around in the heart of the victim like that, and is this specific way we are programmed to, as a human being, seeks to meet the emotional need of self tis way in guilt manipulation. And in this way we can see that we do "with intent" to meet the emotional needs in self, in light or darkness, we do seek to meet the emotional need, and complete it in some way. When you fully understand why it is it is important to express out loud the emotional truth of self in this way, the you can say according to ones own uniqueness where I say look, that feels good, or that feels bad and produces negative emotional energies for me to feel "all day long" unless I discuss them with you. So are you willing to meet my need? If so I feel loved and respected ...now, if not I get the hell out of there if the promise of a greater respect was agreed upon already. If not the I accept and walk away, or remain but do so the balanced determined self which is easy for me to do now since there is no more pain and I want that for you to feel good about yourself and to know yourself, but to know to how to get invited. But wat I do now is, for clarity sake- before I approach and say feels good or bad, I review in my own hearts mind to use the feed back formula in its mechanical algorithm in my own silence. Saying it to myself always still, which is part of the skillset of the balanced determine self, so to achieve emotional understanding in my heart, what needs to be then communicated on deeper levels of communication, you see? And remove the robotics of self expression, because that is how it feels at first, mechanical. It is very important that we all begin here and finish it with uniqueness in order to adjust to the new programming, to truly understand its greatest impact, and for instant clarity o the emotional moment. When the map is followed then "you will find" the answers you have been asking all your life, this is a promise for most, but I still have yet to discover anyone who did not re program their hearts understanding of themselves and completely re vitalized the self worth level to its original normal level of producing the inspiration fuel taken from the self esteem, created by self worth, a healthy self worth fuelling hearts thought again can you feel it coming or not? Is your intellectual wisdom expressing anything to you in

silence or not? Is fear speaking over that silence, and if so, what are you going to do with that fear- in reaction to it, who Mr. and Ms. human will is still in control of in its heart of fearing, "right now" and even Jesus asks in one of his secret saying, what will you do when you know? And all things that were negative including the negative emotional energies that fuel fear are no longer amplifying themselves felt and seen in the same way of self destruction, of the emotional knowledge of self. To then dissect later if needed, but the student must experience first the mechanical algorithm of this self expression tool, in order to know its impact and power. Knowing then how to access, just like the father of the second wisdom does, your emotional structure and maneuvers your fear to produce a certain thought in fight or flee, depending on your weaknesses. This is the puppet puppeteer relationship dynamic itself now possessed by the one trying to rob you of your human will like that. In a formula that is just one formula used by evil and by who evil possesses to justify then the evil they do. When there is no trust between yourself, and the one you're expressing to, then the understanding of the environmental life skills knowledge- will help you then. Because the cunning deception element of the hunter of life itself, hunts for clues to seep into your emotional state and make you afraid. To then predict your next thought and your next behavior to achieve its own goal through the manipulations of emotional deceit. When in new awareness programming of personal development and reprogramming the old stuff, the predators will come out to feed off you again, so in the beginning, discuss "self" with the group and spiritual friends, until you get strong "again" then you have strength unimaginable to others.

Explain

You, the student have been alone for a long time and it is painful, but completely intolerable to most of the human population, who looks for material ways of distracting themselves from what has not yet been expressed in words of description from within themselves, and their silence. Because in order for the heart to feel as if itself knows self of the uniqueness itself is working for to do exactly that, being the conduit for that spiritual existence of being inside each of us like that. Which is the way the middle class acts to relieve themselves first of their emotional content, and then the self protection behavior comes into save

