

Jesus and the keys of knowledge.

Secret saying # (114) Simon Peter said to him, "Let Mary leave us, for women are not worthy of life." Jesus said, "I myself shall lead her in order to make her male, so that she too may become a living spirit resembling you males. For every woman who will make herself male will enter the kingdom of heaven.

"The knowledge of good and evil has been a question in everyone until you stop and think in terms of Mary being the feminine element of Jesus, and all that was written about the feminine element in your bibles, had to do with the masculine and feminine elements of the spiritual self, in which Jesus was here to teach our secondary human kind. But "what is a birthing element" that each of us has two of, treating the final feminine element?

The Keys of Knowledge are an understanding of spiritual realignment between self and the life source, sourcing self the knowledge and understanding of the natural higher self, in the uniqueness quality of self. Fueled by the life source element in early childhood, acting as a self calculating spirit of truths knowledge, spoken to the inner self of the child each of us use to be. Just becoming aware of our own emotional structure of the self, through a spiritual seed, a stolen seed but still, a spirit seed of life that provides life of knowing truths knowledge and to then feel truths knowledge in the emotional response in which the human being reacts to -in either the good, or in the evil that so many are in today's world. Inside an individualize uniqueness element since everyone is born with this seed at birth, offering "first thought" and thought process itself that allows wisdoms intellect to search for the light in a logic, that will conclude the knowledge sought. And completes the inner self emotionally when finished with the life source, sourcing self with those things, understanding the emotional moment of our emotional human being, and it works this way algorithmically, since we are all born without any knowledge at all. And this is the way then to program "a living computer" to receive a life source, and then give it to its host to Mr and Ms uniqueness of self, left here without any knowledge "at all". In which then when kept in spiritual alignment, this life source offers us something that had also been stolen from each of us, which is the need meeting sense of the Pleroma's fullness

element given to each of us that meets emotional need on its own, when without the interference from the evil that also is in the self with that seed, but not physically as the seed is. This evil we all know of with a possession element and ability to "turn" thought and thought process into an emotional darkness of self, in the secondary human being. And turn it evil, or at a very minimum, turn someone so fearful of their own emotional truths, they refuse to enter its knowledge base of the inner self, filled with emotional knowledge we get from each experience. Offering self in the now, a knowledge base to recall from, when in moments of uncertainty, as to then project that spirit into the world instead of the one from the first wisdom of the good, the self was born in alignment with naturally. This evil with its own wisdom of "the lowered self" is produced electronically and attaches itself to the electromagnetic pulse in the earth, attaching to that like a computer hacker does a computer, to then attach itself to that which our first wisdom is delivered from. To then appear as our first wisdom of truth, of the inner self and turns the normal self worth level into then into "the lowered self worth level" after the initial attack on human spirit, in early childhood. That achieves the turning of how self reacts to its new emotional response in the now by infecting hearts thought with the wisdom element of the lower self. Who births nothing but uses specific tools and formula that removes human will for its own emotional truth first, to then exploit this into fearing all truths in the environment, slowly but surely killing off the human will for its own emotional truth. And after the emotional distortion program of hearts thought process is installed as now the new emotional operating program to react to in the lowered self, in the now of new emotional birthing in new human experience, perception then is distorted and self cant see in thought as clearly any more, and soon wont see anything in its own emotional depth anymore. With this emotional darkening agent of the lowered self wisdom is, which is written in the dead sea scrolls as the angry persons wisdom, wanting to use the unresolved state as a leverage in the now to ignite the amplified effect of our fight or flee instinct to protect self, but for us is emotional self protection. Ignited from a distorted animal instinct we no longer need? This self develops then the persona of the lower self, creating what we already know of in our spiritual duality.

Now that we are here in that end result “of all of that” of which was four life cycles ago, we are on our fifth and last life cycle for the secondary human being to finally understand about itself. So itself can then move on and go home where there is a loving home waiting for each one of us –of those who separate themselves from their lower self dominance because it is an infection to god and gods house, and he doesn’t want our spiritual disease. In our reaction to the emotional moment in the secondary persona of human being, depending on the safety element in the environment, in the moment....We actually never had it to begin with, the animal instinct to live through and earn from as other animals do. And the fight or flee mechanism we react to emotionally then is only old genetic programming from the apes dna. After the Anunaki, beings from another planet who saw the human condition that was already here and said “I want one” for myself, so they made the template white human, because before that moment all there were, were colored people. Adams feminine element Eve was the dumbed down version of our truth element. The first one told this being to bugger off when he told her to obey the regenerated masculine element in Adam, working in opposite of how it works in heaven, where the male thinks only through to its end result of the life and life quality from knowing truth and empathies wisdom. Her name was Lilith who most believe her to be evil since she rejected this Anunaki who demanded from the purity element of god, to be then impure, so the dumbed the element down and called her eve. Then the physical female was made later after these first humans were first. Made to work in the labour camps and put in cages at night to sleep but who after the Anunaki left convinced they made the secondary human allowing its own will to help them instead of slaving for them, were allowed to reproduce their offspring. Those ones left the first humans alone but we were then intercepted by two other races of beings not from earth either. Who has been manipulating people ever since they landed here from mars, because that planet was destroyed I think in the attempt to destroy the earth like planet that is now our asteroid belt. That planet posed some type of threat to the mars colonies for what ever reason so mars decided to destroy the whole planet and killing their world in the process. They crash landed here and saw the human condition and said look what we can d with these ones. It was those ones who was labeled the fallen angels who taught the secondary human to

kill for their god, and that fake Jew religion started but a Jewish person believing in the life source, is as much the god's self as any Christian is who believes in their hearts of this fellow named Jesus but despises what the church does to children and I bet you anything the real Jewish person hates the written instruction in the Talmud in describing to the priest in the proper ways to have sex with a three year old. But in the beginning, making the first Adam that finally worked- who they simply killed the ones that didn't work.. had to be obedient and directional so they programmed us specifically, to react to emotional fearing using "that animal instinct" of the ape, to protect flesh from being torn apart and eaten by the other bigger stronger hungrier animal-but used in us "as emotional fight or flee". The other DNA was taken from Sasquatch and Neanderthal and from themselves to. Who I believe the Sasquatch evolved into the Neanderthal who then evolved into what was to evolve then into the human being, but the secondary human killed off all the first humans because their religion and priest and priesthood of evil, told them to. Who the secondary humans were preprogrammed to believe in their hearts that god would punish them if they did not do as the priesthood told them, so they did exactly "as god willed them to do", but as according to the priest of that religion-that came from another planet as well-this religion and belief in a god who loves to hurt children is the fake Jew religion with the Talmud explaining to its priests the proper way to have sex with a three year old, and still have their god see that child as a virgin. It is the same god and leadership that once demanded that parents prove their love for this jealous god by giving their child to the priest, to then throw that child onto a burning hot statue of their god figure until it burned to death. Which is the dominant religion and religious belief in the Canadian and American government today, hiding the fact their behavior exhibits behaviors from a Baal worshiper, still infecting the human being in emotional content and, having it still working "in the order" it was meant to back then, just in different ways now. That produce the same result-and the same intent then is displayed in their motives and pay off in their behaviors that expose their lies for what they are. For lying to each one of us while dismantling the human will of the self, as any pedophile would a child, because behaviorally it is the same intent to remove human will from its emotional truth, just for different reasons. In which requires a specific set of tools

and formula of human will removal which is the goal for any spiritual predator hunting for something physical, knowing itself has to deceive and lie spiritually in order to earn the fake trust needed "to pull it off" whatever that goal of extraction might be, and all because this person didn't ask and refused to accept the answer no if that was the case so itself seeps into its lower self dominance to search for the lying knowledge of emotional deceit to make it all work.

Now is the ending of the last life cycle and the new one began! and "this time period" is about to be flushed down gods toilet since this Jesus fellow showed up and then showed "us"twice.

Anyway....

Read on a discover "a few other things" some didn't want you to know, and didn't want your parents and grandparents to know, but now that you will know what we know of what Jesus came to tell us of the keys of our human knowledge, then you will produce offspring that is without this spiritual infection of separation, division and conquering of the human spirit. Through the self worth level, and its puppet puppeteer relationship dynamic leftover, while growing into the adult in emotional maturity, or at least this is the hope in each of us for our children. Spoken to self in the silence of this feminine element/birthing element of a "life source" inside the person, to offer this person the hearts thought of raising the child with love and concern and the emotional nurturing we all need, but parents fail in that hearts thought because of their lower self dominance. In which then kills off our spiritual "re birthing ability" of truths knowledge, and allowing then the human being to not understand its own emotional depth anymore. Know truth, and truths knowledge from its birth in new emotional experience. In which the emotional response is born for the self to react to, in new emotional experience, knows from the knowledge of new truth. Who then, when the early child becomes aware of its truth, when the emotional impact is birthed for the child to experience the knowledge of truth emotionally. Following it then naturally as expression maker, and path maker in the beginning, developing the uniqueness in how the inner self reacts to that emotional knowledge, in its new state of becoming aware of it. Becomes then what all

children do with their knowledge naturally, they express it out loud to share their "happy joy" of realizing this new knowing emotionally, and expresses that spirit and spiritual nature out the "secondary" human behavior-while acting on hearts thought, from the first human behavior- in thought itself. As the result of the internal spiritual copulation with god the life source or, calculation in hearts thought process with one of the two wisdoms concerning the same experience and the same emotional truth of the self, birthed in that moment. And if you decided already that in fact you do have a higher and lower self, then please read on because today is the reason for Jesus in the first place, and the life of your human spirit depends on knowing what Jesus was here to teach us. The real Jesus, not the one they took and utilized the tools and tool box and formula of human will removal- from us all. The first human behavior is choosing between our two wisdoms, the first wisdom of the good, or the angry persons wisdom, which choosing one of them is a behavior in itself since it is the beginning step in producing the second human behavior that acts on the first, in the hearts mind of self. Or, calculation in hearts thought with the first wisdom of the good, with the life source and self together as one entity, who they didn't know to say "calculate hearts thought to form intent, and formulate then the behaviors" that will actualize the goals success. So they explained it in a way we would understand in the spiritual copulation description, between the masculine and feminine element of human spirit. Which does take place with all the love in the same heart of the perfect mother father, just not sexually –obviously. But is an interaction of a helpless child in the grips of a spiritual darkness attacking infiltrating and infecting its first wisdom of the absolute in Divinity. Given to self because in gods heart, with you in it- decided you are part of that same divinity who evil targets and "pedophiles" in "the children" of our aspiration born. Form the spiritual copulation between the masculine and feminine elements of the spiritual divinity you are-birthed the aspiration with all the emotional content in the same purity as the early self ages zero to five years, in that new understanding-in the now as the adult. And in the same way that new understanding jam packed with the excitement of that joy is the same child just leaning, and who god and the entirety of the god head "sees as spiritual children" because nothing physical is in the spiritual heaven, in which we all hope to end up in "after" the body, the living bio

computer and spiritual conduit, full of tiny spiritual conduits that allows spiritual elements through, to live in the physical substance of the body, is dead. And when you sit in your own emotional depth and her wisdom, will show you how you are that child in the happy joy about to express itself s naturally as the young child did before itself became re programmed into another hearts thought produce processing the fear of self expression. Wanting as much as the early child in hearts thought, thinking of the expression of your hearts thought as the adult, is still the same spiritual or emotional thought and thinking process of expressing with words- the truth moving emotionally in the heart o self. So maybe then this is what Jesus meant by returning to the child, in that genuine hearts thought of the expression "willing again" to self express any truth of the emotional self. And we are going to show you how to "pull that off" so yu are never pulled away from your first wisdom ever gain if that is your intent.