the that separated, lost, divided and conquered self from the negative stem result emotions and its emotional energy- just in hearts thought of self expression- to do as seen on tv and kill themselves off spiritually but left knowing they have the newest model of car and a really nice house to live in and nice everything -for every physical need for their family, but every one is emotionally deadened to the point of this puppet puppeteer relationship dynamic first in self with evil an then with each other left feeling so terrified to be poor and not good enough to be rich...while then being told by the tv it is the poor and the drug addicts and the lowers alcoholics who fall victim because they couldn't handle their booze which is the current argument that keeps this drug for sale profitable - and still for sale, and criminals doing all the harm to you so hate them and if you work for the government then stop them from draining and bleeding the system dry with then their hungry children, and you do exactly this. You the middle class oboe this evil and continue to vote in this evil. You are not the driving force of evil but you enable and join forces with it, and hope to achieve being rich one day so you to can be chosen for self respect. Those who the middle class vote into rule over them through the tools and tool box of emotional deceit manipulations are the ones who because your politian's know what I know about how you work to produce your understanding. And can make the lie appear as truth and salvation from evil, and most believe them over and over again. Instead of doing with the information that I am doing, they continue to lie to themselves of what's happening here being one system of lies and tools from evils tool box of the second wisdom dictating still from its evil. It is because of you giving this permission they have been allowed to go kill other for things like banana sales and other profitable things, like oil. This is a problem of willful ignorance for which we are held accountable for, so know this for this complicated issue of spiritual cleansing, in qualification need. going back to alignment in that moment which in many moments of clarity the self move back into it alignment of all its spiritual elements tat produce emotional knowledge of self to work then to develop the self of the new born in the ideal thought of rising a child but we all fill then it comes to that an all of us are responsible for producing the separation then in our children. But those who can afford the thirteen hundred dollar phone and all those three hundred dollar t shirts in your closet sure does tell every one that you

are just fine right? And as we speak I still don't believe any one of you who has done no research and does not care to, because the tv told you that if you get knowledge from the internet then you are a freak of nature. So you don't go near new knowledge and you don't go near then the truth in self to understand wisdom to ask...but you run back to the tv mom and believe the lies coming from her, it is "a her" since she births emotional knowledge in you yes? And this is then what we trade the real mother god element in for, a mechanical emotional birthing machine but nothing that comes from it is spirit or life, since they are all lies and cunning deceit manipulation to shape the mind itself of your children but did this to you first, in your own childhood. You are all going to prison palnet with the welfare worker the wcb case manager the dirty cop and the entirety of the legal system those who love to see the suffering spiritually instead of witnessing the slaughtering physically.-in those doing those things to people, this is was is meant when I say separate the ungodly from the street of us who goes with committed evil to experience all together you governments of war mongering and who can be the better killer. But since fairness is real in gods heart in his depth of his own emotional self, wanting us terribly to reach you as we sit her trying to reach your children before they have a chance to experience separation, and before its to late being with the pedophile machine mom, and the parent who loves his or her mechanical mother of emotional birthing. The parent is here to meet the emotional needs of the child not to seek this from your child, to have the child meet your own emotional needs because you yourself is emotionally bankrupt and left to afraid to take anymore risks. But I ask you in your truth and logic how is this not emotional incest when doing such a thing to a needy vulnerable child? You may not intent spiritual pedophilia but that cant help but happen when the self of the adult is needing acknowledgement for itself and seeks this acknowledgement from your children because then you have to teach the child what the emotional need is because itself had not yet experienced that knowledge for itself ad that is where deceit manipulation comes into the mix and everything then turns evil. The good parent will consistently to the best of is ability to remove itself from its own world, to enter into the world of the child's heart- to see that emotional acknowledgments itself needs. And not the other way around so stop pedophiling "the child of the child" born in your child's

spiritual copulation in its heart, between itself and the life source birthing those spiritual children until the self of the child can do this on its own... To separate your child from itself, to become severing then to this selfishly determined self, but the good has tons of mercy and hope for you, so what's in my heart of unresolved anger doesn't mean anything till the balance is found, so in that way I should shut the hell up with the pinless anger grenade, in my heart of anger. And to then come in as the salvation from the potential fear of loss, with many great fears "of potential loss" are communicated to you by the second wisdom in you which your government understands when they discovered what we discovered in our training group concerning the origins of this knowledge. Which are labeled as the keys of knowledge by Jesus, but we know them as the keys of "human" knowledge now. When the person/host has chosen through the early childhood manipulations then know this is forgiven. But what is left is someone who has not kept the wisdom of itself because that relationship was formed by the interruption and infection the second wisdom, is to the emotional light and life in a person. The intent making of mistake making trying to do the goodness, but are emotionally separated from your selves makes all of this not our fault but left being our problem because the spiritual infection of emotional darkness and emotional death create for god, he will not all who is perfect removal of light being infected by our spiritual infection so this is ur problem left t deal with and here is everything you need for that, including the human will to commit to your own personal development. Chasing then the hearts thought of the escape –and all its distraction knowledge and methodology feeding self now with only the promises of riches/physical substance and materialism beyond compare, but for the child this all begins with the cookie chosen as favorite escape substance of choice. But the knowing and understanding of the deceit manipulations people use to acquire those things from others, are then given to self to use and achieve the hidden agenda by watching mom and dad do the things they see on tv. But dude listen you can relearn yourself and like very much what the new mirror of self worth will look like, and from their everything is easy to accomplish in the achieving the behavioral intent of the balanced determine self once the meditations d their work to remove the unresolved ongoing programming

operating itself in a loop of itself in each thought of genuine self expression, and then you'll be ok and get to stay with the rest of us.