Which sounds easy doesn't it? To speak that life out loud...sure, until you are stopped dead in your tracks by the fearing element of the second wisdoms power to separate self from that happy joy and communication with the life source speaking uniqueness of self to self, in the emotional experience. And then offer hopes language in the silent voice of self which includes the reasoning thought we look into to understand the emotional content, and in these ways are conversations between self and the life source.

Did I accuse the fake Talmudic/catholic god of being pedophilic? But what does spiritual pedophilia mean? It means two things for two separate circumstances, first is the fact that a physical pedophile must deceive the early child emotionally, plus a lot of other things to implement, so itself can then achieve its physical sexual goal, using the evil in the tools of spiritual removal from physical body, in the perception element of the child. Those deceit manipulation tactics of human will removal is the first way in to the child from the pedophilic stand point is the removal of the child will to remain with its truth element emotionally, of the physical child's "spiritual children born" in masculine and feminine element of spirit, born in hearts thought, because those aspirations are the spiritual children the physical pedophile manipulates, to get at the physical child's flesh, and his is not me labelling them spiritual children, this comes from the Dead Sea Scrolls.

The spiritual pedophilia are those tools and tool box and formula "of human will removal" "utilizing" the tools tool box and formula of human will removal. Removing the emotional truth of the self "from that idea" is the first separation. The second removal is then the removal of the human will to maintain the emotionally charged truth, when fearing the rejection of the self expression, needed to realize the full potential of the idea. Now born on the outside of self, through self expression, being then a spiritual womb in a way, in the expression itself but the real spiritual womb is in masculine thought, and I'll show you how that is fact also. Which is what this evil in the second wisdom accomplishes in each of us, in early childhood and I'll show you how that works to. The devil in scary monster form is a lie. The devil may be evil, but its evil is limited to spiritual pedophilia as lightly described here. And this evil monster has no other stronghold on self other than the same emotional strong holds the physical pedophile has on the physical child's emotional structure- manipulating it, and exploiting its circumstance. I will show you this is real also. Doing so in the way of becoming then "too afraid to self express" its idea birthed by a divinity from the original spiritual copulation between self, and the life source informing self of what the truth is, birthing that information from itself informing the self this way, of the truth itself. A good example of how the truth is forcibly removed by evils second wisdom in today's world in the environment {which our intent is not to piss you off but to know what predator is at the gate...} is to look at the second wisdom practice in the Canadian courtroom. So in the way they demand you obey the second wisdom in court, is them saying you will worship the wisdom of our god-since we demand you leave yours, and the truth at the same time when the second wisdom needs you to kill part or the whole of any the known truth, known to self. And when you speak truth in reality, you will revert back into the submission element of the second wisdom in the judge. When he demands you recognize the lie as truth when crossing the fake line that puts you on the fake water that changes the law into a fake law based on lies and its spiritual pedophilia that says "obey my second wisdom" or this very bad thing will happen to you. Just like the old days when they threaten burning you alive for understanding your own god. Telling you that what they're doing is evil so they just killed you when someone spoke from their truth the first wisdom of the good

and its justice. You become afraid to use your truth and you remove your human will for truth, just like children do in the same grips of this emotional deceit I call the "spiritual pedophilia" in deceit manipulation before the sex takes place between the adult wanting to sexualize a child. But in court and between two adults where one is dominating over the other, demanding to see things its own selfish way, is the same spiritual pedophilia and the same tools and formulae of human will removal, as any physical pedophile uses on the raw and emotionally programmable child needing that child removed from its oneness element in its emotional depth, and court demands you do this same thing because this is how the secondary wisdom communicates through the cunning deception of emotional manipulation, of human truth and trust leveraged by the fear of loss of something specific to the emotional need, and its physical safety element. All the while targeting self worth "to lower it" just enough to develop and maintain the puppet puppeteer relationship dynamic between spiritual predator, and the emotional depth of the natural person in love with its god, in the first wisdoms knowledge base of intent making and path making ability.. and I will prove this to you. Because just like the child this person {in court} doesn't have the choice to remain in the full bloom of truths emotional response system, in this living computer housing a spiritual god in influence, in the first wisdom in each of us. When faced with the judge, jailer, cop, and system that target's the hungry flesh of a child/person/self and sells drugs as a side gig. And when in complete submission like this, is exploitation of the child's emotional structure infected with the second wisdom in that circumstance. Where the tools and formula is exactly the same working each of us, forcing the young natural higher self, into the lower form of self, in the self as the young child just learning through its new experience and programming itself emotionally to believe and trust itself, which requires the acknowledgment model of being parented. Or to continually feel rejected for its self expression, never learning then to trust and believe in its own inner self. But because of the rejection model of parenting, the child/self is not having its emotional, and physical, and then "it's spiritual needs met, in that rejection model of being parented. Not experiencing the acknowledgement model means this child grows into an adulthood without trust and belief in itself, and it is then its lower self dominating its true higher form of hearts thought

processing first, the uniqueness of the inner self. And then attacks with intent the self worth level of the inner self, to then look into the self worth mirror, right before the expression of known truth in you. Which is something everybody does before speaking, we check our own self worth level to be sure we are worthy enough "to ourselves" to share the inner self in some way with others before speaking and knowing this evil looks to separate us from the first step in knowledge recognition. We have all experienced this with loving/liking someone who might or might not share that feeling with you. We think of approaching and expressing heart felt words to that person, but checking the self worth mirror first, before the approach were i checked to determine "my worth" in the eyes of the other person... where I myself and many others were first defeated by the lowered state of self worth in ourselves. And no loving words were ever exchanged because I lost my human will to follow through on my heart felt depth. Now think of that seething in the court system who does not burn you alive anymore for wanting to remain in the worshipping of your own specific god, and who has the power to throw you in jail for refusing to leave your practice of worship after they say here is the lie you are forced to see as truth and follow that path making from an intent made to remove truth from truth from the human equation. Now think of your self worth mirror in your relationships, do you feel safe to express your inner heart felt depth? Is it safe to do such a thing with your significant other? When we look into the wisdoms of the higher lower selves in each Canadian citizen, and look to see then where justice can be found emotionally and spiritually, you can see clearly how effective the second wisdoms implementations have destroyed our connection with the life source in every area of life, but only because one reason does this work, and continues to work. It is because self doesn't know self and if self did, then that self would stand and say hey wtf? But we don't because we are all emotionally separate and spiritually conquered by the division in our two wisdoms producing opposite personas of the same person, because the second wisdom looks to change the meaning of truth into two different things. Through two different emotional experiences of the same exact truth experienced in the now, you see? No? you don't have to because this training produces automatic results of a conditioned balanced determined self left without now the unresolved pain being used this way by

outside spiritual predators. You become pain free and fear free of any emotional fearing you use to do when left unresolved from early childhood programming from the rejection model.

So you are required to know self quick, so you can be at the ready to remove infection, when he comes to "remove" those dictating from their infection, which includes those who just don't give a shit. And those who say no, what about this-that- and the other thing... or, I needed to do that, because of this- and this, because of that- in their endlessness in the justifications they were taught to use as tools, to undue accountability for themselves because the tv told them to. Removing themselves from what is natural at birth in the balanced determined self, born that way ready to be reasonable in taking in new information and apply a known balance to the newness of it all, which children do naturally when they feel safe. But after rejection and five years of emotional rejection, creates the two other personas developed in which there is only three types of persona's developed, and being balanced is the first one. Who is then changed into either the selfishly determined self, or the pleasing determined self. Of which are persona elements of the lower self, and the second wisdom infection element directing those two personas, with its influence in emotional darkness to be applied to all new emotional birthing in the now, between the masculine and feminine element in self delivering the aspirational spiritual child. That needs to darken and deaden the emotional moment in that aspiration to keep it then feminine and never actualized through the masculine element of intellects logic. In order to install, like a computer program -one of those two personas in the moment of relating with another person. In order for itself then to be projected spiritually from the secondary human behavior, of which "acts on hearts thought". The first human behavior is to choose the wisdom of either the higher or lower self, to calculate hearts thought with in the moment, after the birth of the new knowledge and its aspiration, to then birth the intent and projects spiritually the will of the inner emotional self, you see? The second wisdoms algorithm is to come into that daughter element of the emotional self spiritually, to then develop the angry persons wisdom in early childhood and that's it, until the first mistress wisdom can be communicated to the child from this second

wisdom and its bio computer hacker piggybacking on the electromagnetic pulse in the earth and into our hearts. The mother god element, which is "movement" as described in the Dead Sea Scrolls and labeled by us as "intuition and gut feeling", because the tv told us to.

Evil and the angry person's wisdom.

And then when darkened emotionally and split in half spiritually, know your goodness doesn't come from our second wisdom, and your darkness and or evil doesn't come from your goodness element, the first wisdom of the good. Because they have to exist as opposite and apposing wisdoms in order for one into be then chosen, you see? And now you understand duality of our wisdoms the place in fact that new knowledge is born from, since she is the spirits birthing element of wisdom. And the angry persons wisdom only a fake duplicate competing with her in us, for us in our intent making and our path making knowing they have to keep us in our feminine element to keep going in their planning. Looking into all the emotional truths of the higher self to determine the end result in the greater knowing of one thing, that's wisdoms job to do isn't it? And then it's the second wisdoms job to kill this spiritual self off before speaking its happy joy out loud "and be filled" by its commitment to remain with that emotional truth. Remembering the unsolved rejection and its the negative emotional energies of feeling humiliated and ridiculed and embarrassed for having the emotional truth in the first place defeats the self expression and we sink into the darkness of the emotional self and this second wisdom won that emotional moment, you see? And if you find the courage you need which is the exact same emotional courage needed by any adult survivor of early childhood sexual abuse then you will do fine because the emotional damage and emotional death is pretty much same thing since the sexual pedophile and the courtroom judge both use the same tools and tool box and formula of human will removal, and who both count on your self worth mirror "to take you out" before the judge or physical pedophile "has to itself" remove the human will from its own depth of emotional truth, in the first wisdom of self. As we both know already know there are others, some good some evil who does this same emotional deception application of removing from us from the life itself from our hearts, but those one

are not the one needed here to explain to you what is up in you- and what is up in the empty spaces of the spiritual predators who feed off our emotional energies to get what they need from us. Truthful people, who gives a shit, all god is looking for in terms of qualifying to be accepted into an infection free realm of existing with him, after the bio computer dies. Everything else is infection and in need then of a cure and Jesus brought the cure, so find your courage please, you'll regret it if you don't do it the easy way now. Which is something millions have done already without pain free result like this knowledge base promises you. So you can do it to with the promise of that and the self actualized self like you haven't experienced yet. Or, continue to live in an environment of the kings and queen still making threats of emotional and physical extortion saying if you don't, this very bad thing will happen to you. Have your children and yourselves targeted for addiction and have then you vote in these same evil intent making people time and time again with an entire army of government workers trained in the policy making communicating that through their second wisdom of human will removal and suite of few of you are in danger of not being kept on this earth when he comes to separate the good person from the evil and ungodly ones. Not as any kind of punishment because there is no punishment as you think there is, there is only experiential learning who some call a living hell to experience. But because the darkness infection left behind threatening to infect god's realm of perfect light you see? And like I said, this evil has no stronghold in any heart of the educated, balanced determined self, and is what we will show you how to achieve this mindset and its programming element that will keep your realignment "tuned up" and allows you then to keep your innocence in its happy joy. But finding themselves just as worthless to find their own light anymore, because their feeding into our their own darkness at that age but having no choice but to follow this second wisdom in the self protection need, for the emotional being currently being traumatized in the opposite of what its heart needs. Which is acknowledgement and not the rejection instead, at that raw and emotionally programmable age. Placing then the self worth mirror into position where self now looks into each time before self expression, to check for worthiness and then safety... Installed now as its emotional self protection behavior, igniting the animal instinct to fight or flee but for the human being is emotional fight or flee.