THE COACH IS DIRECTED TO STOP HERE and explain trust, which is the spiritual element of truth, which is also nonphysical and "a living spirit" because it lives alone but shares itself with all people. Those who speak from their root in emotional truth of themselves, are joined with that entity who those who are not use that entity as the tool to define the target of its lies and deceit manipulations. Trust is the "one and only" element that connects the hearts thought of two people of different uniqueness "as one hearts thought" when the two of them speak from their emotional truths- it is the only force that can pull this off....from that wisdom from within themselves. It matters not what kind of relationship this is -it could be with the guy at the corner store, or could be your spouse- or your hearts thought of a trusted spouse....Trust connects two people "as one hearts thought" completing them both in that moment in the need meeting sense of spiritual fullness that results from acknowledged truth, and the trust spirit birthed from that. A strength in bond develops itself, that does not go away until one of them lies. This could be just one encounter with the person, or it could be many encounters with the same person "regardless" .. this is the algorithm of trust itself that has no one above it and nothing below it, no god ruling it, only gods worshiping and respecting "its life source" because the same "sources them" with the spiritual life we are made to believe is dangerous and humiliating which causes the evil in the world. Maintaining trust isn't hard at all, finding one who is worthy to trust based on what you understand about your own emotional truth of self, and the wisdom to understand its communication to the living higher self- is a different story. Another name for the mistress wisdom is the self destruction wisdom, so as for labeling purpose, the second wisdom, the self destructive wisdom, the mistress wisdom - is the wisdom of the lower self. And its self destruction wisdoms births and then speaks the fun and the means of achieving it, but at the cost of complete emotional obliteration and self destruction. Which then relationship conflict arises from this one choice to enter into the understanding the second wisdoms. Calculate in hearts thought the understanding of what emotional deceit you can use from your understanding

and relationship you have with empathy.-Knowing then what to target to manipulate emotionally, in the victim of your lies used to achieve the target of our focus. But when the commitment to re developing a relationship with self is made, the student will reap the rewards for the direct willingness to re-educate and complete the self "in a competency of completeness", wholeness and fullness. Those are big words I know, but know also that I myself have survived traumatic childhood programming that took me into the back allies, and become addicted to cocaine and heroin. Where I lived homeless, for three years and tried everything I learned over the last 25 years, to rid myself of the unresolved pain, and the low self worth that took me there. But nothing worked like these keys of human knowledge, skill sets and meditations do, and it matters not what happened to you that remains as unresolved pain now, the bulk of the pain will disappear, as it did in me. One day you simply realize then emotional maturity now has to be walked through like we were supposed to do when at that young and tender age, but was removed from what was supposed to be natural. And places self into the opposite form of the spirit of life, into the spirit of emotional death instead, and although this certainly isn't the fault of the self it is certainly the responsibly of self. In which to be accountable emotionally now for those traumatic experiences as a child, because there is no one else willing to do it for you, nor are they qualified to do for a human will only you and god knows specifically. And if this training has the power to remove "and heal" unresolved pain from those of us who experienced and reacted to the spiritual traumas of childhood abuse, which then those who did not suffer these things, will find even easier to remove theirs.

Tell class how long it took for the coach to realize the pain was no longer infecting the hearts thought with itself- Mine took three weeks of meditations 3 times a day, and continuous practice of our communication skills. In our raw and emotionally programmable early childhood we received the rejection model, enabling then at that moment for the conversion, going from having only one wisdom, now is two wisdoms, apposing each other in their opposite forms of knowing the emotional self. One says yes you are worthy and you can do it. The other says no you cant do it because you cant find the worthiness within you.