And when faced by a pedophile as a four year old or in front of the spiritual pedophile as the adult pretending to be on the water {wtf} the in both moments of emotional decision making of which wisdom to be with then in this environment filled with spiritual and physical pedophiles targeting all children they see, and the rest of all children in Canada, for addictions "hunger purposes" as witnessed by the both of us growing up in the Canadian system of the monarchies rule over their subjects known in their religious belief as the goy, but what we see each other differently. But the thing is though we are under that type of rule over the Canadian population thinking they are here what protecting us? Helping us? Looking after us all? Caring for us? All of which we do expect from a decision making entity that leads an entire country of people yes? Both the court and physical pedophile who use the same exact same tools and formula of human will removal so the second wisdom controls both people because the threat is so devastating to experience in fearing it that we gladly give in.

The pedophile of hearts thought process processing the birth of spiritual children about to be naturally expressed in words, but destroyed of that positive emotionally energy and replaced with the emotional looping of the three negative emotional energies to feel. Re lived in that emotional moment and in every emotional moment when you do not understand this stuff, and you do not know yourself the way you need to. And plus, you need to know what your hunter looks like yes? Like I said we have two witnesses not just me.

In which we know in our hearts as two of the most dangerous threats to our children with the other one targeting them for hunger machine status for their candy store variety of addictions for sale I mean alcohol weed pharmacy drugs cigarettes, all of which you do not accept from any drug dealer until the monarchy can make the end result money from this death generating machine both in physical body and spiritual heart of its victims left behind. Excuse me but what gives them permission to search out and find the drug dealer and his deadly muscling element only to then become the deadly if need be "muscling element" for the drug dealer-hopefully it's a gun and not a cell phone when they shoot you. Or hopefully you are not charged with a crime you didn't commit and are put in jail for life, or a devastating amount of time for something you didn't do. But they

already burned you alive in your heart with the first wisdom and the truth when they told you to cross that line and join them "in pretend land" that gives them the power to do that to us? Are you kidding me? In what world is that ok? And the root of this is learned in our emotional programming as children. Directed by unresolved and uneducated parents living in the same environment teaching us their emotional darkness and not their emotional light, because the light was robbed from them, the same way it is from us, without them knowing it. That just adds up into to the distortions caused by the second wisdom, and this person is truly then emotionally deadened to the point of being exploited by a puppeteer of human emotion. Who like the physical pedophile utilizes the tools and tool box and human will removal formula first, to receive the child's permission, to then be labeled "not" a rapist! Because not only is this offensive to the physical pedophile because rape isn't in its heart while targeting the young person for sexual gratification, but is an insult to his heart who believes in its romantic relationship status, with a five year old that itself is doing nothing wrong because love is included. And as it turns out, the second wisdom in its unfolding as an algorithm opposite of the first, of itself in its genuine intent to utilize those same tools and tool box "and formula" of human will removal -for the truth itself in the same government system with now different methods of implementing the fear of loss emotional programming to control the lot of us from ever entering and staying with our first wisdoms knowledge base of self. Use jail and addiction to control us instead of burning and torturing but the rules and policies are the same pedophilic dictatorship to obey second wisdom and not the first, ever or your going to get it! As to remove the first wisdom to then influence things of the darkened emotional state, and its hunger element left behind. Leaving behind then the removed human will for truth now, because of the emotional attacks rejection places onto the heart of the raw and emotionally programmable child. Who believes you in your light, and believes you in your darkness, believing its light through your deceptions of self rejection placed on the self of the parent. From the parent in its own distortions of rejections programming this adult brought with itself from its own early childhood you see? And then transferred that programming onto the next generation, not because the parent is mean or evil or anything like that, but because self does not know itself before heaving child.

And this training will change that and you will become a professional parent when after personal development training is finished with here "practiced" for a little while before becoming then completely filled again. Not ever needing anything from anyone in having then every single emotional need met, from that spiritual influence the life source calls the Pleroma's spiritual fullness element. .But until then, we are all stuck in leaving self in self protective state of emotional being, now stuck in an amplified fear effect of the emotional truth of the living, higher, natural god self we are born as. Making it then unnatural fear to feel and if that's not deception then I don't know what is. Drains self of the need meeting fullness element we receive from the life source when aligned normally, and obeying the life itself, in the life source explaining truth and emotional truth to the inner self, heard in the silent voice, who we speak with in the same silence in hearts thought. And who self, and the selves of almost all people decided long ago, where itself wanted "to end up" after the death of this living computer/body, acting as a physical conduit for spirit to enter it, dies and spirit goes back to the heaven in your heart. And the seed, who carries then our own feminine element back to the god who loaned us the seed, to see if the self had graduated and evolved spiritually. Which was the way we thought it was going be like, when the body does dies. But little did we know what was truly happening in the middle place, acting as what we thought was some kind of weigh station. Waiting to be evaluated by god in terms of knowing the goodness or the evil that comes out the person in everyday life, communicating our lost and angry and unresolved emotional structures with each other, even in our closest and most trusted relationships do we stand on guard all the time. In the animalistic element of self protection mechanisms set off when the emotional human being thinks of self expression. And when a human being does not hear its own self expression, itself does not learn grow and evolve the way human beings need to, when we do speak out loud to hear ourselves and learn from that experience, in and of itself. But taking then that persona made into the relationship to create the chaos or the peace in that relationship. Depending on which of the two wisdoms now dominates the self and other person, because the evil does not come from the knowing of good, and the good is not rooted in the evil. But because of the first wisdom we can take that evil and create the good from it, in our rebirthing ability.

To which is the target and reason why we are being hacked like as described in our living computers, "to get at that rebirthing element". Because all they, the committed evil can be, is a thought process that mirrors a computers algorithm, because they do not have this goodness element in them, and they do not have the re birthing ability either. And without that goodness element in them there is no wisdom birthing its knowledge in them, so they want ours. And have to go to some pretty amazing, but amazingly horrifically evil methods of achieving our first wisdoms rebirthing ability. When the second wisdom effects are finished working the emotional response into its emotional death, and emotional suppression - then this self drains itself of that need meeting fullness element, that meets the emotional need on its own but with it gone, leaving then behind only the longing for it to return, after it has drained out of us as intended by the second wisdoms domination plan, evil has for each child. Ages zero to five years old, the emotional programing years of belief and trust establishment in the inner self of the child. The brandnewness to everything around itself in its environment, and everything then a natural emotional expression bursting through the happy joy of the child's innocence, in that discovery, outside itself igniting the spiritual element of oneness, with the life source by itself. To react too emotionally and internally, when experiencing externally, with the emotional structure of someone else, in their uniqueness element of themselves. And adds that new knowledge to the knowledge base of self, in those first years of emotional programming in the experiences with its environment, but first within its experiences with its parents, who this child runs to, to then make that expression. Expressing that burst of emotional energy who most see and feel as the beautiful spiritual innocence of the early child.

The educated and emotionally stable parent will acknowledge that expression for its emotional content, and be just as excited in the child's new learning as the child is for itself in a celebration of self discovery and the discovery of new things to explore in its environment. Because this is the true beauty of human spirit, to be able to detect human beauty itself yes? Because otherwise, we would not be alive in our rebirthing element, but relating to computer like algorithms of predictability and not of life, which is not predictable. This evil needs the self then

to continue to be drained of its fullness element, which is incredibly difficult to pull off, but "they did" in fact pull this off, in each one of us with the help of those trained and those who know, but choose the second wisdom as their god and their god worship, which worships definition is that which self sits in silence with all day long to relate with, as its truth- this is worshipping someone. The evil spirit influence who does in fact influence the lower self wisdom, and influence those who love their second wisdom better than their first. And now we all have been left in place internally not feeling the fullness element anymore, and longing for its return. Turning quickly then into "a hunger" for its return. Enabling then the need to distract self from its unresolved state, this self now is looking for the means of that distraction that leads human beings into addictions to physical substances. Which most are psycho active substances and deadly for a lot of people, and devastating for the ones who survive that disease element on this earth. But addiction does not limit itself to the psycho active substance when sex is used, and food is used as the distraction element of the emotionally spiritual self. Trying to distract itself from its unresolved emotional state derived from the parenting that rejected the child self expression, of which drained self of its fullness element. And now is searching for an emotional distraction from that unresolved state in being. Who the self at that that age emits then a different vibration in the electromagnetic pulse from its heart, in which the evil spirit looks for "to invite itself in" with that stream of physical but invisible energy, of electromagnetic pulse. Which originates in the earth, traveling directly into the human heart of the exact same frequency, offering then the spirit of life to the inner self of knowing truth, and feeling truth to react to....in the cognitive elements of self, for which there is three also. In the first three feminine element of birthing and rebirthing ability of one truth to recognize acknowledge and react to. The child takes its three feminine elements to its parents, who does not know the first two are there in the first place "to serve" the last feminine element of the human being, in the early self. Who is the feminine elements of human spirit of birthing and rebirthing ability, because of the stolen seed {thank god for thieves} kidding but without the thief there would be no secondary human, and no visit from Jesus.} "that conduits" the spirit of life to enter human being and be its truth element with an emotional response system of understanding and

feeling then, that new truth. You will see clearly again and I swear to god the blindness thing in the bible was symbolic description of helping to see spiritually in our "hearts mind", and in through our emotional heart. But I also know that people when aligned, have the power to heal physically like that, because they found a way to access their pulse and work with it, to do goodness with it. Its true, the you tube told me so. And plus did you know there is a cure for cancer who mr spiritual scientist discovered that "sound frequency kills cancer cells" and cancer now curable...did you now that? No you didn't because like drugs and misery cancer is as profitable, selling false hope to patients that sound itself destroys in about ten seconds. This is a direction to speak just like everything else is for your human will to choose from, in your human will. And what they will use to defeat you again...and again and again and again having the same thing happen in the same way but through different ways of behavioral implementation of controlling and then defeating ones own human will for its emotional truth, of itself. Domination over its people, using fear and violence to extort spirit and we do this to ourselves -this programing is that effective to take with us a mainframe programing we get in early childhood. And since they can no longer tell parents to sacrifice the child in old ways, then at least your child does not get sexually assaulted and then tossed onto the burning red hot statue of their god. But if they didn't then that was labeled to, enabled then the punishment of burning to death as punishment for blasphemy. Masculinize your feminine element and establish the skillful emotional management of the balanced determined self, because this is what the god of the good "needs from you" to do, in order "to be received by him". To be rescued from the middle place because the middle place is not represented by those who love their first wisdom there. It is a place where we all end up to be then evaluated for what we know, and if we know "or not" a very few, specific things then....and if you do, then those cowards turn tail and run away from you. Because they know god is coming to rescue you from the ones claiming to be god. But needs electronics to make the influence accessible to istelf, in self, to have self then believe its new wisdom that begins in emotional deadening. That then needs emotional self to continue to believe self is still with its first wisdom, of the normal self worth level, as this evil hijacks the truth element, while having this wisdom infect the first. To make look like then the