Which one of these wolves/wisdoms do you feed? We do not choose the second wisdom in early childhood just as the young child doesn't choose its pedophile. But we become the predators victim through its persuasions in fear based emotional manipulations, and all things that came from that interception of emotional infections, is forgiven. Because it was not our fault, and we had been sabotaged and placed into the mindset of emotional darkness and emptiness for the specific purpose of being then emotionally manipulated in each deciding moment that all begins with the look into the mirror of self worth. So in this way it is not our fault but it is our problem to reduce the emotional monster back into the nothingness it came from. And if we don't then what do you think happens in the accountability department of human spirit? We always knew, in the deepest parts of our inner souls and spiritual being of that soul, that one day we will be held to account for the things we have done. But what this the measurement is and what gets measured to determine such a thing? is determined by the same mercy so feel good in your commitment to maintain yourself and making every effort to know self to be able then be fear free in terms of self expression. And do not be afraid of a god who loves his truth and his fairness because that hurting god punishing and relentlessly violent god is a fake god construct to make you fear and force you into his dark feminine. It is measured and weighed and based in choosing the knowing and knowledge base of first the self protection behavior and second the escapism and finally the distraction manipulations we do to ourselves, using the predators tool and formula of spiritual and emotional death in which we are held to this account. Who the student of life then chooses from the body of knowing offered from one of the two wisdoms to act from, and most do not know they are either leading their own lives or is being puppeteer'd by their fears of potential losses and negative self talk, producing negative emotional energies for the self to continually experience in every waking moment. When in the now of new experience, and the lower self wants desperately to keep you confined in fearing loss, say no and stop to yourself and choose to self express {the first wisdom- when safe too utilize} in the face of the fearful lower self. But after committing to the self healing meditations then this wont be as fearful so listening to your demand from yourself will be a hell of lot easier}. When after pain removal, the fear of self expression still develops itself, but it is the normal

level of fear and not amplified by the second wisdoms emotional structure, which is fear in its totality, but with the ability to amplify the fear producing strong images in the potential fear of loss of every other emotional awareness birthed in the self in the moment, needs this for every moment or evil looses its grip on the soulless meat puppet? But it is fearing ONLY "the self expression" of all the emotional responses the human being is capable of. So in this way the singularity controls every human emotion, and the human will who experiences those things is then therefore "controlled" -and then puppeteered through that control you see? And when this one element is removed then the self learns to know itself, and becomes this knowing again. Retrieve the flow of spiritual fullness left feeling the contentment of emotional completion in each moment now, when after its birth inside new emotional experience daughter of the rebirthing ability. Where self expression once meant learning growing and evolving, but now all it means to most of the population that self expression means to prepare your self for the potential ridicule humiliation and embarrassment coming from this spiritual practice of unionship. Exactly the same circumstance emotional programming that happened to each of us "as the result of our first self expressions" of the emotional selves we are. And without this one thing controlling the person then the person is released from a control the early child didn't know was happening to itself, just as the early child of the pedophile doesn't know either what the hidden agenda is, for itself, in the calculated intent making of someone else. And no one sees the self destructive wisdom until the thought process is formed, after about the age of four. Until then loving parents "who love children" look into their behaviors and become enamored by the presence of the spiritual innocence that comes out of the child spiritually. Which we feel and love to feel this, and would have noticed immediately the presence of emotional darkness and weaponized emotional structure, which is automatic with the second wisdom of the angry persons wisdom. Which we then weaponized the emotional response through that anger, to self protect yes, but an evil thing eventually comes out of it, if it goes to far. Entering into then not with the intent for evil but placed right in the middle of its experience. Many who find themselves here feel the spirit of incorruption and know they took part in that evil...but later feel the guilt/spirt of incorruption and even the shame of it, if the second wisdoms power has reached