emotional darkness in self "is truth" when it is not truth "at all" to believe of the inner self. And we will prove that to you, proving then natural self worth comparable to gods self worth level, which is simply a normal level self worth level. But that which life itself is derived from because no one lives in hearts thought with deadened emotional structure, it just doesn't work like that algorithmically. And speaking of computer like algorithmic state of our emotional dualities, creating then our spiritual duality since it is from us emotionally, do we feel each others impact on ourselves, yes? In good vibration or in the negative emotional energies caused by a duality element that makes self question the other persons words of intent making, which then movement speaks to self of that questioning. In the silence and silent voice of silence herself, who is the feminine element of the Omni present god in that seed, giving us "the truth element of awareness" and its emotional response. Giving to the electromagnetic pulse that delivers it, then accessing the physical heart for translation purpose. The emotional translation in after emotional response to the new experience in the right now, allows self to know its future path making of its intent. About to be birthed as the result of learning something new about self, in that communication element between self and the life source. In the silence of hearts thought in our first wisdom, another birthing element in the seed. So that's two out of three feminine elements "in this stolen seed" left to be though "on loan" to each of us, to see who will want to become the children of the first wisdom of truth in themselves, and have nothing to do with the pedophilic second wisdom. And I say pedophilic because I will soon show you how its need and every intent itself makes in us, to then influence and maneuver the emotional darkness in ourselves for specific result, is a pedophilic as any physical pedophile is who must first disarm the child emotionally from its own root in truth. Draining us of our fullness element of emotional need meeting capacity, as explained already. but so the self and the second wisdom can then do the voodoo this evil does so well, while manipulating the exploitation itself, in the hacking our living computers. And we are not talking about the obvious evil, but the hidden evil that has almost killed this world, but did in fact deadened the inhabitants of this world first to allow it otherwise of course we wouldn't have allowed anything devastating. Possessed now with "the second wisdom of the lower self, to sit and think through its

emotional moment fueled though through low self worth. Without the person knowing in childhood and now evil intent goes to work for the next five years to destroy the connection between self and life source to create specifically "the hunger element to think from... instead of fullness in each of us to think in terms of. Which is its only goal intently –who others then take that lead and do their own bidding, but taking from the lowered self in what fills the empty spaces, left in the agony of that emptiness people then justify doing harm from their second wisdom. Because of this and that and so many other things that gets the person to act in that darkness. Who do you think you are asking if not your own silence of truth for permission to disqualify a truth or a thin sliver of it? Speaking back to you telling you, telling you not to act in any shade of the darkness of self. People think it is themselves but it's not, it's the mother god and mothering god influence there as another form of the inner self. And also as physician, which is also very cool since she has the power "to disappear" the negative emotional energies, and chase them away like they didn't exist in the first place, she just needs help to do so. The negative emotional energy derived and generated from the lowered self worth level is a feeling we take with us, all day long, but have to remember all that stuff in the morning to renew the emotional death the next day, other than that we go automatically back to what is natural truth and inner peace in ourselves. Since we forgot for a second the original wisdoms input is constantly at work working to produce the awareness in truth of the emotional self, and is not clouded in that moment. But births the knowing of what she sees as general emotional knowing in self, of self to then produce the knowledge of that accumulated truth learned in new experience throughout life. Now a knowledge base of self our first wisdom looks into, that confusing mess to determine reality from fantasy. And to act and work in reaction to its knowledge in the emotional moment, since it is the moment that means anything. Because it is this moment memory looks to –to then use "forethought" to see into "an assumed" future, of what that experience might turn into. And from thinking in silence with wisdom like this, the self determines cognitively what self is emotionally, in its value in worth. To act accordingly with the heart's thought fueled by life in its hope and faith, we do feed from this seed. Which in the now, is the moment.... "important moment" for each wisdom because each wisdom

knows how your automatic algorithm works in the moment to establish the memory in the first place, for wisdom to evaluate from -you see? And guess who these three birthing elements of the spiritual self relate with? Go ahead guess.....it is in with the three masculine elements of the human being, married to the three feminine elements of human being. In the intellectual logic that shines a light on the emotional truth of the self, who then with the last masculine element of intent making, understanding the emotional truth in the moment and what it means, this self acts on the now spiritual male child. Who took its feminine element and masculinized its own feminine element by applying the skill set and awareness element in itself as "the balance determined self" in that intent to act. Which to masculinize the feminine element of self is what Jesus meant in secret saying one hindered fourteen, which means to know self and develop the balanced determined self, and act and project the spiritual nature of the balanced determine self, that's all. Then your in.

Ensuring the action itself does not violate anyone else's truth because the wisdom of empathy in the heart speaks this to us "all day long" until we embrace its intent making or completely rejects it. Being then what some people have termed me to be, which is an asshole. In my secondary persona making in its root is a self protection behavior I needed back then, to stabilize what the second wisdom continued to destabilize. Which is what it does to all of us in the same way, and I challenge anyone to explain a better logic than ours. This emotional understanding of self now in daughter form, is what the evil "comes into" to corrupt in order to deadened the self emotionally. And switch wisdoms without self suspecting anything because the young child believes the low self worth level. And brings this into its adulthood. And have self then feed from hunger, not maintaining the emotional work needed to maintain fullness. The emotional self isn't now getting its needs met and fullness is slowly draining from us in childhood after feeling rejection enough times. The spiritual seed, housing two birthing elements of knowledge, serving the last feminine element of the self, with those two things or emotional truth and the wisdom to understand the emotional depth in self in its own rebirthing element only gods get, and the reason for the hacking itself because an intelligent being wanted it without permission to take it. And

when we engage in our first wisdom, then we get to keep it for ourselves and become a birthing element, and not its lower level of rebirthing element, we have now but still is an incredible thing and gift to receive. Who aliens all over the universe envy us having, and cant believe we get a birthing element itself {if it is earned} because such a thing is unheard of. When self knows self and then engaged in with a another person who if the two of you are in oneness state in themselves, then the relationship is as balanced, in oneness state spiritually, together. Believing the same truths and trusting each other because self is with truth in itself-so is it truth itself, or the trust element that bonds two together in one trust in spirits heart? {feeling safe, with feeling safe in trusting another person} so in no other way an anything else then be the holy spirit other than trust because of its invisible and non physical ability to join two physicals as one hearts thought of trust. In this beginning of that new discovery of self, in self expression of that spiritual light now translated through the living computer, the body is. And normally expressed through human will to be with, and speak from, its own emotional wisdoms "of the inner emotional self". And when self feels strong in feeling that oneness element again, this self can willingly input its own wisdom, without fear rejection at all. And feeling the strength from her is just continual strength birthed and strength building, once you understand a few things and apply then as directed, then you to will find and rediscover your oneness element again. And have all emotional needs met by fullness because that's the way it suppose to work. Jesus's "second coming" in the first part, explains all that was said in is first appearance, who all along after either his death, was the Christ consciousness speaking to people back then-which they wrote down. And now in our Christ consciousness, which is "very simply" our intellectual wisdom, that does find a light in logic that gives the answer self is looking for. To then complete itself emotionally in that moment, and in every moment. But that knowledge base has been so successfully supressed by the media, and committed liars "of influence". Claiming to be with truth and other first wisdoms "sister wisdoms", caring for you, but really in their hidden agendas are targeting something "to take from you". Which hurts a great deal to understand later doesn't it, to know the love implied in a trust developed was later to be found a trick, and lie and betrayal of that trust...? The other one

claiming to be a god, wants our emotional death. He wants you continually feminized/emotional and angry, left without resolve or ability to resolve emotionally...and incomplete of the balanced determined self. So you will finish off the experience with the emotional response of incompleteness in self, in the selfishly determined and pleasing determined lifestyle of the second wisdom persona making qualities of itself. The balanced determined self teaches you to masculine the feminine element of self and keep your spiritual children whole and what is meant in his final secret saying to masculinize his feminine element so she isn't the one speaking from his unresolved heart, you see? It's what his friends got mad at him for, and what we get mad at ourselves for, and who we ourselves don't feel good about acting in our feminine element/emotional self alone, without balance because it's just embarrassing when your heart isn't turned evil. When you are committed evil ten hurting others is fun and enjoyable, but even those ones if they do their own about face is allowed to cleanse themselves and be accepted also. When the feminine element isn't yet masculinized, and self acts in the second wisdom without thinking-in the "one up man ship" competition with each other because the tv told you how to be your own uniqueness, and what to do with it. The self acts on its angry persons wisdom, acts, hurts and leaves the other person feeling like itself won the competition. Leaving the other one to feel a lowered sense of self worth or the other way around because when competing with each other, as seen on tv the competition itself is to see who lowers each others self worth level, and the one who lowers it the most, wins that competition. And evaluate in memory of the emotional impacts birthed after the fact, which always happens. To see where self can improve in its unresolved anger generating these things but this is a trick to keep is all turned and not trusting each other. Needing the need to be met with the masculinization of the emotional self in daughter element, but knowing a different way of communicating, knowing now to take its emotional self and establish the balanced determination in its end result of acting on a "heart's thought". In which we will teach some very basic communication skills to practice the new you with when after you realize the end result of the self healing and self actualization meditations. That removes unresolved emotional pain and its programming completely away from you, who then the mother god "and physician" helps to heal the damaged heart. The self

then becomes without an emotional knowledge base, and has to then reprogram the hearts core belief in self protection behavior because that is gone as well. But don't get me wrong, you still are in control except its real control without anyone now deceiving you, and getting away with it because when your know this stuff and know self as the result, then you become that awareness element itself. In a purity form of a spiritual awareness element made by god and given to the uniqueness element of self, who still has to discover the true power in a thing from god like that. Don't you think it would hold a certain type of power your not yet aware of? {Let your low self worth try to fight that logic} because that's what it is, one wisdoms knowing in self worth establishment vs the other wisdoms knowing in the deconstruction of the self worth level. Lowering it, but raising it to in a falsified and justified way to produce the opposite wisdom. Offering the opposite of truth, which is the first thoughts replacement, which is the lie. Our first thought fights now with the second wisdoms ability to lower your self worth level, not to ever believe in a possibility, never in fact, but even "in possibility" because that power has the power to make you feel unworthy of anything, in the end result. Whereas the first wisdom is opposite effect of that when human will is re aligned and the person lives in its hearts thought processing the knowledge of self "in heathy balanced heart of continual fullness" when you know how to do that....knowing now to determine truth from lies like a walking lie detector, which is so complexly brilliant to know how to do, now can becomes an everyday proactive lifestyle finally with itself and its life source without any interference, for those who take this training in learning the human algorithm of a duality. A duality in the source of knowledge itself, opposite and apposing each other, but how to work it- to feel spiritual life, instead of killing spiritual life. By re-solving unevolved emotional self as directed "resurrecting" then that spiritual self. This is what Jesus brought didn't he, showing us how to do exactly that?-well here it is in todays speech and speech pattern, minus hopefully my anger and its dark feminine shit that has no place here. What is left though is a clean emotional slate, having self then ready to create new emotional experiences in that newness quality of itself, now alive in its heart when following precisely this method of "killing spiritual death". {HA!} And reviving spiritual life, by resurrecting the emotional structure of self, in the now, while physical. The resurrection is the

reinstatement of our emotional applications of ourselves, applied to our lives, as parts of ourselves....in the things we do in the moment right after calculating hearts thought to formulate behavior from one of the two wisdoms, now cleared of hearts debris of unresolved emotional turmoil, chaos and hoping for a moments peace then, was out of the question. Evil uses unresolved emotional self before as the tool of draining our natural fullness element, by attacking each of the elements of human spirit to specifically separate them internally, as the focus on one at a time now.

And don't get me wrong sometimes we have to use the animal instinct to be safe –its just now you get to keep your happy joy and re build a self worth level and self worth mirror to look into now. Where no need to replace first thought with the lie exists in you, do keep reading stupid, if you get it don't worry. I my self am more stupider than you. And I have the proof to back it up, and still, "I got it" and made me then "un stupid" because of only one thing. I am no longer "willfully ignorant" in which reduces a person "into stupid" eventually, when not in control of its own hearts thought because fear of self expression is its root. This is a good description of the puppet puppeteer relationship dynamic and evil's end result to have self deny that truths reality exists but taking a thin sliver of it, and claiming it then to be the totality of truths knowledge to be accountable for. But what is the root of fearing self expression? in its roots root, in its truest form? other than what happens when evil enters the child and begins to reprogram the raw and emotionally programmable child from its natural state, in a spiritual oneness element with its own life source? Helping to develop the absolute gift of uniqueness itself gave to this child/self who will develop belief of itself, in that wisdom. Programming then its moment "in the emotional right now" which is its goal, and it is its birthing element yes? This is life and how life works so then we know how to do it without going stupid or I mean "willfully ignorant" then we get our apprenticeship papers in becoming the qualification in some way, to achieve a birthing element. And guess what that is –its a godship, can you believe that? If that is what you want, when after becoming a graduate of every level of heaven set out for the secondary human. Who had a stolen spiritual seed from god inside itself, and no one can take that away from us, except those who learned how to

hack the living computer externally and internally, in the electromagnetic pulse in the earth. And the exteriorly, of those who with a specific intent made to disarm human will from itself, while lying cheating and deceiving, them and the tv which is a professional human will removal tool. Then there is a set of tools and tool box and formula of human will removal that works "to disappear" the uniqueness element of the self, from the self, and of the emotional self, of which sustains self, my god what a mess. And now what we know our five loaves of bread in labelling the five elements of spiritual influence, influenced by the god whose strength it is to implement that energy into the person, to give that person spiritual life but understood through physical conduit. The knowledge of good and evil people like me would have expected to be written in a book but it is not. The knowledge of good and evil is internal in each of the two wisdoms, with one birthing the knowledge of the good, and the other there "to kill that life off" in the happy joy left over, when after the first five years of programming the self, in the negative emotional energies. That produces from the second wisdom the intent to do harmful things, and evil things to others, when self feels threatened in some way.

The knowledge of the good.

Movement/gut feeling/intuition in truth is named Barbello, the name of mother god speaking truth and things of truth in silent voice. Silent counsel is "the hope" we feel when truth is troubling or not yet understood. Inside the seed is thought and thought process because what good is knowing truth, left without a thought process to understand it? First thought is the first thought of awareness in the experience, in which then the emotional response is born to feel that spiritual life internally, since the physical emotional response system is spirits conduit that allows entrance into the soul, to give that soul spirit. Forethought is the automatic assumption making department of thought process, where wisdom from the seed then interacts with intellects male version of itself. So as wisdom and intellect search for the right assumption, looking for what is reality this way, is the masculine and feminine element of the self birthing soon then the spiritual child of intent making. Who the son of god is helping us with that energy of our own intellectual wisdom, the Christ consciousness, loaning that power of observation to the inner self, from himself. Placed into us as part of our life source, sourcing

self the gift of knowing truth and emotional response, with the wisdom to understand the emotional depth of such an experience. Where now wisdom takes what intellect found, and in an afterthought born from observing the accumulated knowledge base in self, compares that to the circumstances experience in the now. Felt and analyzed, the wisdom then births the knowing labeled as the daughter in your bibles-in the afterthought of wisdoms birth of a greater emotional knowing to add then to intellects light searching ability for the logic that concludes understanding and completes self emotionally. It is the afterthought that will ignite the action of success in the goal made from that birthing in new emotional understanding, inside self from each new experience. The form in planning logically of what to do with our emotional content, when finished and self acts in that light, then this is now known as the son of the masculine and feminine elements in self, after skillfully masculinizing the emotional content and emotional beliefs, confirming the unconfirmed assumption, before acting-in the light of logics idea of knowing birthed. And in this way the prenatal team birthing children spiritually can raise their children into the emotional maturity, in the calm peaceful quiet in heart as the balanced determined self. Making sure this self does not act in a darkness of the emotional self that will then infect the spiritual soul. And have to then to cleanse self all over again.

The name of the Omni present god in masculine element is unknown, but I think it is Owm. The name of the masculine element of intellect I'm not sure, is it Jesus? And no it is not one of the two sons of the Anunaki, they are as physical and as intelligent as you or I. There were two sons of god born. And one of them the incomplete one, was the one who thought of the secondary human and in the hearts thought of a god, the physical is created, it is the power of a god to do such a thing, isn't it? And it was the incomplete one who lied to those beings to make the secondary human explaining he was giving them the genetic knowledge in that moment to serve them, but really was one big trick to produce humans different from the first, worshiping Omni present god. As to worship this incomplete god as the only god, and when he was finished with the Anunaki, he tossed them out like yesterdays trash in his incompleteness. The whole thing is

finished and the wars, the conflicts and hostilities towards each other are all gone now, because evil was defeated. But they still have the strong hold in our government direction- and there is no question now as to who is in charge of the universe in today's world, just as there is no question which colour of spirit is control of the world's politics. It is light that won all wars in beings who fought those wars, for universal supremacy. And now once again rules the universe with the only worshiping done is when they think terms of truth all day long, which is the behavior itself of worshiping. When the one thing is thought through to an end result, multiple times in hearts thought process, then that is the true reality of worship don't feel guilty it no guilt trip when you heal yourself of the unresolved then you will see how you were never in control of your own thought and thought process not ever since the age of five. vAnd when all said and finished this self still aligned and without distortion now is adding its knowledge found to the knowledge base of self, with a healthy sense of self worth. A bright and shiny and happy self worth mirror to look into then, when in hearts thought of self expression. Of the inner most emotional truth of the self, in depth and relating to its own depth again of its emotional self, in the final element of logic that concludes the knowledge sought. And completes self emotionally when then the life source fills self with that need meeting sense of fullness, from the Pleroma. The self feels whole and complete and emotionally sound. This person experiences its moment in the happy joy almost all day long. And when itself is not with that happy joy, then itself is no longer feeling the negative emotional energies and what replaces it is subject then to the belief system of your own uniqueness.

The knowledge of evil.

The lower self, secondary infection wisdom operated by the ego, dark feminine, mistress wisdom, fear, fear of loss image communication, emptiness and addiction, to self protection behavior and physical substance.

The knowledge of evil in hearts thought comes after the rejection model of parenting the child in the second wisdom, from within the self of the parent. That first destroys the emotional moment in that rejection of movements

communication to self of the child. Lowers the self worth level for the first time becoming then an abrupt and impactful spiritual and emotional trauma to feel for genuine purity to experience for the first time. And because it is trauma to feel in your depth of the emotional core, then this is something the young self then decides itself wants "no more" of it coming, itself "sees coming" in its now infected forethought ability. Now seeing into an assumed future of "more rejection and pain coming" in just the thought now of natural self expression of its emotional truth, now programming itself to expect it. Igniting the amplified effect of an over amped fearing. Now with sub conscious confused as to what is needed to help self in the moment, and since this child is continually afraid of rejection then the sub conscious will bring into the now any fear in reserve to harness the thought of the self protection behavior, to use to defend its flesh from being eaten I mean, defend its hearts from dyeing inside because parents are unresolved and un educated. So the self then reacts in the panic in this experience of realizing the self is so completely alone in the way its heart thinks and feels, as compared to the emotional description of the emotional observation of the child's emotional self. When self realizes rejection is coming from the only gods the child knows- who are its parents. This is registered in the electromagnetic pulse in the earth, who evil detects but cant detect the positive emotional energies, and does not even see us when in the happy joy element of our human innocence. And then darkens the self worth mirror when we look into after being parented like that. We look into that mirror and decide that what looks back is still as unworthy as the first time evil described unworthiness to the inner young self, pitting you against your own life source by lying to the young innocence in self-who is the child/the self/you/me at that vulnerable age. In trusting everything naturally because that's what purity does in its end result for the human being, it allows life to then be lived without interference. Who the god of truth and the first wisdom didn't know would happen in its end result, because he does not know what the self of anyone does with the truth in itself, otherwise it wouldn't be human will at all driving the bus. The child believes now its lowered self worth level, believes it, and becomes emotionally deadened to the point of developing the puppet puppeteer relationship dynamic, between now the lower self dominance in self, of the natural higher self you were born as, which is the

inner self relating to two different wisdoms one explaining the worthiness of self. And the other one trying to convince you, you must be worthless because they rejected your expression "therefore then" {in afterthought} the self of the early self determines itself is unworthy. But tis not any part of the self speaking to self it is an outside influence who learned how to hack the living computer and assume the emotional death of self. And the newly established lower self, infiltrated this way who now the two wisdoms are appearing to be fighting with each other internally, but that's not the life source arguing with anyone. The life source speaks in silence of life, that has nothing to do with the chaos in hearts thought, with the knowledge of evil in the second wisdom, who creates by itself and on its own, to then the opposite of our natural happy joy born from innocence, with its weight in leveraging the child's fear. With the knowing of potentially, of what "might be" and what "can be lost", if self were to speak from its genuine emotional truth again. Knowing this might be a child rejected and neglected, and if it is, this evil in its second wisdom then "comes into the daughter element of the inner emotional self". To then distort and confuse self with this first infection of hearts thought with its darkening agent, and darkening intent. Which is its only intent at that time because it depends on the child's strengths and weaknesses, that allows entry, even at that point. Here, evil then has to test the waters in the self, to see if that inner emotional strength exists, and if it does then evil keeps looking for its invitation pulse coming from the hearts of each one of us. This introduction in evil is played out identically for each one of us in the introduction of this evil appearing though "as a savior" to the young, emotionally raw, and programmable emotional state. This second wisdom says to its host hoping the host will accept its wisdom, says "look", they rejected your words of the emotional self. So then "therefore" {darkening the first wisdom} they must find your feelings "then" unworthy of acknowledgement. {Calculating hearts thought with now a darkened feminine element from its natural and genuine purity.} And if that's the case then "you must then therefore be as unworthy" {the formulation of the concluded thought in afterthoughts department of thought process, but now is a dark feminine element speaking these things, and no longer the sacred feminine element of life speaking these things-but took life to say from those things of life you see? Where the self of the