into you this far with the ability to transform our god given guilt into shame. Explain shame isn't natural to the spirit of life source, but guilt is because guilt is resolvable immediately in ownership and regret. Who the person who hurt the other person becomes emotionally accountable TO ADMIT THE HARM DONE, which then in automatic result builds a stronger bond emotionally. Developing into "as automatic result" a stronger spiritual connection with each other. Life can be as simple as accountability with trusted friends who the two of you developed the friendship "with trust first" of who brings that friendship into the committed relationship. Developing a relationship with trust is easy and you have already begun that journey into this completion process, and transformational process that allows self to graduate this kindergarten schooling of retrieving our emotional structures,, as human beings. From the thief who stole it from the young child trusting that second presence of spiritual influence in its birthing element of new knowing to choose and act on, to choose first though the spirit of life making then the two opposite and apposing wisdoms almost undetectable at that age, when the hijacked truth is spoken from now the second wisdom generation of emotional death, we believe it still to be the first so we believe it because we have natural trust with the first wisdom. Reproduction of spiritual stuff is produced in its beginning part of self expression of the new emotional experience in the now. This second invader wisdom looks to weaken the reaction to this breath of spiritual life put inside us by life itself, with intent to give- and continually feed us life but needs human intent to produce the accountability to its truth element, before itself can produce then the benefits of having such a thing inside us.....the ability to "rebirth" life from emotional light within. And when the human being realigns in hearts thought process with its cognitive thought processing the emotional light within, the self saves itself because no one else will do it for you. The expectation of the three negative stem result dark emotional responses will come back to eat away at the heart of the self in just now- the hearts thought of its self expression- in which no child can survive to defeat. This is the reprogramming of "in the moment" emotional programming, which both wisdoms of the higher and lower selves depend on through that communication element, between life source- and its physical host. If we did not have fear to recognize, we would be in a lot of trouble and the species couldn't

then evolve because the dangerous things would kill us all, if we weren't aware of what to genuinely be afraid of, its just that "the second alien breed" took over from the Anunaki when at the time of that separation from them, which did in fact happen because look no Anunaki walking around threatening worshipping people all day long... and is infecting our fear with its own energies. But the student is no longer paralyzed by the fear of the emotional self because the fantasy of fears are gone, with the unresolved anger-removing on slower levels then angry persons wisdom but soon evaporates into a nothingness when not used. Which is also gone, but that is gone because the unresolved pain is disappeared, and it takes very little courage then to defeat what wants "and needs" to defeat "you" in order to remain as a separate thought processing the opposite wisdom of self destruction. Leaving then the self with the normal level of fear, and fearing loss that helps the person, and isn't used as a tool against the person. And learning how to self express again is part of spiritual accountability god needs "from you" to keep you here with the children these words "are taking from everyone" who refuses their emotional accountability. Not physically by force but by a new understanding of the symbiotic relationship dynamic with god to communicate with.

Tv emotional programming the emotional structure of self.

When in the first natural wisdom we see the problem and say this is the wrong the unfairness and injustice. This is the what new should and here is the plan we worked on to fix the problem. We began and made the golden mistakes that gave us then the knowledge to perfect eventually a working system that produces the hearts desire of safety and peace in the immediate moment. But we aren't allowed to do that and have to work with the wat the tv told us to because um.....well in reality then wat are we left with. We are left with doingth exact opposite of what needs to be done by a leading force making it a path to walk on for the entirety of a community and then an entire country. Where on day this planet will be one big country to share like it was meant to be shared. No one will rule over it because the time calls for peace, but a population left without the spokes persons and an organizers to prepare community members for something they couldn't do by themselves like a good leadership will accomplish from its

heart of truth and first wisdom- making sure that even the last person gets their needs met. This group of a decision making entity of oneness in the same heart of truth and bonded by the spirit of trust, the holy spirit as explained because of the connection in oneness itself accomplishes so we can feel safe with others. Will come from you but be sure to follow the first wisdom because following the second will remove you from ever retuning here in the reincarnation thing we do. So please don't take the chance because even though I don't know you here and hate your behavior, sure doesn't mean that when the veil is lifted and drawn, and we see clearly the spiritual family element between us knowing Jesus is the first brother sister, then you will know to protect yourself from grief and loss of a family member. Not that I feel this potential loss and even look forward to the day when physical and spiritual pedophiles are held to their account with god, the real one the real way, but i do know god doesn't he the power of not caring and revenge making or nothing like that. To him and his feminine element who is a mom, will see what my parents saw. And feel what my parents felt when my oldest brother was hit by a drunk driver. Overwhelming hurt and grief, which to me any brothers a brand new spiritual trauma to experience all by its self. And look it's still with me emotionally to, I didn't know till I heard my self speak you see? it works the same way for all people who must here themselves speak their thoughts and emotional content in order then to decide whether or not this is something then to change or to leave as ongoing emotional programming to remember, because now we have the emotional understanding in how to change the emotional response back into its original light, which feels right and feels good to.