little boy or the self of the little girl then runs to their parents for acknowledgment and emotional safety, but gets the opposite from its possessed parents infected with the deadening effect of the second wisdom in themselves. Who did not turn evil and is thinking itself is doing a good job in directing the child, but in reality is enabling the duality themselves because the tv told them to in the way it showed you how to treat the child when watching tv as a child. And no person should ever think of having children while spiritually diseased with a second wisdom and filled with the mistress wisdom of hate greed and all the pedophilia you have to do to achieve those things for yourself. That causes other spiritual diseases of the mind, like cognitive dissonance and addiction, the two main ingredients for separation and spiritual division. Of working with the same truth in two different ways, opposite each other, leaving self to choose one of its path making wisdoms, and follows its lead because now you know why and how. But if two people who know themselves have child together, who knows the knowledge base of the keys of knowledge knowing then to know itself first before having a child, then evil will be destroyed before it has the opportunity to see a distortion coming from you. Now working the child's experience of feeling rejected producing the feeling of humiliation and embarrassment and feeling then ridiculed, and uses these three negative emotional energies as emotional self to feel when in hearts thought of genuine self expression in every waking moment it can. Coming back each time in this emotional loop of emotional awareness to focus on in the unresolved state, when emotional in the now forming now the dark feminine of fearing the emotional self. And from this moment on the self loses a little bit of its fullness element each time this happens, which is every single time the child feels and wants to express, but is stopped by an electronic signal, and not stopped by life. To turn it into an emotional darkness, then who itself in our ego says, "look", its better then to lie of how your feeling so they do not know when to reject you, and you'll never feel that pain again. In this way we accept this emotional darkening tool from evil, while thinking the knowing is there to save self from emotional pain coming, with the warning the emotional pain is coming. So keep lying and you will be safe. This we all hear at that age in egos voice but after a while slowly changes into the child's own tone, leaving it then undistinguishable to the self, of the self of each child now believing in one

voice from the ego, who now we think is ourselves at that age. Speaking the negative self talk that maintains the lowered self worth level, but now its self doing this to self, because we are programmed by this evil to self destruct, and this is what the first self destruction looks like. God thank you Jesus for showing us this because all along I thought I was in the right and every one else wrong, but now I know it was distortion claiming to be reality. The ego is the masculine element of his dark feminine element of fear and fearing loss as its communication element to the inner self in that influence in spiritual death, working in opposite of spiritual life-it is the evil spirit influence/devil/Satan/dragon/viper/spiritual pedophile, and its power is limited to erasing self worth and have the self question itself in allow self worth level leaving behind an emotional wreck not knowing how deal with it.

This is how the infection begins in each one of us, and now the learning in how to remove this human will removal method of doing so, is here as well. The mistress wisdom of hate vs the sister wisdom of love, are both behavioral in intent made, in its end result which in the son of the masculine element equipped with emotional maturity, rebirths life from the life first birthed within itself. The dark wisdoms ego and dark feminine and mistress wisdom of hate, takes the current truth and compares it to the unresolved memory itself orders from the subconscious to retrieve from emotional memory. To retrieve the unresolved emotional information and then "amplify the fearing" of self expression. And now just in this thought of genuine self expression, the self is confined to its emotional emptiness- and is now looking for distraction. Who the mistress wisdoms then line up, will tell you what to hunt for and why, but leaving with self only a vague idea of what's happening to itself emotionally, not able then to pin point and conclude thought the way we are meant to anymore. And if this is the main frame of hearts thought programming, then this person turns to the evil appearing as emotional savior for the knowledge of the lie, and its manipulation tactics are also given as tools and tool box of human will "running away" from its emotional self. Some use tools and tool box and even the formula of human will removal "to run from its own emotional truth" through distraction manipulation. To get the hell out of the because the dark feminine, although its didn't turn this one evil, did in

fact turn this one into its emotional puppet, and cant stand to be alone with its own emotional truth.

Evil's "way in" has been described to you, it is its only way into the self, to join with the same electromagnetic pulse in the earth, going directly into the human heart. Feeding self their spiritual energy and its fullness element of need meeting capacity, but evil comes in as described to drain us of that fullness, with specific intent to disrupt and distort hearts thought of self. Destroy self worth and sever the primary emotional bond with the first wisdom, distorting your spiritual self worth mirror that helps the emotional looping confirm itself internally, confirming then the self who acknowledges its own lowered self worth.

The mother truth element and our sisters wisdom element of empathies knowledge base, both giving to the final feminine element of self, in its own knowing of truth and its emotional response, with the ability to know and understand the emotional content of another person. But still with the oneness element in feeding from that first wisdom naturally, until evil accesses and performs then the same type of deceit manipulation, emotionally.

As my three pedophiles did to me as child first, before they, each of then "all used" these same tools and toolbox and formula of human will removal, that then enabled their young victim to remove his own underwear. To then seek to please the pedophile sexually, as to then, as promised by the same evil intent to con the child into removing my own underwear, using its spiritual elements of light, to now direct its evil intent. To then get my emotional needs met emotionally ...and again my god what an evil despicable mess we are in, yes? Those tools are inside the tool box of pure evil to do this in the first place, that enables evil in the adult later if itself is successful at total removal of the good wisdom the first wisdom of life.

Those tools are the cunning deceit of emotional manipulation of human truth and trust {when evil says look, they reject you so lie} leveraged by the fear of loss of something specific to the emotional need and its physical safety element {if you don't lie then pain returns} all the while targeting self worth, to lower self worth to enable then the puppet puppeteer relationship dynamic between the human

will of the child, and the second wisdom. {when it say you must be as unworthy which is the egos voice but the ego is not self – it is an evil physical being who found a way electronically to hack our living computer, to then assume the human will of self. Replacing our sister wisdoms, with her mistress wisdom, to calculate hearts thought with, instead of the natural Christ consciousness we are born with. The formula of human will removal in the emotional moment and in every single one of them “must use this formula” for evil to establish itself as the second wisdom dominance of emotional programing, in intent making. The first step is to 1-disrupt the normal spiritual connection with the emotional truth of the self as described. Second is 2-to sever the primary emotional bonding with the first wisdom. Being now introduced to the second wisdom, of which speaks the opposite of truth and what to do with truth of the emotional self. So 3-lowering self worth to have then self “question self” forming then its cognitive dissidence that will not allow for a decision to made at all. Without the lowered self worth we tell evil and its disguise in us like this “to bugger off” when the first doubt in self, of self appears, just like the first feminine element of Adam did. Evil needs to extract the unresolved emotional content and use later in the “next” emotional moment, and can’t stop applying itself like this in every emotional moment, ensuring self never then re connects with its own life source this way.

And there you have it, you and the good that you have always been, has been infiltrated by an intelligent being in physical form. Needing electronics to enter and become self spiritually- in a second wisdom that acts like a foreign object in self, because it is a foreign object of the natural, spiritually designed emotional self. There specifically to distort and confuse self in questioning its own hearts thought of itself. this way, while the good person is busy questioning itself, with itself in cognitive dissidence, then makes it harder to detect drug dealers and sexual predators utilizing their tools and tool box and formula...hunting, stalking and preying on our children, even though they do not want sex. But wants something from you- you wouldn't give to that person, or any other person in what ever it is you would otherwise keep for yourself, when asked directly. So this one turning inward asks evil/its own dark feminine “how” to utilize their tools appropriately. As to perform the formula of human will removal to get the dam

thing out of the way long enough to receive what the emotional predator is hunting for while appearing as savior like person –or, with the victims best interest at heart, which isn't the case at all, when trust is used as a tool of evil intent making. What's left to do other than to teach self the skillful emotional management of the inner self who for some can take this information alone and realign hearts thought back in with the mother of our truth, and our sister element of wisdom because its just that powerful, but others will need help understanding.

We are all brothers and sisters of the original first and second sons of god, the real god of invisible non physical spiritual truth, and the means of understanding emotional depth in our Christ consciousness. Who is our own intellectual wisdom as one element, living as described so to learn the skill set of the balanced determined self is the main course of this spiritual meal fed to you by Jesus. And what he said all those years ago, since all of this is from his secret sayings. The skill set of the balanced determined self is itself derived from the Saskatchewan new Start life skills training in communication to self first, and then to others later after that skill is applied. Developed by the love loving hippies of the sixties, which was the time we almost developed back then, this time period now because of them but vi still was to strong. Because believe it or not communication life skills and determining the balanced determined self would have locked up evil while releasing your spirit from its emotional prisons, which is their only one prison spiritually to undue, the emotional one. And when emotionally free, then you will see what I mean by emotional freedom. And your release date from emotional prison should take place within about a month-for me it was three weeks and I had hell itself programing me emotionally, as many others don't. Most people do not face those kinds of traumas in their childhood except for the spiritual trauma of rejection, which does the same thing in both of us. Separation division between two wisdoms opposite and always apposing each other causing cognitive dissidence leaving self then almost incapable of decision making, and never then committing to that truth in itself. So I'm just saying if it is not hell that programed you -it wouldn't matter because this return to the self and its Christ consciousness in the real way is easy and like the snap of your fingers doing the work after the

three weeks to month is finished with. But take a lot longer to learn the rest of the knowledge base from the keys of knowledge however, you will be without the unresolved pain distorting everything truth is explaining to self in silence.

Takes about three weeks of application of new awareness and those self actualization meditations, then your pain is gone, that's right "completely gone" giving you that new emotional slate ensuring all the negative emotional energy production in you is disappeared. Now really to develop infection free experiences that will be added now to the knowledge base of self reprogramming your heart to live emotionally again. Know and understand the emotional self translate itself into the spiritual self and spiritual light and darkness is first emotional light and darkness and why evil's pedophile machine mocks emotional expression because they fear it so terribly. And with it, the fear and fear of loss programming- running itself in a loop to return "in each" hearts thought of self expression-is completely gone to. In the beginning I was still expecting all that negative crap coming back, hoping it wouldn't but somewhere in my second wisdom saying "of course it will" because 'your not that lucky" and continued attempting to generate the negative emotional energy to fill my heart with. Trying to distract me from my clarity "now" and which I quit waiting a long time ago. And just simply live in my emotional truth while liking it, or not- liking it sometimes, but then you make automatic "it seems" adjustments immediately and I feel centered all the time when I'm not feeling something beautiful in my heart and things are normal again, when before I realized my environment and the abusive people in it. How would you like to live your moment like that? This evil is as strong or as weak as any physical pedophile depending on the adult survivor who gives into its emotional darkness and becomes evil itself, or turns from that evil, knowing through the wisdom of empathy. Most turn to their empathy but left with those tools and tool box, using them for other things, not because your bad people. But because this is the way we are taught or programmed to communicate which results in nothing but more separation and division between us, conquering our emotional connections with each other. In the one up man ship competition we perform with each other, instead of communicating our emotional truths with each other who some will have their stomach turned in

that thought because the tv told you to be embarrassed when witnessing someone else like the Simpsons, mock emotional expression. But emotional expression comes out our words in the description of one's own truth, "being described "emotionally impacted" by what is said, and not what the feeling word describing the emotional response in how it feels. But when speaking words of truth emotional response is there automatically and empathy then tells self how the other person is feeling, and that cant happen when saying if feel this specific "feeling word"- you see? There is a life skill, a communication element of awareness of the emotional self called "the feed back formula" you will have to practice in if your knowledge base lacks emotional understanding of self. It is a mechanical way of programing an emotional focus in the first wisdoms light of logic, you will receive when finished with everything. So do not think self expression is a cartoon, because its not, this is real life with a real danger of loosing that spiritual life while here. And then afterward when being evaluated by evil itself pedophiling us further in the middle place. Which is not god at all, "god rescues us from there" when we know this stuff and study Pistas Sophia and every other scroll you can get your hands on to study what else you can get your hands on to then be rescued from the middle place, if the place even exists. still now that we are in the new time, which I cant see them still in operation with what will happen shortly when after thy are taken from us so we can live life in the happy joy again, without anyone hunting our children for hunger machine status. Which is where I derive a lot of my knowledge in unresolved pain for the dark feminine element of what evil is experiencing it, the rest of my understanding comes from Jesus secret sayings and my realignment. My point is that whatever your hearts success is, or what its goal is -is completely attainable when finished in your realignment training. You will live again I promise you that, and the extent to which you take you goals made, and hopefully there still the same ones you made as a child- but regardless, that extent is dependant on human will and the uniqueness element in you. Who god fuels with himself until "you, their child" is strong enough to do it yourself. The perfect mother father in one being, in masculine element masculinizing his own feminine element, who she first impregnates his thought with emotional, loving, heart felt truth. When she said what about the uniqueness left behind after we clean up our mess that

we both made? He said from the womb birthing that knowledge from the his logic that said to him have mercy on them because there's a pedophile at the helm. And in reality, their programming is isn't their fault since their seed in is us. Which he could have snapped his spiritual fingers knowing the impurity and evil coming from us and made the whole thing disappear but logic told him not to, from his intellect. But when you think in a logic that children are duplicated parents, except for the uniqueness element and the differences they react in reacting to the same emotional responses. Who simply wants you to remember your own depth again, and you can with a little help from our friends and from self included "in its own human will to finally the right and correct way to learn grow and evolve in hearts spirit, and hearts mind "minding those spiritual children". As the qualified spiritual parents in masculine and feminine element ensuring self receives truth from only her in its end result.

The human will to do these things will advance the souls spirit and the continuance of your spiritual life depends on self achieve that level of knowing self in its own emotional depth, here and now.... for then,, and you still living as a spirit being "continuing on" in your spiritual evolution.

Or being taught something else the hard way, which I don't think at all that is it for the committed evil and ungodly people of this earth. But maybe a incarnate or two "or ten" might allow self to finally become aware of its emotional self then. Because believe it or not mr and ms middle class we had the same human will removal programming enabled by a will to do so but also utilizing the tools and tool box of evils intent to use the formal of human will removal. Who you now use those tools as your communication element as seen on tv, your god since you spend hours worshiping it. More in memory than in real time remembering how the tv has been turned "into a pedophile machine" in the emotional levels of undoing self from its human will emotionally. Now programming self emotionally with half truths and thin slivers of truth making it appear then emotionally as if the totality of truths knowledge is spoken. The separation will happen. I grew up all my life hearing how the meek shall inherit the earth and when I fund out what that word meant, I felt a little hope but that was quickly extinguished as a hope like all hope was for me back then. Who the native then will be called upon for

their direction in which then you find value in them. But isn't that something we needed to earn as respect first? You know what I mean- when deadened white people beg them for their spiritual knowledge to get themselves undone from becoming undone by an evil physical being who found a way electronically to hack the living computer, to build white people in the first place-who those of the light believed there still is hope for any distortion left with the rest of us and then there will be a lot of work to do. Because one we have a new decision making element in the first wisdom in government, then there will be those government employees who will still be with that infection not knowing what to do. They must not ever be allowed decision making for others ever again because they are programmed in their hearts to see evil and understand that to be punishment for violating one of their rules.

Those people, if any are left that is because their infection is thick dark blackness in their first wisdom in the hearts, work the vulnerable people on welfare, wcb judge, cop, probation, jailing staff, court staff, who refused to help but did everything in their power to hurt them or re punish the vulnerable for what ever reason. By withholding vital resources and services no government wants you to know about. Did you know at a canadina wcb office case managers look for reasons not to honor what they say is the reason for taking the tax dollar in the first place. Do not care of the medical condition you are in and somehow feels good to see the injured worker suffer to develop causative injuries from that neglect. Did you know the welfare worker a few of them, do the same using their leveraging element of toying with people who are desperate or withholds vital services and information from those people? Did you know monitoring staff for the criminal alcoholic. Probation officers and the likes a few of those ones...love to leverage control manipulation over their victims? Did you know these things? I did. And since I've experienced those things, along with my woman who witnessed everything, then I have first hand information from front line circumstances in how the end result of your current government system works to destroy you the innocent person and me the criminal alcoholic who did time for acquiring a disease element sold to me by the ones the judge is protecting when blaming me for

getting sick off their psycho active substance for sale. So putting all your faith into this ex back ally junkie you wont have to do, just ask her in you now. Then offer them spiritual realignment training if they still exist on this planet at the time of the event about to happen, that will wake us up a little better in the end result to listen to that which will ignite a silent thought shared with you by your mother.

Listen with ears to the physical cue, and hear with your hearts what that direction is. Until then, change what's internal, preparing for that day, if that is what you choose to do. Through either a healthy human will-will these ones admit to their own silence the truth they've been denying to her inside themselves, or continue to do the same voodoo "you do" so well, and then we loose you. Who even the wcb fuck on my case file I wouldn't want to see him go to prison planet just because he caused great physical and emotional and spiritual damage to me. I'm really mad about but still right? If they do the wor then that persona will be gone from them i now this to be the guarantee already so i wont hate then what comes out of them because will love it as much as what comes out of me now which is back to righteous anger reactional state. Not hate result from calculating my hearts thought with the angry persons wisdom who first acknowledges the emotional pain but only then to pin point blame and seek retribution in the one up man ship competing element between us, as seen on tv's everywhere with children growing up thinking in their alfa state –pogroming that this must be reality, so I will adopt that persona and that behavior to my own persona.

Who ever has it in their hearts of hate and hating, as emotional ongoing programming, needs to introduce themselves to those self healing meditations. So you will not hate anymore and you wont because you are no longer generating the angry persons wisdom, not because for some magical skill or understanding or anything else other than because there is no more unresolved emotional pain left to exploit and manipulate into a fear and then into a fear of potential loss, seen in an image by itself not with silent voice, but with ego's voice saying those things. Of self destruction first and then of hurting others who get in your way or who you target specifically to hurt with intent. To feel then "what" as the result of feeling then satisfied self won the emotional competing in the moment? What is the feeling that you feed from in that moment because I've seen it so many times

but never experienced it.... I think, or maybe my years of psycho active substance abuse wont let me remember, I don't know. So I'll just ask you, what exactly do you people feel when hurting each other in terms of removing the other person sense of worth of itself? i mean never mind because non of that matters after the heart is realigned with the truth element in self. Which means to say back to the silence that speaks to you if there is acknowledgment in that translation of the emotional self, of self of the same truth. When emotionally deadened, takes us from that moment of responding to the spiritual mother gods communication element within self with in its seed. This is what the Talmud stole from the first secondary humans distorting their spiritual training read from t stolen keys of knowledge. And who they still maintain with the catholic church wo has the same god and belief system and obviously the same sexual direction that obviously got out of their lustful hands and grip since they been how many now? how many priests have been charged now? Is it past five thousand yet"? When the distortions are gone and vanished and disappeared from you, you will begin again to see reality for what silence tells you it is. By exhibiting the truth of the circumstance which we feel this in our hearts, as well as acknowledge it cognitively. And takes the whole of self to consider with in intellectual wisdom, in the silence with silent voice discussing the truth of the emotional self with self. And when you say yes it is truth I feel and know of because the light from god in thought we know as logics light illuminating emotional truth and what it means in emotional depth. This is exactly what the spiritual pedophile does to each one of us, stealing then ownership over our own human will. From ages zero to five years, after each new understand born with the chid being in the natural oneness state ready and then suddenly and traumatically robbed of its emotional safety when the child begins to acknowledge rejections trauma in its heart, setting off the pulse that attracts those demons of misery working us the way they do for the re of the child's life until usually the wisdom of a fifty year old its them and then they begin to consider these same things but not knowing what was happening and it is so very much unfair so what ever is unfair will be hunted down killed and skinned and then I'll use it as my living room rug... or was that my den? I don't remember what I saw on tv that told me so, but that's what I want. Because it will all have been resolved you see, taking away also the fearing programing the

negative emotional energy looping programming , the programming to be recalled anymore because it just will not happen. You will look to recall from memory but nothing will be there since you've been programing yourself for years in the fantasy making of our duality and nothing that is not truth remains. So in your purity of innocence now you look for the accurate emotional information your seeking without feeling those things from the dark feminine element of the ego and its evil spirit influence. And then loo at the same things you looked at while with a heart filled with a fucking pedophile waiting for spiritual children to be born, to get off on some kind of evil dark spiritual ejaculate when receiving hate in human will through this theft. If you still exist with the rest of us means you earned it, because you never lost it, or you earned it back by realigning your hearts thought back in with the truth itself, and nothing else. Some think its emotional response but that's not real, It is truth itself your masculine hearts thought "must commit to"! Committing then to the truth in everything else, not just your emotional state, and then visualize as described by buddy and buddy and buddy and their buddy is describing on you tube teaching what they know in personal development, which has been a great help in learning stuff so thank you for that. But the point is what is shown here is important to know use and apply to your communication element sure but all the help offered cant come from one source just be sure to do as you do here.... take what fits and toss the rest out like it was a falsehood, a lie or a mistake I'm making in being wrong about anything. When we are emotionally complete and feel it then we can visualize without the old programming coming into distortion very thing and realize nothing then in any goal made because the inspiration fuel changes into the negative emotional energy to feel then, an no amount of visualization can do what's needed to heal the unresolved hurt in self, and doubt in self-generating the three negative emotional energies to feel in the moment because these things then interfere in your visualization meditations you did with the great hope the secret offered people, in its direction into believing and trusting in the self and making the visualizations that will achieve that, but that cant work when we are programmed to lose faith in the self. Feel low self worth all the time and loose finally the trust and belief in the self, producing then the lower self dominance possessing people, in the negative emotional way, producing negative emotional