Medical Definition of alpha state.

a state of wakeful relaxation that is associated with increased alpha wave activity When electroencephalograms show a brain wave pattern of 9 to 12 cycles per second, the subject is said to be in alpha state, usually described as relaxed, peaceful, or floating.—Which is a peaceful calm we feel, like right before we fall asleep turning the emotional “on guard” button off.

What is alpha state consciousness?

The Alpha-Theta border, from 7 to 8Hz, is the optimal range for visualization, mind programming and using the creative power of your mind. It is the mental state at which you consciously create your reality. At this frequency of mind control you are conscious of your surroundings but your body is in deep relaxation.

This is how they, the ones who love evil and the second wisdoms dark feminine of the evil spirit influence can emotionally program us to think and feel a certain way to have then our own intercultural wisdom speak back what itself had just re-birthed in a greater understanding creating then the emotional response again. With the young child knowing now to blame the drunk for the crime itself committed against humanity that allows the drug dealer to profit and makes the middle class believe they are accepted by rich people because the one with the most money is god to most of them, and will trade you in "in a heart beat" to feel this acceptance in itself at the expense of others. Because the tv that put you in this vulnerable state "told you to" indirectly, simply allowing then for the viewer to conclude on its own in heightened state of emotional response. Feeling this reality in the heart that does not know the difference, and is programming the self of each child in this way, and in this way then you can program the child to believe anything the tv and the tv programmers want the self to believe later in the adulthood of its faith, in itself. Which they've been working since their own understanding of these secret sayings, which took place in the late forties-and are using them now as I am here to show you, but in ways to turn us into hunger machines and addiction machines, and profit from it. While having complete control over their lives and needing to emotionally deaden us as to gather us all into one herd of one belief and worship in fearing loss and emotional emptiness that translates itself into separation and spiritual emptiness and the absolute disconnection from the first rebirthing element now hijacked by that outside force. To act as the decision maker in the exact same way the physical pedophile decides for the child what itself will perform for the adult thinking this knowledge was birthed the same way and as naturally as always, but was produced by the cunning deception of emotional manipulation of human truth and human truth

leveraging the fear of loss of something specific to the emotional response and its physical safety need, all the while targeting self worth to lower it just enough to form then the puppet puppeteer emotional programming which is acting but not knowing why your are moving to act...or thinking it is by your own will that you do act but really it is another force manipulating you to believe this while it controls every movement you have as the emotional puppet you see and I said to my self from a wisdom that birthed the greater knowledge too act from i did and removed my own underwear.

So in this way then when each of my three pedophiles never once said "take your underwear off" this is what I was left with in my unconfirmed assumption from my intellectual wisdom doing its job in analyzing the emotional moment in the now-now searching for the light in logic that answers the question the intellectual search "is asking father" or that light in logic.....but left without knowledge of this and everything else the evil takes the child's heart away from god and places our intellect with now its own dark feminine element. Saying things now over top of truths silence screaming at the child in silence -to stop and run away! But by that time the emotional deceit had worked and I was searching then for that light that said if I did, then my heart will feel what the pedophile told me was there and missing, which in that moment with each of the three of them all worked from the same intent "to get my own intellectual wisdom provide the answer" with the deceit manipulation left thinking then it was natural to proceed and we do while feeling its wrongness in our guts, with the mother god element. Who the of truth god and me to now see you as the same victim in the same vulnerable moment, but left without the physical element of the spiritual pedophilia needed to enable the physical sexual stimulus. Which takes "the formula" of human will removal, to work those tools from evils skill set in communication tools birthed in its own dark feminine element of itself. Now acting as our first wisdom at that age which is enveloped with our parents and for some who end up in the hands of an evil human then those circumstances have to be dealt with so feel lucky what you have to deal with is only spiritual and not physical because that a while different set of algorithms to take part in and feel disgusted by. But you know what I didn't feel disgusted or remorseful until I learned the secret saying knowledge base of

and in myself, of my realigned completeness in my emotional self, not knowing the difference between wisdoms in me who was starving for love and acknowledgement. So, it was then what my rebirthing element spoke to me at that young age that allowed the strings to work, except its emotional manipulation and not strings at all. And it hurts in the end result causing all kinds of chaos to deal with later in life. And yes, even those things are gone from me now. Only an unattached memory exists with no emotional interference, which to me in forty plus years of the emotional chaos going off inside me all those years, this peace I feel now is the heaven, or must be the heaven I've always knew of. That's how it feels now but the point here and now is those tools do not stand alone. They need a will to produce them in its heart of the second wisdom, and with formula to make it happen. Just like it happened to me at that age only with the different circumstance who they do not want to see your gentiles but still need to do the same thing the same way! Which is to remove the human will from its truth through emotional deceit and the killing off of emotional spirit internally using self worth to do so. With you when watching the tv programming explaining everything in indirect fashion to believe everything they need you to believe later on in life as the adult, in order that they get past your internal alarm and discover what they truly are to us.

What are the 4 types of brain waves?

Different Types of Brain Waves: Delta, Theta, Alpha, Beta, Gamma. Our brain consists of 5 different types of brain waves; Delta, Theta, Alpha, Beta and Gamma brain waves. Each of these of these brain waves has a normal frequency range in which they operate.

The frequency thing comes out of the tv and reaches into your child's heart to kill the child of the child quickly. Accessing the bio chemical thingy in us that programs the gene, which we do have this power in our decision making and our knowledge when the self believes something to be real changes the emotional programming cchngeing then the genetic program to react differently as does the self with more knowledge you see?

What is Alpha sleep?

Alpha activity is a pattern of brain wave activity that indicates wakefulness with eyes closed and often precedes sleep. ... When you are asleep, the brain usually does not produce alpha waves. But in some cases, the inappropriate alpha activity can lead to sleep disorders.

This is the state tv programming with frequency manipulation does to us emotionally and biochemically taking the choice away from the internal self and reacting specifically then to each new knowing in a falsehood acting like its real but it's a lie.

What is Alpha Desynchronization?

Alpha desynchronization, or the alpha blocking response to eye opening was originally reported by Berger in 1929. Alpha suppression is produced by an influx of light, other afferent stimuli and mental activity⁴¹. Alpha rhythm is the EEG correlate of relaxed wakefulness, best obtained while the eyes are closed

Enhancing Memory Retention by Increasing Alpha and Decreasing Beta Brainwaves using Music.

Brain waves can aptly define the state of a person's mind. High activity and attention lead to dominant beta waves while relaxation and focus lead to dominant alpha waves in the brain. In which case then we relate emotionally on tv without any regard for fantasy and reality because in that emotional moment, its only the emotional self in memory dancing in the heart of interacting with emotional memory of the self, self sees and feels all in an oneness state...and what itself felt in the same heart of emotional programming on tv -reinforcing the underlying messaging in tv programming, targeting the male child in the heart to kill its spirit, and spiritual nature. To turn to its second wisdom for anger and "reasons why" to hurt and "feed off" who ever this one chooses. Now it is the second wisdom and the second persona of self seeking to meet the same emotional needs of the emotional self, but now through the lower self and the lower self dominance of the second persona, opposite to the first. And no longer the higher self believing in itself anymore, not dead, just deadened emotionally and deadened then spiritually as automatic result. Then anything else the tv

wants you to believe like how they can program us to do the same thing over and over again doing that kind of harm and damage to ourselves, without noticing it. And left without the ability to do anything about it, or so it seems, but that was a lie to since we can "vote in" our new decision making process and other countries can deal with our friends if they try to stop us. This kind of deception and deception element and atmosphere to keep it all glued to together is about to fail. And all who do such things will join everyone else who does such things as to say or sure, "no prob" ill meet my need at the expense of you, and either not give a shit, or will enjoy it thoroughly in my evil. "Speaking back" to the silence, joining with the first wisdom to tell you what you are about to do is either dark, evil or ungodly so stop. And be with the first wisdom of empathy instead which means to be alone with your anger to be accountable for then your own emotional structure as a human being, equipped with such a thing as something to be accountable for, in the first place {depth} And you replying "fuck off" to your own movement/intuition/gut feeling, or whatever your speech pattern is used when discussing with the mother god element and the first sister wisdom responsible for life itself. For most its just emotional denial of self, denying then ones own existence, but not doing this with intent.

Knowing the evil that was coming for us, the god of truth and the first wisdom saying no way, gave us life but also knows and understands our darkness and evil and ungodly thinking, that result in those things for a lot of people in their end result in todays world. And most don't even know it, so this is what is meant by mercy, giving each one born from the original secondary humans truth and the first wisdom of that emotional truth- with the light in logic to understand it clearly and feel it result in the need meeting seems of feeling fulfilled, all day long.