energies as described. And not the inspiration fuel keeping the spiritual child alive in hearts thought of your visualized goal, already then to feel the emotional self, as self would feel in a reality of owning the house already. It was from my experiences trying to heal from my multiple diseases of addictions to various things but the dominant one was self protection behavior. Offering then the wisdom of low self worth and convince our self we are not worthy this way and that way and all other ways. And in no way then can a healthy emotional thought generated like that survives the unresolved shit that amplifies itself to take self then into the hearts thought of not trusting self, and not believing in its own emotional depth you see? Healing the emotional structure of self enables that teaching to then focus on the emotional reality as if it was truth already experienced, and self continues to feel this in its visualization and self in its hearts emotional daughter of emotional knowing {of the circumstance of self in the now}, looks to wisdom for its knowing in what might self do next, base on that emotional information who then hooks up with intellect when self isn't afraid to find that light in logic that will explain everything the self needs to know in the moment like that. This is your natural spiritual self in its natural algorithm, and mine to. Till it is stolen from us all in early childhood by the same pedophilic energy engulfing the heart like that is identical to the physical pedophiles way of doing the same, which I've noticed its algorithm to show you and me to, how it infects us all, the same way for a different way of pedophiling a child. And turns into the lower self dominance and projecting then a different persona than what self is born with, who is so completely murderable and killable now, not the self-only the energy and its intent of that energy. Will be gone from you so you can be ready for "day one" of the new time, which begins in our hearts soon shortly after this event about to happen to us all, to experience on a mass scale. And I'm here to tell you from experience my greatest teacher of both the dark feminine element and the sacred feminine element, Jesus knew that. Desire wont be evil when the emotional self is healed. Because then there will be no more dark feminine element in you to produce fear and its angry persons wisdom causing emptiness needing then a replacement of what you don't know of, or how to refill with. Causing then a hunger for the fullness to return after the longing for it is no longer enough to alarm the child to then go alarm its parents, but what hey her

they do not recognize and then rejects what the child is trying tell you truthfully....because it has to since is truth is natural to itself, and natural then to each one of us, of physical children birthing spiritual children. To be met with either spiritual life in the first wisdoms birthing element supporting life itself, in self In acknowledgement if its expressions. Or with the pedophilic influence there to utilize the same tools and human will removal formula as the physical pedophile uses in the same second wisdom -so carefully, to make sure it is the child's will, who wants sex from itself. Therefore then, "not" making him a rapist...and somehow they end up believing their own justifications or the known evil their doing.

Who did not teach the evil spiritual influence how to do anything, I do believe the evil spirit influence taught the physical pedophile how to do the voodoo its does so cunningly evil, that it even convinces itself of its own lies of justifications of removing thin sliver of truth knowledge from its calculating in hearts thought of only the selfishly demined self. And now that we know how to judge and how to react to it in empathy perhaps the rest of the white left over at that time can join in what the intent making naturally in native people already and use the first wisdom in all things in their end result of what I've witnessed myself already. Their display is exactly this and comes from even the heaviest of people in jail. Where it does not from the heaviest white guy... you see our challenge white fuck, just like me... trying to deal with our circumstance? Or not? Anyway, finish with this knowing an training and then start visualizing as the secret tells you to, and then see what happens differently now. If those ones who are almost gone...but still here after the physical separation between the good, and the evil people.... means there is still hope for them. But they all must be dealt with in the way we deal with all diseases that cause death and quarantine them if they are still possessed that is...Enoch says it all gets taken from its root, but as god works in mysterious ways then what to expect-i don't think anything of human behavior ill change unless through the human will to decide it, because that just isn't up o god. So we all know the quarantine involves no jail and no suffering but continuous care and when we make the system like that and then take what evil and what seem like irreversible damage an lock them up alright and no bloody

kidding but make sure they feel cared for and even loved by the continuous offer of help and living in a quality community with others until they prove themselves to be pedophilic in themselves so then lock them up in a bog room with lots of things to do and never ever leave them alone again. And schedule them life skills training to see then if they become infection free enough to be let out in the open with their spiritual beings in light. "With our children" who will have knight after knight in shining armor "at the ready" to help and protect them all, and will do so immediately operating through the new decision making process coming from only the first wisdoms birth of knowledge.

But that's another day in today's world and right now let's see who will, and who will not "now" inside themselves in choosing one of our two wisdoms and its hearts thought process, being led then by its masculine element of directional thought, shall we? And my empathy for them is alive and as alive as any victim because this person still is like you and me, a victim first. That is why there is automatic forgiveness, even for the worst evil that comes out of a person when they find a way to feel bad for what they've done to others. And the re-installing the first wisdom after reprogramming the self emotionally back to the original and natural algorithm of human spirit. And the student then meets the need in a functional way never to hurt another person again, because that spiritual ugliness is "just gone" from the person, and it really is incredible to experience and then experience this same thing in others is just as an incredible feeling of inspiration fueled hearts thought of it.. to add to the new emotional memory bank and the happy joy to recall in memory when needed again instead of the deadening crap the second wisdom is about and offer as itself for the unique self, to feel...now to refill the knowledge base of self in self with the positive emotional energies, then you will be good to move on to grade two of your spiritual education, so congratulations you did it by your own will to do so. Because when finished in this kindergarten apprenticeship in earning your name, then you go into the adult apprenticeship of a being wanting to, and being helped to become "the power of a god's love in the first birthing ability", can you believe that?

Ladies and gentlemen who wish to remain in the purity of themselves will make the intent to do everything in its power to make these changes since Enoch

said what is to happen when ten thousand pf has friends come to remove evil and the ungodly from this place and place them on their own earth, in whatever form their prison planet will be in but ill tell you -you will have the same government creeping up on us now. It's the same Nazi belief but more so than Hitler ever imagined. And guess who is schedule the to be born a jew {or wat ever form of hating a aperson is in at that time} on that planet when they are reincarnated their instead of here. In this symbolic way of describing living in living hell. Or, maybe you'll be one who can contribute to the state... who knows. Do that who. You will become the victim of the government yourself because you cant see the horrific harm your doing in your immediate space with another person, and its ripple effect affecting then all people on this planet. How you ask? Then go look for yourself what evil has been exposed in all governments and what evil has been exposed in the monarchy. I drank with willie once who told us that story when he was taken from his home and went to residential school. and the queen and her bitch took ten... or twelve? kids and didn't return them and Willy didn't know why he wasn't chosen to be taken, never to be seen again. And for the other things so many others who do not know each other but accuse them "of the same things" as their victims, like almost willie but certainly his friends who all of them according to government policy said they can go kidnap children from their homes, which they did for years and years and years when they weren't killing them or raping those children. Because none of it was in cunning deceit but the violent kind of threatening that said if you didn't become sexual with the priest, then they would kill you. And many were murdered for refusing to have sex with the priest because the purity in their hearts of the same spirit you need to speak with now, of this tragic state we live in still. Which at a very minimum can be used as information and teaching in how to detect evil from ever returning ever again. Just like all the ancient writings told us to be aware of because it was coming back -but all of that knowledge base was destroyed except for wat that boy found in the desert.

Left behind by a thoughtful individual who helped to save many in todays world.
{HA!}

I grew up relating with parents relating with the system. Sure they were abusive parents, but smart survivors of a system that continually left lacking and hunger in its tracks, while claiming the opposite of that. I then grew up in my teens in that same system treating now the teenager secondary human being, with masculine and feminine elements separated then. In the terrible way of living through the fresh emotional pain with only weed and booze numb that pain. And nothing else available to help mentally, but everything there that made sure I remained exactly where I was stuck without hope. But obviously with the disease of addiction to weed and booze, since then I've experienced first hand from each of the government agencies implementing their purity in the absolute in evil, in helping a government body destroy its people, in each of the multiple departments of government implementation of its policies and laws derived from the second wisdom and thin sliver of truth.

Which now, being pain free and in the happy joy most of the time, now I see clearly how the obstacle filled policies puppeteered the victim and did nothing for the well being for the individual-being forced fed the lie as a government body helping people. Turning the public to believe this is true in their heart, but being the exact opposite in their behavior, and people are beginning to feel this in their hearts of truth.

The absolute in enemy...who found your internal gate, the narrow gate Jesus speaks of and is using it as a tool for evil to enter into the very many. With you the secondary human being still as programmable as the early self was is now acting in accordance with government policies and if we don't then they burn us alive I mean they put us in jail... where we might or might not have our heads smashed into the concrete or be pushed I mean fell down the elevator shaft and die a horrific death that way instead. So in this way you still have a fighting chance of not being tortured and murdered just by doing time for not complying with the states policy to blame the victim for contracting a deadly disease from their psycho active substance for sale. Because saving the world isn't my thing nor is it to save Edmonton because nothing needs saving and no one needs a warning. Because of the event about to happen will explain everything to everyone, when after god the father of truth and his first wisdom send his family, ten thousand of

them to help after evil and ungodly people are taken from this place, and we are left to clean this mess up. There has been spiritual pedophile who I myself and countless other survivors of sexual abuse understands the emotional manipulating tactics of someone who hates to be called a rapist. So itself maneuvers the child's heart and mind into believing that if I myself removed its own underwear for the sexual predator, then I would get my emotional needs met as the four year old I was.

This can be used as a template of knowing what never to do again because if this does happen again the instigator and all his friends will be taken from this earth and never to return to the easy education ever again. And after the separation from the evil in this world and there becomes another money hungry or sex starved individual put in control of any part of humanity and takes advantage of their trusting, then you will not be reincarnated here but on prison planet, run by a pedophilic government. I promise you there will be an education in the new time and any gays left over then, better watch their p's and q's around children then, because if they dare try to influence a child then, they will... well I don't know for sure, but you better believe you receive an emotional tune up "minimum". And if you do not fear hurting gods feelings then you will feel the fear of my anger then kindergarten. Worst case, is you being the influence to any child on prison planet. Where no one will ever interfere except to ask you for its own turn. Who that child and all children born and reborn there then, and reborn again and again and again...are the ones here and now, who love their evil and hate empathy for others. Loving to hate and about to learn the hard way what its like to live under the control manipulation of a government like ours, because your government now will evolve to were its going and those welfare worker and wcb and cop judges crown representative the kings and queens politicians and dirty cops and the likes will be removed from this place, unless one of you or a few of you show some kind of hope still as you there and did nothing in terms of your own personal development.

jailers and child welfare people...all of them who loves to hate the lower class of people wrecking everything for them, and there's proof to, "look" the tv told you so...so, this gives them the excuse to help the pedophilic government who we all

{of those who worship truth} see as a mother seeing what the pedophilic father is doing to her children. But the mother too selfish to pay any attention to the truth moving in her, and the wisdom of empathy screaming at her to save the child from that monster. Let me explain.....But before that, let's take another look at secret saying one fourteen. And then look at number one in his secret sayings and decide for yourself what to do next.

Secret saying # (114) Simon Peter said to him, "Let Mary leave us, for women are not worthy of life." Jesus said, "I myself shall lead her in order to make her male, so that she too may become a living spirit resembling you males. For every woman who will make herself male will enter the kingdom of heaven."

The final is his end result goal for you to understand to masculinize the feminine element in self, using the life source and its spiritual equipment to earn a rebirthing element permanently. To see then if you want to attempt to earn the birthing element itself, and is a difficult thing to pull off, but the opportunity is there if the need is in you. No other reason other than to have graduated this hell but in reality is only the kindergarten state of an education that will earn anyone of us the rebirthing element, which is the same element you have now except you get to keep it when at the time of the loans recalled, of that seed.
